Developing Effective Student Peer Mentoring Programs Peter J. Collier,2023-07-03 At a time when college completion is a major issue and there is particular concern about the retention of underserved student populations peer mentoring programs offer one solution to promoting student success This is a comprehensive resource for creating refining and sustaining effective student peer mentoring programs While providing a blueprint for successfully designing programs for a wide range of audiences from freshmen to doctoral students it also offers specific guidance on developing programs targeting three large groups of under served students first generation students international students and student veterans

This guidebook is divided into two main sections. The opening section begins by reviewing the issue of degree non completion as well as college adjustment challenges that all students and those in each of the targeted groups face. Subsequent chapters in section one explore models of traditional and non traditional student transition persistence and belonging address what peer mentoring can realistically achieve and present a rubric for categorizing college student peer mentoring programs. The final chapter in section one provides a detailed framework for assessing students adjustment issues to determine which ones peer mentoring programs can appropriately address. Section two of the guidebook shifts from the theoretical to the practical by covering the nuts and bolts of developing a college student peer mentoring program. The initial chapter in section two covers a range of design issues including establishing a program timeline developing a budget securing funding getting commitments from stakeholders hiring staff recruiting mentors and mentees and developing policies and procedures. Subsequent chapters analyze the strengths and limitations of different program delivery options from paired and group face to face mentoring to their e mentoring equivalents offer guidance on the creation of program content and resources for mentors and mentees and provide mentor training exercises and curricular guidelines. Section two concludes by outlining processes for evaluating programs including setting goals collecting appropriate data and methods of analysis and by offering advice on sustaining and institutionalizing programs. Each chapter opens with a case study illustrating its principal points. This book is primarily intended as a resource for student affairs professionals and program coordinators who are developing new peer mentoring programs or considering refining existing ones. It may also serve as a text in courses designed to train future peer mentors and leaders.

Managing and Developing Sports Officials Tom Webb, David J. Hancock, Pamm Phillips, Jacob K. Tingle, 2024-08-01. This book offers an evidence based guide to the development management and retention of sports officials. Drawing on research at all levels of sport from grassroots to professional this book focuses on best practices for sports officials and for anybody involved in the management or training of sports officials. This book is divided into three parts. The first takes a close look at who sports officials are their motivations and the formal and informal organizational relationships that define an official s position in sport. The second examines the factors that can keep an official engaged in their sport from building healthy cultures and good physical preparation to mentoring and mental health. The final part looks at the development of officials to elite level including effective communication improving decision making interpreting rules and laws and career pathways. With case studies real life examples and the voices of practicing officials included throughout this book it introduces core concepts and best practices applicable across sports and different national and international contexts. This is an essential reference for all sports officials and for practitioners and policymakers working in sports organizations at all levels.

Athena Rising W. Brad Johnson, David G. Smith, 2019-12-03. When it comes to mentoring women face more barriers than men. Here s how men can help change that. Increasingly new employees and junior members of any profession are encouraged sometimes stridently to find a mentor. Four decades of research reveals

that the effects of mentorship can be profound and enduring strong mentoring relationships have the capacity to transform individuals and entire organizations But the mentoring landscape is unequal Evidence consistently shows that women face more barriers in securing mentorships than men and when they do find a mentor they may reap a narrow range of both professional and psychological benefits Athena Rising is a book for men about how to eliminate this problem by mentoring women deliberately and effectively Traditional notions of mentoring are modeled on male to male relationships yet women often report a desire for mentoring that addresses their interpersonal needs Women want mentors who not only understand this but truly honor it Coauthors W Brad Johnson and David G Smith present a straightforward no nonsense manual for men working in all types of institutions organizations and businesses to become excellent mentors to women because as women succeed lean in and assume leading roles in any organization or work context the culture will become more egalitarian effective and prone to retaining top talent

Coaching for Student Retention and Success at the Postsecondary Level: Emerging Research and Opportunities Black, Ruth Claire, 2018-07-03 Online degree programs have long faced the issue of retention and engagement from their students Proper support and guidance for students can encourage continuation in these programs and can help lead to student success Coaching for Student Retention and Success at the Postsecondary Level Emerging Research and Opportunities is a pivotal reference source that provides vital research on the application of student support systems as a promising intervention for post secondary retention and student success While highlighting topics such as student assessment online programs and professional identity this publication explores support strategies that boost retention as well as the methods of using support and guidance to promote student success This book is ideally designed for educational professionals educational organizations educational administrators universities and academics seeking current research on the effects of guidance on student retention rates and success

Becoming a teacher Josef de Beer, 2020-12-31 This book disseminates original research on learning in and from practice in pre service teacher education Authors such as Lederman and Lederman describe the student teaching practicum or work integrated learning WIL which is an essential component of pre service teacher education as the elephant in the room These authors note that the capstone experience in any teacher education programme is the student teaching practicum after all this is where the rubber hits the road However many teacher educators will agree that this WIL component is sometimes very insufficient in assisting the student teacher to develop their own footing and voice as a teacher This is the gap that this research book addresses Most of the chapters in the book report empirical data with the exception of two chapters that can be categorized as systematic reviews WIL is addressed from various angles in the chapters Chapter 6 focuses on research related to what makes Finnish teacher education so effective and in Chapter 4 researchers of the University of Johannesburg disseminate their findings on establishing a teaching school based on Finnish insights in Johannesburg Chapter 3 highlights the challenges faced in open and distance learning teacher education contexts Several of the chapters disseminate research

findings on alternative interventions to classic WIL namely where safe spaces or laboratories are created for student teachers to learn and grow professionally These could either be simulations such as software programmes and avatars in the intervention described in Chapter 2 student excursions as the findings in chapters 5 7 and 10 portray or alternative approaches to WIL e g Chapters 11 and 12 The book is devoted to scholarship in the field of pre service teacher education The target audience is scholars working in the fields of pre service teacher education work integrated learning and self directed learning The book makes a unique contribution in terms of firstly its extensive use of Cultural Historical Activity Theory as a research lens and secondly in drawing on various theoretical frameworks Both quantitative and qualitative research informed the findings of the book
