

# ELEPHANTS

## THE DECIDING DECADE

Edited by RONALD ORENSTEIN • Introduction by RICHARD LEAKY  
Photography by BRIAN BECK

# Elephants The Deciding Decade

**Ronald Isaac Orenstein**

## **Elephants The Deciding Decade:**

**Elephants** Ronald Isaac Orenstein, 1997 *Elephants* International Wildlife Coalition, Ronald Isaac Orenstein, Shoshani, Jeheskel, 1991 **The Exploitation of Mammal Populations** V.J. Taylor, N. Dunstone, 2012-12-06 Human exploitation of other mammals has passed through three historical phases distinct in their ecological significance though overlapping in time Initially Homo sapiens was a predator particularly of herbivores but also of fur bearing predators From about 11 000 years ago goats and sheep were domesticated in the Middle East rapidly replacing gazelles and other game as the principal source of meat The principal crops including wheat and barley were taken into agriculture at about the same time and the resulting Neolithic farming culture spread slowly from there over the subsequent 10 500 years In a few places such as Mexico Peru and China this Middle Eastern culture met and merged with agricultural traditions that had made a similar but independent transition These agricultural traditions provided the essential support for the industrial revolution and for a third phase of industrial exploitation of mammals In this chapter these themes are drawn out and their ecological significance is investigated Some of the impacts of humans on other mammals require consideration on a world wide basis but the chapter concentrates parochially on Great Britain What have been the ecological consequences of our exploitation of other mammals

### 2.2 HISTORICAL PHASES OF EXPLOITATION

#### 2.2.1 Predatory man

Our nearest relatives chimpanzees orang utans and gorillas are essentially forest species deriving most of their diet from the fruits of forest trees and the shoots and leaves of plants

**The White Bone** Barbara Gowdy, 2000-06-03 A brilliantly inspired melding of research into the lives of African elephants and the creation of a distinctly original alternative world Joyce Carol Oates The New York Review of Books In *The White Bone* a novel imagined entirely from the perspective of African elephants Barbara Gowdy creates a world whole and separate that illuminates our own For years young Mud and her family have roamed the high grasses swamps and deserts of the sub Sahara Now the earth is scorched by drought and the mutilated bodies of family and friends lie scattered on the ground shot down by ivory hunters Nothing not the once familiar terrain or the age old rhythms of life or even memory itself seems reliable anymore Yet a slim prophecy of hope is passed on from water hole to water hole the sacred white bone of legend will point the elephants toward the Safe Place And so begins a quest through Africa's vast and perilous plains until at last the survivors face a decisive trial of loyalty and courage In *The White Bone* Barbara Gowdy performs a feat of imagination unparalleled in modern fiction Plunged into an alien landscape we orient ourselves in elephant time elephant space elephant consciousness and begin to feel as Gowdy puts it what it would be like to be that big and gentle to be that imperiled and to have that prodigious memory An astonishingly moving saga Kirkus Reviews Gowdy renders this arid African landscape with a subtle gorgeousness reminiscent of Isak Dinesen The Boston Globe Gowdy here performs her greatest creative feat yet Entertainment Weekly Gowdy has a great gift for sensual description Sarah Boxer The New York Times Book Review *Elephants* Ellen Greene Stewart, 2022-03-04 Elephants are a keystone species and have been a part of the magic

of the thickly forested land of South Africa for millennia This book focuses on the history and work of Knysna Elephant Park a leading South African elephant research facility that has been home to more than 40 elephants in 25 years Unfortunately all the mystique of the Knysna elephant has been reduced to a single elephant left alive Exploring a wide range of topics this book covers the impact of elephants interactions with tourists how they recover from trauma and even their relevance in human healthcare Renowned elephant researchers explain the majesty of the elephant brain which has the largest temporal lobe devoted to communication language spatial memory and cognition To this effect the book emphasizes the threat of poaching to these gentle giants which has almost forced them to extinction Perhaps if humans pay attention to how elephants symbolize our relationship with nature we can learn important lessons about humanity itself **Arming the Periphery** E. Chew, 2012-06-12 A major historical study of the global arms trade revolving around the transfer of small arms from metropolitan Europe to the turbulent frontiers of Indian Ocean societies during the long nineteenth century c 1780 1914

*Conservation and Environmentalism* Robert C. Paehlke, 2013-04-03 Focusing on both problems and solutions this authoritative reference work maintains a healthy balance between science and the social sciences in its coverage of all aspects of the environment The book is arranged alphabetically and is divided into three major sections Ecology Pollution and Sustainability The list of 240 contributors reads like a who's who of the world's leading conservation and environmental professionals Best Reference Source Outstanding Reference Source **Elephants** Ronald Isaac Orenstein, 1997 ELEPHANTS features text by some of the world's leading authorities on the African elephant It has more than 100 color pictures and is very much a celebration of this magnificent animal **The Internationalization of Environmental Protection** Miranda A. Schreurs, Elizabeth Economy, 1997-10-02 Exploring the intersection of the domestic and the international in environmental politics this book presents seven original case studies which show how the internationalization of environmental protection efforts is altering policy making processes policy outcomes and the effectiveness of policy implementation The authors argue that while new norms and institutions for the global environment are emerging which are changing policy making processes at the national and regional levels sub state politics continues to influence strongly the nature of national responses to international environmental problems The volume examines climate change politics in China Japan and Germany ozone layer protection in the United States United Kingdom Japan and Germany East West environmental cooperation and the former Soviet Union Zimbabwe and the Convention on International Trade in Endangered Species biodiversity politics in the United States and United Kingdom and environmental protection within the European Union **Authentic Learning Activities: Data Analysis, Statistics & Probability** Brendan Kelly, 2000 *Elephants* Karen Dudley, 1997 Describes the physical characteristics behavior life cycle and habitat of elephants and presents other information about these creatures including mentions in folklore threats to their existence and more [The Persuasive Pen](#) Nancy Carrick, Lawrence Finsen, 1997 *The Persuasive Pen* offers practical assistance in both the writing process and critical

thinking It teaches students how to think critically and clearly and how to shape ideas convincingly for readers with varying expectations and responses This book will be of interest to anyone who teaches a Critical Thinking course offered in both Philosophy and English departments Informal Logic English Composition Persuasive Writing and other interdisciplinary courses in which argumentation writing and research skills are emphasized

**Elephant** Doran H. Ross,1992 The elephant is abundantly represented in African culture In this lavishly illustrated anthology eighteen scholars pay homage to both the African elephant and African creativity The elephant s natural history is the starting point for this collection Other essays discuss the animal s place in religious imagery local economies and regional cultures The global appetite for ivory and the consequences of the ivory trade are the focus of two essays and of the epilogue which also discusses the elephant as an endangered species This volume bridges the gap that often separates the scholar from the general reader Its visual mini essays are entertaining and also broaden the scope of the book and the spectacular photographs invite hours of pleasurable exploration

**Yesterday's Dawn** Theresa Scott,2013-02-14 Hunters of the Ice Age At the dawn of time a proud people battled for survival at one with the harsh beauty of the land and its primal rhythms The Mammoth Slayer Named for the massive beast sacred to his people Mamut had proven his strength and courage time and again But when it came to subduing one helpless female he found himself at a distinct disadvantage Never had he realized the power of beguiling green eyes soft curves and berry red lips to weaken a man s resolve He had claimed he would make the stolen woman his captive but he soon learned he would never enjoy her alluring body unless he could first win her elusive heart

**Conservation and Environmentalism** Robert Paehlke,1995 Focusing on problems and solutions this authoritative reference work covers all aspects of the environment from the Everglades to the Himalayas from legislation in Australia to pollution problems in Eastern Europe from tropical rain forests to the Porcupine Caribou herd of the Alaskan and Canadian Arctic Some of the best known environmental professionals from 14 countries around the world have written original articles for this multidisciplinary Encyclopedia including Norman Myers Eugene C Hargrove Reed F Noss Max Oelschlaeger J Baird Callicott George Sessions M S Swaminathan Gilbert F White Michael E Kraft Michael P Cohen Paul Ekins and many others
