Forgotten Coast Coastal Traditions Of Britain And Ireland:

Forgotten Coast Robert Simper, 2002-06-01 *Coastal Works* Nicholas Allen, Nick Groom, Jos Smith, 2017-07-04 In all the complex cultural history of the islands of Britain and Ireland the idea of the coast as a significant representative space is critical For many important artists coastal space has figured as a site from which to braid ideas of empire nation region and archipelago They have been drawn to the coast as a zone of geographical uncertainty in which the self definitions of the nation founder they have been drawn to it as a peripheral space of vestigial wildness of island retreats and experimental living as a network of diverse localities richly endowed with distinctive forms of cultural heritage and as a dynamically interconnected ecosystem which is at the same time the historic site of significant developments in fieldwork and natural science This collection situates these cultures of the Atlantic edge in a series of essays that create new contexts for coastal study in literary history and criticism The contributors frame their research in response to emerging conversations in archipelagic criticism the blue humanities and island studies the essays challenging the reader to reconsider ideas of margin periphery and exchange These twelve case studies establish the coast as a crucial location in the imaginative history of Britain Ireland and the north Atlantic edge *Coastal Works* will appeal to readers of literature and history with an interest in the sea the environment and the archipelago from the 18th century to the present Accessible innovative and provocative *Coastal Works* establishes the important role that the coast plays in our cultural imaginary and suggests a range of methodologies to represent relationships between land sea and cultural work *Sea Breezes* ,2003 **Ships Monthly** ,2003 **The Prehistoric Settlement of Britain** Richard Bradley, 2014-10-24 This study first published in 1978 explores the evidence for pre Roman settlement in Britain Four aspects of the prehistoric economy are described by the author colonisation and clearance arable and pastoral farming transhumance and nomadism and hunting gathering and fishing These aspects have been brought together to formulate a structure which contains the evidence more naturally than chronological schemes that depend on assumed changes in population or technology The book draws upon environmental evidence and recent developments in archaeological fieldwork It also provides an extensive exploration of the published literature on the subject and the scope of the evidence Originally conceived as an ideas book rather than a final synthesis the author s intention throughout is to stimulate argument and research and not to replace one dogma with another **Luce Irigaray and Premodern Culture** Elizabeth D. Harvey, Theresa Krier, 2004-08-02 The essays in this groundbreaking collection stage conversations between the thought of the controversial feminist philosopher linguist and psychoanalyst Luce Irigaray and premodern writers ranging from Empedocles and Homer to Shakespeare Spenser and Donne They explore both the pre Enlightenment roots of Luce Irigaray s thought and the impact that her writings have had on our understanding of ancient medieval and Renaissance culture Luce Irigaray has been a major figure in Anglo American literary theory philosophy and gender studies ever since her germinal works *Speculum of the Other Woman* and *This Sex Which Is Not One*

were published in English translation in 1985 This collection is the first sustained examination of Irigaray's crucial relationship to premodern discourses underpinning Western culture and of the transformative effect she has had on scholars working in pre-Enlightenment periods Like Irigaray herself the essays work at the intersections of gender theory historicism and language This collection offers powerful ways of understanding premodern texts through Irigaray's theories that allow us to imagine our past and present relationship to economics science psychoanalysis gender ethics and social communities in new ways

Ireland, Literature, and the Coast Nicholas Allen, 2020-11-05 The island of Ireland is home to one of the world's great literary and artistic traditions This book reads Irish literature and art in context of the island's coastal and maritime cultures beginning with the late imperial experiences of Jack and William Butler Yeats and ending with the contemporary work of Anne Enright and Sinéad Morrissey It includes chapters on key historical texts such as E. V. Rieu's *The Riddle of the Sands* and on contemporary writers including Eilís Ní Chuiléain and Kevin Barry It sets a diverse range of writing and visual art in a fluid panorama of liquid associations that connect Irish literature to an archipelago of other times and places Situated within contemporary conversations about the blue and the environmental humanities this book builds on the upsurge of interest in seas and coasts in literary studies presenting James Joyce Elizabeth Bowen John Banville and many others in new coastal and maritime contexts In doing so it creates a literary and visual narrative of Irish coastal cultures across a seaboard that extends to a planetary configuration of imagined islands

The Lost Dark Age Kingdom of Rheged Ronan Toolis, Christopher Bowles, 2017-01-31 Trusty's Hill is an early medieval fort at Gatehouse of Fleet Dumfries and Galloway The hillfort comprises a fortified citadel defined by a vitrified rampart around its summit with a number of enclosures looping out along lower-lying terraces and crags The approach to its summit is flanked on one side by a circular rock-cut basin and on the other side by Pictish Symbols carved on to the face of a natural

outcrop of bedrock This Pictish inscribed stone is unique in Dumfries and Galloway and southern Scotland and has long puzzled scholars as to why the symbols were carved so far from Pictland and even if they are genuine The Galloway Picts Project launched in 2012 aimed to recover evidence for the archaeological context of the inscribed stone but far from validating the existence of Picts in this southerly region of Scotland the archaeological context instead suggests that the carvings relate to a royal stronghold and place of inauguration for the local Britons of Galloway around AD 600 Examined in the context of contemporary sites across southern Scotland and northern England the archaeological evidence from Galloway suggests that this region may have been the heart of the lost Dark Age kingdom of Rheged a kingdom that was in the late sixth century pre eminent amongst the kingdoms of the north The new archaeological evidence from Trusty's Hill enhances our perception of power politics economy and culture at a time when the foundations for the kingdoms of Scotland England and Wales were being laid

Tijdschrift voor zeegeschiedenis, 2003 *The Folk Handbook* John Morrish, 2007-07 Many of the great songs that have inspired performers around the world in the last 50 years come from the English folk song tradition This book provides words and melodies for nearly 100 songs along with an exploration of their history and meaning the context in which they arose and their value to writers and performers around the world [Europe's Lost Frontiers: Volume 1](#) Vincent Gaffney, Simon Fitch, 2022-08-11 Europe's Lost Frontiers was the largest directed archaeological research project in Europe investigating the inundated landscapes of the Early Holocene North Sea often referred to as Doggerland The first in a series of monographs presenting the results of the project this book provides the context of the study and method statements

Archaeology After Interpretation Benjamin Alberti, Andrew Meirion Jones, Joshua Pollard, 2016-06-16 A new generation of archaeologists has thrown down a challenge to post processual theory arguing that characterizing material symbols as arbitrary overlooks the material character and significance of artifacts This volume showcases the significant departure from previous symbolic approaches that is underway in the discipline It brings together key scholars advancing a variety of cutting edge approaches each emphasizing an understanding of artifacts and materials not in terms of symbols but relationally as a set of associations that compose people's understanding of the world Authors draw on a diversity of intellectual sources and case studies paving a dynamic road ahead for archaeology as a discipline and theoretical approaches to material culture

The Importance of British Material Culture to Historical Archaeologies of the Nineteenth Century Alasdair Mark Brooks, 2016 Britain was the industrial and political powerhouse of the nineteenth century the birthplace of the

Industrial Revolution and the center of the largest empire of the time With its broad imperial reach and even broader indirect influence Britain had a major impact on nineteenth century material culture worldwide Because British manufactured goods were widespread in British colonies and beyond a more nuanced understanding of those goods can enhance the archaeological study of the people who used them far beyond Britain's shores However until recently archaeologists have given relatively little attention to such goods in Britain itself thereby missing what is often revealing and useful contextual information for historical archaeologists working in countries where British goods were consumed while also leaving significant portions of Britain's own archaeological record poorly understood The Importance of British Material Culture to Historical Archaeologies of the Nineteenth Century helps fill these gaps through case studies demonstrating the importance and meaning of mass produced material culture in Britain from the birth of the Industrial Revolution mid 1700s to early World War II By examining many disparate items such as ceramics made for export various goods related to food culture Scottish land documents and artifacts of death these studies enrich both an understanding of Britain itself and the many places it influenced during the height of its international power

The Lost History of Ireland Emmet John Sweeney, 1992

Handbook of the Ulster Question North eastern boundary bureau, 1923

The Dead Tell Tales Maria Cecilia Lozada, Barra O'Donnabhain, 2013-12-31 Honoring Jane Buikstra's pioneering work in the development of bioarchaeological research the essays in this volume stem from a symposium held at the annual meeting of the Society for American Archaeology Multiple generations of Buikstra's former doctoral students and other colleagues gathered to discuss the impact of her mentorship The essays are remarkable for their breadth in terms of both the topics discussed and the geographical range they cover The contributions highlight the dynamism of bioarchaeology which owes so much to the strong foundations laid down over the last few decades The volume documents the degree to which bioarchaeological approaches have become normalized and integrated into anthropological research bioarchaeology has moved out of the appendix and into the interpretation of archaeological data New perspectives have emerged partly in response to theoretical changes within anthropology but also as a result of the engagement of the broader discipline with bioarchaeology
