An American Tragedy Paul A. Orlov, 1998 This book's premise is that a novel's ideas about the human drama are not necessarily the same as those its author consciously holds meaning that a close reading of Theodore Dreiser's artistic portrayal of modern America in *An American Tragedy* reveals the idea that he transcends the empirical premises of his presumed naturalistic thought to affirm the reality of the self and the importance of selfhood Based on this crucial premise and intensive analysis of the novel's text Professor Orlov's study develops an argument offering many original views of the Tragedy's meanings and artistry There is new light here on the fact that Dreiser sees the subversion of the idea of self in a highly materialistic society as the heart of his characters tragic experiences Ultimately then this study suggests that *An American Tragedy* is an antinaturalistic statement about the self's intrinsic importance

from writers such as Henry James Mark Twain and James Russell Lowell to political figures such as Theodore Roosevelt Henry Cabot Lodge and John Hay The first book to analyze in depth and detail the language of Howells's characters in more than a dozen novels this path breaking sociolinguistic approach to Howells's fiction exposes the fundamental contradiction in his realism and in the America he portrayed By representing the speech that separates standard from nonstandard speakers Howells's novels which champion the democratic ideals of equity and unity also demonstrate the power of language to reinforce barriers of race and class in American society Drawing on unpublished letters of Howells James Lowell and others and on scores of articles in nineteenth century periodicals this work of literary criticism and cultural history reaches beyond the work of one writer to address questions of enduring importance to all students of American literature and society

Copyright Office, 1946 *The Problem of American Realism* Michael Davitt Bell, 1993-04-15 Ever since William Dean Howells declared his realism war in the 1880s literary historians have regarded the rise of realism and naturalism as the great development in American post Civil War fiction Yet there are many problems with this generalization It is virtually impossible for example to extract from the novels and manifestoes of American writers of this period any consistent definitions of realism or naturalism as modes of literary representation Rather than seek common traits in widely divergent realist and naturalist literary works Michael Davitt Bell focuses here on the role that these terms played in the social and literary discourse of the 1880s and 1890s Bell argues that in America realism and naturalism never achieved the sort of theoretical rigor that they did in European literary debate Instead the function of these ideas in America was less aesthetic than ideological promoting as reality a version of social normalcy based on radically anti literary and heavily gendered assumptions What effects Bell asks did ideas about realism and naturalism have on writers who embraced and resisted them To answer this question he devotes separate chapters to the work of Howells and Frank Norris the principal American advocates of realism and naturalism in the 1880s and 1890s Mark Twain Henry James Stephen Crane Theodore Dreiser and Sarah Orne Jewett Bell reveals that a chief function of claiming to be a realist or a naturalist was to provide assurance that one was a real man rather than an effeminate artist Since the 1880s Bell asserts all serious American fiction writers have had to contend with this problematic conception of literary realism The true story of the transformation of American fiction after the Civil War is the history of this contention a history of individual accommodations evasions holding actions and occasional triumphs **Modern American Literature** Catherine Morley, 2012-05-11 An incisive study of modern American literature casting new light on its origins and themes
