Race, Social Science and the Crisis of Manhood, 1890-1970 Malinda Alaine Lindquist,2012-05-31 Black Social Science and the Crisis of Manhood 1890 1970 describes the young black male crisis why we are largely unfamiliar with the story of the black superman and why this matters to contemporary debates It does so by returning to the work of those original black social scientists to explore the ways in which they understood the challenges of black manhood offered substantive critiques of the nation s race class and gender systems and worked to construct a progression The careful study of their work reveals the centrality of gender to discussions of race and class and also new possibilities for understanding and discussing black men This book offers a look at pioneering black social scientists as well as a history of the changing perceptions ideals and shifting depictions of black and white manhood over nearly a century

This Is My Jail Melanie Newport,2022-11-15 While state and federal prisons like Attica and Alcatraz occupy a central place in the national consciousness most incarceration in the United States occurs within the walls of local jails In This Is My Jail Melanie D Newport situates the late twentieth century escalation of mass incarceration in a longer history of racialized politically repressive jailing Centering the political actions of people until now overlooked jailed people wardens corrections officers sheriffs and the countless community members who battled over the functions and impact of jails Newport shows how local grassroots contestation shaped the rise of the carceral state As ground zero for struggles over criminal justice reform particularly in the latter half of the twentieth century jails in Chicago and Cook County were models for jailers and advocates across the nation who aimed to redefine jails as institutions of benevolent transformation From a slave sale on the jail steps to new jail buildings to electronic monitoring from therapy to job training these efforts further criminalized jailed people and diminished their capacity to organize for their civil rights With prisoners as famous as Al Capone Dick Gregory and Harold Washington and a place in culture ranging from Upton Sinclair s The Jungle to B B King s Live in Cook County Jail This Is My Jail places jails at the heart of twentieth century urban life and politics As a sweeping history of urban incarceration This Is My Jail shows that jails are critical sites of urban inequality that sustain the racist actions of the police and judges and exacerbate the harms wrought by housing discrimination segregated schools and inaccessible health care

Structured by liberal anti Blackness and legacies of violence today's jails reflect longstanding local commitments to the unfreedom of poor people of color

Flyover Fictions Cornelia Klecker, Sascha Pöhlmann, 2025-04 Flyover Fictions critically engages the history and contemporary use of the flyover country trope in American culture and repurposes the concept as an abstract tool for cultural studies The term flyover arose in the 1970s with variations flyover country flyover states mainly used as synonyms for the American Midwest in intranational banter regarding cultural differences from the dominant urban centers of New York City and Los Angeles In recent years the trope has shifted away from this playfulness and its traditional geographic reference points to indicate larger political and cultural developments that speak of a deepening polarization in the United States Flyover Fictions is an exploration of the trope's current politicization historical contexts and general proliferation of meanings Instead of resolving the ambiguities inherent in the concept the volume considers what can be done with these ambiguities and how precisely their fuzziness might be used to create an analytic tool to describe understand and critique processes of cultural hierarchization The contributors show how flyover fictions may operate in different national contexts and also internationally or transnationally not only providing a fresh perspective on historical and contemporary American culture but also supplying a conceptual toolbox for broader use

Writing Unemployment Jody Mason, 2013-01-01 This landmark study explores the cultural and literary history of unemployment in Canada from the 1920s to the 1970s which were crucial decades in the formation of our current conception of Canada as a nation Writing Unemployment asks how writers with diverse political affiliations participated in and protested against the discursive framing of unemployment It argues that Depression era conceptions of unemployment shaped later twentieth century understandings of both worklessness and citizenship By examining novels short stories poetry manifestos

and agitprop Jody Mason situates the literary history of the cultural left in a broader context challenges the dominant literary historical narrative of the pioneer settler and contributes to new scholarship on Canada's modern period By bridging close textual readings with book and publishing history economic and sociological analysis and original archival research Writing Unemployment offers new ideas on work by many of Canada's most important writers To Increase Compensation of Officers and Employees of the Federal Government, Hearings Before a Subcommittee ..., on S. 1415, November 2-9, 1495 United States. Congress. Senate. Committee on Civil Service, 1945 *The Problem South* Natalie J. Ring, 2012 For most historians the late nineteenth and early twentieth centuries saw the hostilities of the Civil War and the dashed hopes of Reconstruction give way to the nationalizing forces of cultural reunion a process that is said to have downplayed sectional grievances and celebrated racial and industrial harmony In truth says Natalie J Ring this buoyant mythology competed with an equally powerful and far reaching set of representations of the backward Problem South one that shaped and reflected attempts by northern philanthropists southern liberals and federal experts to rehabilitate and reform the country's benighted region Ring rewrites the history of sectional reconciliation and demonstrates how this group used the persuasive language of social science and regionalism to reconcile the paradox of poverty and progress by suggesting that the region was moving through an evolutionary period of readjustment toward a more perfect state of civilization In addition *The Problem South* contends that the transformation of the region into a mission field and laboratory for social change took place in a transnational moment of reform Ambitious efforts to improve the economic welfare of the southern farmer eradicate such diseases as malaria and hookworm educate the southern populace uplift poor whites and solve the brewing race problem mirrored the colonial problems vexing the architects of empire around the globe It was no coincidence Ring argues that the regulatory state's efforts to solve the southern problem and reformers increasing reliance on social scientific methodology occurred during the height of U S imperial expansion *Congressional Record* United States. Congress, 1979 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in *The Debates and Proceedings in the Congress of the United States 1789-1824* the Register of Debates in Congress 1824-1837 and the Congressional Globe 1833-1873 **Confederate "tales of the War" in the Trans-Mississippi** Michael E. Congress. Senate. Committee on Civil Service, 1945 **This Is Not America** Alan Friedman, 2017-07-11 What has happened to America and what's become of the American dream Behind the self-confident image of world's most influential country we now see a nation tearing itself apart The United States may be arguably the world's only superpower but its internal tensions are a symptom of suffering and division a condition only exacerbated by the

election of President Donald Trump In this searing account expatriate journalist Alan Friedman returns after thirty years in Europe and examines the real America through the mouths of its citizens Set against the backdrop of the 2016 presidential election campaign and the inauguration of President Trump Friedman tells a vivid story of terrible inequality from the excesses of Wall Street to the grinding poverty of Mississippi and explores the issues from racism and gun control to Obamacare that have polarised a nation Drawing on his personal interviews with Trump and with Russia's President Putin Friedman paints a detailed portrait of the new leader of the free world and explores the real risks of the Trump presidency for America and for the world Dark and provocative This Is Not America may just be the most important book of the year

Hillary Clinton's Career in Speeches Shawn J. Parry-Giles, David S Kaufer, Xizhen Cai, 2023-09-01 Women candidates are under more pressure to communicate competence and likability than men And when women balance these rhetorical pressures charges of inauthenticity creep in suggesting the structural and strategic anti woman backlash at play in presidential politics Hillary Clinton demonstrated considerable ability to adapt her rhetoric across roles contexts genres and audiences Comparisons between Clinton's campaign speeches and those of her presidential opponents Barack Obama Bernie Sanders and Donald Trump show that her rhetorical range exceeded theirs And comparisons with Democratic women candidates of 2020 suggest they too exhibited a rhetorical range and faced a backlash similar to Clinton Hillary Clinton's Career in Speeches combines statistical text mining methods with close reading to analyze the rhetorical highs and lows of one of the most successful political women in U S history Drawing on Clinton's oratory across governing and campaigning the authors debunk the stereotype that she was a wooden and insufferably wonkish speaker They marshal evidence for the argument that the sexist tactics in American politics function to turn women's rhetorical strengths into political liabilities

Rural protest groups and populist political parties Dirk Strijker, Gerrit Voerman, Ida Terluin, 2023-08-07 Some agricultural or rural protest groups in the Western world evolved into political parties often of a populist nature whereas others did not This book is the first to explore under which conditions this happens and to what extent current populist parties have agricultural or rural ties and related agendas Well known authors with a background in rural studies or in political sciences describe and analyse the situation in a number of Western countries the United Kingdom France Poland Austria the Netherlands Australia Finland The contributions in this book show that the accessibility and responsiveness of the political system and the institutionalized agrarian interest groups as well as the existing political landscape are influencing the decisions of rural protest groups to found a political party However nowadays the chances of these parties being successful are small due to the declining share of the agricultural sector within European societies Although there will always be grounds for agrarian protest it seems safe to say that the heyday of agrarian populism is over **Storm of the Century** Willie Drye, 2019-08-01 In 1934 hundreds of jobless World War I veterans were sent to the remote Florida Keys to build a highway from Miami to Key West The Roosevelt Administration was making a genuine effort to help these down and out vets

many of whom suffered from what is known today as post traumatic stress disorder But the attempt to help them turned into a tragedy The supervisors in charge of the veterans misunderstood the danger posed by hurricanes in the low lying Florida Keys In late August 1935 a small stealthy tropical storm crossed the Bahamas causing little damage When it entered the Straits of Florida however it exploded into one of the most powerful hurricanes on record But US Weather Bureau forecasters could only guess at its exact position and their calculations were well off the mark The hurricane that struck the Upper Florida Keys on the evening of September 2 1935 is still the most powerful hurricane to make landfall in the US Supervisors waited too long to call for an evacuation train from Miami to move the vets out of harm s way The train was slammed by the storm surge soon after it reached Islamorada Only the 160 ton locomotive was left upright on the tracks About 400 veterans were left unprotected in flimsy work camps Around 260 of them were killed This is their story with newly discovered photos and stories of some of the heroes of the Labor Day 1935 calamity Safire's Political Dictionary William Safire,2008 Featuring more than one thousand new rewritten and updated entries this reference on American politics explains current terms in politics economics and diplomacy Progressive Heritage James Doyle,2006-01-01 Most critics and literary historians have ignored Marxist inspired creative literature in Canada or dismissed it as an ephemeral phenomenon of the 1930s Research reveals however that from the 1920s onward Canadian creative writers influenced by Marxist ideas have produced a quantitatively substantial and artistically significant body of poetry drama fiction and non fiction This book traces historically and evaluates critically this tradition with particular emphasis on writers who were associated with or sympathetic to the Communist Party of Canada After two chapters surveying the work of anti capitalist writers of the nineteenth and early twentieth centuries the book concentrates on the development of Marxist inspired writing from the 1920s to the end of the twentieth century Besides devoting attention to both social and theoretical backgrounds this study provides critical commentary on work by prominent writers who spent part of their literary careers as Communist Party members including Dorothy Livesay Patrick Anderson Milton Acorn and George Ryga as well as less well known but more fervent Communists such as Margaret Fairley Dyson Carter Joe Wallace Stanley Ryerson and Jean Jules Richard Although primarily concerned with the older generation of Marxists who flourished between the 1920s and the 1970s the book also includes a chapter on the post 1970s New Left **Transnational Soldiers** N. Arielli,B. Collins,2012-11-28 Warfare in the modern era has often been described in terms of national armies fighting national wars This volume challenges the view by examining transnational aspects of military mobilization from the eighteenth century to the present Truly global in scope it offers an alternative way of reading the military history of the last 250 years **Small Business and the Quality of American Life** United States. Congress. Senate. Select Committee on Small Business,1977 **The Bonus** Georgia Lowe,2010-10-15 The Bonus a novel of the Great Depression by Georgia Lowe is the culmination of 10 years research It also comes from a desire to tell the story of the 20 000 Bonus marchers including Georgia s parents and their

cross country trek to DC to make their voices heard These WWI veterans hardy souls in the midst of the Depression and fueled largely by their frustrations determination stood up to a non responsive government President Hoover The Bonus tells an enriching story of a little known yet pivotal event in US 20th century history A strong read for veterans their families those interested in social movements and general fiction readers Journalist Will actress Bonnie s engaging love story is masterfully woven around and through the historical events Many will also get haunting echoes of Hoover FDR and its relevance to today
