Forgotten Self:

My Forgotten Self Lynyetta G. Willis, 2015-11-28 Tiev is a playful girl who vividly dreams about the many paths her life can take. However, when she shares these dreams with her family, they quickly tell her why she cannot be any of the things her heart desires. Feeling lost, hurt, and confused, Tiev encounters a powerful and loving Being. I Am Tiev gets a glimpse into who she truly is and the amazing gifts waiting for her along each of her desired paths. Intended for children ages 5-9 years old, My Forgotten Self allows children and adults alike to experience an opportunity to deepen their spiritual awareness as they follow Tiev and learn the truth about who we really are as spiritual beings. The Forgotten Self Asa E.

Lennon, 2001-06-06 The Forgotten Self is a product of a lifetime study of meditation, eastern philosophy, and spiritual seeking. The author, a martial arts teacher and practitioner, found a need among his fellow students for a how-to manual on the subject of meditation. This instructional paper became a chapter in this three-part book. The Forgotten Self deals with such topics as meditation, world religions, metaphysics, and spirituality as it relates to today's world. It is a guideline for the spiritual life style as well as an instructional manual for unlocking those lost or unknown abilities latent in mankind as a species. Insightful and rewarding, The Forgotten Self promises to leave the reader with a better understanding of reality, the universe, and his part in it. Divided into three separate sections, this book leads the reader through a process of opening possibilities, providing answers for them, and expanding awareness through practical experiments. The first part is The Essence of Reality. Here, the author discusses such topics as modern society, individual and mass reality, and forgotten ancient wisdom. Asa Lennon believes there are abilities of mankind that have, in the whirl of modern society, been anciently forgotten. He hopes to show the reader that man has reached the point in history where he teeters between existence and extinction, between civilization and chaos. It is the distancing of man from spirit that is at the heart of this problem. By returning to spirit, we can reclaim our heritage as keepers of the Earth and her treasures. The second part is The Mystic Way, the Forgotten Path. Here, Lennon discusses the solutions to problems that plague mankind individually and en masse. This part outlines specific ways to enhance your life, society, and the universe as products of the conscious awareness of the individual. Part three will open the reader's awareness through the introduction of various spiritual and metaphysical concepts. Entitled Remembering Yourself, it not only provides mind-challenging possibilities but actually describes experimental opportunities. In the chapter 20 The Human Laboratory, Asa Lennon promises The Forgotten Self will embark the reader on a journey of increased awareness, spirituality, and wonder as the forgotten self once again becomes known. **Education of the Young Child** Mr. Rohit

Slingerland, 2007-05-24 This book presents a systematic account of the role of the personal spiritual ideal of wu wei literally no doing but better rendered as effortless action in early Chinese thought Edward Slingerland's analysis shows that wu wei represents the most general of a set of conceptual metaphors having to do with a state of effortless ease and unself consciousness This concept of effortlessness he contends serves as a common ideal for both Daoist and Confucian thinkers He also argues that this concept contains within itself a conceptual tension that motivates the development of early Chinese thought the so called paradox of wu wei or the question of how one can consciously try not to try Methodologically this book represents a preliminary attempt to apply the contemporary theory of conceptual metaphor to the study of early Chinese thought Although the focus is upon early China both the subject matter and methodology have wider implications The subject of wu wei is relevant to anyone interested in later East Asian religious thought or in the so called virtue ethics tradition in the West Moreover the technique of conceptual metaphor analysis along with the principle of embodied realism upon which it is based provides an exciting new theoretical framework and methodological tool for the study of comparative thought comparative religion intellectual history and even the humanities in general Part of the purpose of this work is thus to help introduce scholars in the humanities and social sciences to this methodology and provide an example of how it may be
