Forgotten Victims

Laura Caulfield, Dean Wilkinson

Forgotten Victims:

Forgotten Victims Jill Matthews, 1983 **The Changing Face of Conflict and the Efficacy of International Humanitarian Law** Helen Durham, Timothy L.H. McCormack, 2022-10-31 It is indisputable that the way armed conflict is conducted has changed dramatically in the last half of the twentieth century. The contributors to this volume accept the reality of these changes and seek to assess the efficacy of certain aspects of international humanitarian law. The volume commences with a critical evaluation of the 1977 Protocols additional to the four Geneva Conventions of 1949. Subsequent chapters consider increasing protection for women and minorities in armed conflict, efforts to control the weapons of war, identifying the law applicable to peace operations, and current developments in the enforcement of international humanitarian law. One general theme which emerges from a number of chapters is the importance of the relationship between international humanitarian law and other relevant areas of international law. Most of the contributors also applaud recent developments towards effective enforcement of the established principles of this important area of international law.

The Hidden Menace Pasquale De Marco, 2025-05-03 In the depths of America's prison system a sinister conspiracy lurks in the shadows. Prisoners vanish without a trace, their cries for help silenced by a corrupt network that reaches the highest echelons of power. But a group of unlikely allies is determined to expose the truth and bring justice to the forgotten victims. Led by a charismatic media icon, a renegade Texan, a meticulous septuagenarian airline pilot, a stunning statistician, with an obedient Rottweiler and a mysterious wealthy protector of the downtrodden, this unlikely team embarks on a perilous journey to uncover the hidden menace that threatens to destroy the very fabric of society. As they delve deeper into the labyrinth of corruption, they encounter a twisted world where inmates are mere pawns in a sick and twisted game. The boundaries between right and wrong blur, and the heroes themselves are tested to their limits. But even in the face of unimaginable darkness, their resolve remains unwavering. With each step they take, they uncover more disturbing truths: secret experiments, illicit trafficking, and a web of deceit that extends far beyond the prison walls. The stakes are higher than they could have ever imagined, and the fate of the innocent hangs in the balance. But our heroes refuse to be silenced. They know that justice must prevail, no matter the cost. Armed with courage, determination, and the unwavering support of those who believe in them, they confront the darkness head-on. Join them on this gripping journey as they fight to expose the hidden menace and restore hope to a world that has been shrouded in fear. Witness the indomitable power of those who dare to challenge the status quo and the transformative impact of truth and justice. If you like this book, write a review on Google Books.

Laruelle Anthony P. Smith, 2017-09-05 Franco Laruelle's non-philosophy or non-standard philosophy represents a bold attempt to rethink how philosophy is practiced in relation to other domains of knowledge. There is a growing interest in Laruelle's work in the English-speaking world, but his work is often misunderstood as a wholesale critique of philosophy. In this book, Anthony Paul Smith dispels this misunderstanding and shows how Laruelle's critique of philosophy is guided by the

positive aim of understanding philosophy's structure so that it can be creatively recast with other discourses and domains of human knowledge from politics and ethics to science and religion. This book provides a synthetic introduction to the whole of Laruelle's work. It begins by discussing the major concepts and methods that have framed non philosophy for thirty years. Smith then goes on to show how those concepts and methods enter into traditional philosophical domains and disempower the authoritarian framework that philosophy imposes upon them. Instead of offering a philosophy of politics or a philosophy of science, Laruelle aims at fostering a democracy of thought where philosophy is thought together and equal to the object of its inquiry. This book will be essential reading for students and scholars interested in contemporary French philosophy and anyone who wants to discover more about one of its foremost practitioners.

Psychology Express: Forensic Psychology (Undergraduate Revision Guide) Laura Caulfield, Dean Wilkinson, 2015-04-03. The Psychology Express undergraduate revision guide series will help you understand key concepts quickly, revise effectively and make your answers stand out.

Biopolitics and Historic Justice Kathrin Braun, 2021-05-11. Human rights violations linked to norms of health, fitness and social usefulness have long been overlooked by Historic Justice Studies. Kathrin Braun introduces the concept of injuries of normality to capture the specifics of this type of human rights violation and the respective struggles for historic justice. She examines the processes of *Vergangenheitsbewältigung* in the context of coercive sterilization, institutional killings as well as the persecution of homosexual men and of asocials under Nazi rule. She argues that an analytic perspective on political temporality allows us to better understand the formation of these biopolitical human rights violations and their exclusion from memory and historic justice.

Creating Fear David L. Altheide, 2018-05-04. The creative use of fear by news media and social control organizations has produced a discourse of fear, the awareness and expectation that danger and risk are lurking everywhere. Case studies illustrate how certain organizations and social institutions benefit from the exploitation of such fear construction. One social impact is a manipulated public empathy. We now have more victims than at any time in our prior history. Another more troubling result is the role we have ceded to law enforcement and punishment: we turn ever more readily to the state and formal control to protect us from what we fear. This book attempts through the marshalling of significant data to interrupt that vicious cycle of fear discourse.

From Clinic to Concentration Camp Paul Weindling, 2017-04-28. Representing a new wave of research and analysis on Nazi human experiments and coerced research, the chapters in this volume deliberately break from a top-down history limited to concentration camp experiments under the control of Himmler and the SS. Instead, they collection positions extreme experiments where research subjects were taken to the point of death within a far wider spectrum of abusive coerced research. The book considers the experiments not in isolation but as integrated within wider aspects of medical provision as it became caught up in the Nazi war economy, revealing that researchers were opportunistic and retained considerable autonomy. The sacrifice of so many prisoners, patients and otherwise healthy people rounded up as detainees raises important issues about the identities of the research

subjects who were they how did they feel how many research subjects were there and how many survived This underworld of the victims of the elite science of German medical institutes and clinics has until now remained a marginal historical concern Jews were a target group but so were gypsies Sinti and Roma the mentally ill prisoners of war and partisans By exploring when and in what numbers scientists selected one group rather than another the book provides an important record of the research subjects having agency reconstructing responses and experiential narratives and recording how these experiments iconic of extreme racial torture represent one of the worst excesses of Nazism

How Did It Happen? Christoph Dieckmann, Ruta Vanagaite, 2021-10-15 In this compelling book Lithuanian author Ruta Vanagaite holds an extended conversation with noted historian Christoph Dieckmann His exploration of the causes and consequences of the Holocaust in Lithuania provides the first overview for general readers that considers the perspectives of all the central groups involved Jews Lithuanians and Germans Drawing on a rich array of sources in all the key languages Yiddish Ivrit Lithuanian and German Dieckmann considers not only the Berlin based orientation of the German perpetrators but also the space where the Shoah took place Lithuanian society with its Jewish minority under German occupation He contends that this space of mass crimes is always linked with warfare and occupation The Holocaust was unprecedented but he makes a powerful case it cannot be isolated from the other mass crimes that took place at the same time in the same space against thousands of Soviet prisoners of war and forced refugees from the Soviet territories Dieckmann shows that the Holocaust could not have unfolded throughout German dominated Europe without the conditional cooperation of non Germans in each occupied country Existing antisemitism was radicalized from the 1930s onward turning Jews under the enormous stress of unrelenting warfare and often instable conditions of occupation into what were perceived as deadly enemies The Holocaust its history and memory can only be understood through this broader context The authors searching exchanges illuminate the most profound questions we have as we struggle to understand the Holocaust

International Handbook of Victimology Shlomo Giora Shoham, Paul Knepper, Martin Kett, 2010-02-23 In the nearly four decades since the First International Symposium on Victimology convened in Jerusalem in 1973 some concepts and themes have continued to hold a prominent place in the literature while new ones have also emerged Exploring enduring topics such as conceptions of victimhood secondary and hidden victimization and social services f

The Roma Struggle for Compensation in Post-war Germany Julia Von dem Knesebeck, 2011 Thirty years passed before it was accepted in West Germany and elsewhere that the Roma Germany's Gypsies had been Holocaust victims And similarly it took thirty years for the West German state to admit that the sterilisation of Roma had been part of the Final Solution Drawing on a substantial body of previously unseen sources this book examines the history of the struggle of Roma for recognition as racially persecuted victims of National Socialism in post war Germany Since modern academics belatedly began to take an interest in them the Roma have been described as forgotten victims This book looks at the period in West Germany between the end of the War and the beginning of the Roma civil rights movement

in the early 1980s during which the Roma were largely passed over when it came to compensation The complex reasons for this are at the heart of this book

The Bible in Politics Richard Bauckham, 1989-01-01 This enlightening book on how to read the Bible politically serves as a prerequisite to Christian political action Richard Bauckham offers his interpretations of several Bible passages that are politically relevant and discusses how reading the Bible in a political context can lead to fresh insights

From Victim to Offender Freda Briggs, 2020-08-26 Tom was the only adult who gave me the attention and affection that I so badly needed I loved his caresses and the times he comforted me I loved talking to him because he was the only adult who listened and understood Neil's Story From Victim to Offender shows how victims of child sexual abuse become juvenile and adult offenders The stories told by these offenders reveal the vulnerability of boys to paedophiles and pederasts who provide the male attention lacking in some children's home lives They show how early sexualisation damages children's sexual development their relationships and their adult lives The story of a female offender reveals that this problem is not confined to boys These stories highlight the inadequacy of current child protection programs for the protection of boys The editor's introduction and the chapter from a psychologist who specialises in the treatment of offenders emphasise the need to improve child protection and treatment programs for offenders From Victim to Offender offers unique insights into the experiences of victims and offenders of sexual abuse and is essential reading for professionals who are concerned about child protection and those responsible for the rehabilitation of offenders

Human Rights and Inhuman Wrongs Sankar Sen, 2010

Critical Issues in Peace and Conflict Studies Thomas Matyók, Jessica Senehi, Sean Byrne, 2011-05-19 Peace and Conflict Studies PCS includes scholars and practitioners throughout the world working in peace studies conflict analysis and resolution conflict management appropriate dispute resolution and peace and justice studies They come to the PCS field with a diversity of ideas approaches disciplinary roots and topic areas which speaks to the complexity breadth and depth needed to apply and take account of conflict dynamics and the goal of peace Yet a number of key concerns and dilemmas continue to challenge the field Critical Issues in Peace and Conflict Studies Theory Practice and Pedagogy edited by Thomas Matyók Jessica Senehi and Sean Byrne is a collection of essays that explores a number of these issues providing a means by which academics students and practitioners can develop various methods to confront the complexity of contemporary conflicts Critical Issues in Peace and Conflict Studies discusses the emerging field of PCS and suggests a framework for the future development of the field and the education of its practitioners and academics The book has a wide audience targeting students at the undergraduate graduate and post graduate levels It also extends to those working in and leading community conflict resolution efforts as well as humanitarian aid workers

War and Memory in Russia, Ukraine and Belarus Julie Fedor, Markku Kangaspuro, Jussi Lassila, Tatiana Zhurzhenko, 2017-12-05 This edited collection contributes to the current vivid multidisciplinary debate on East European memory politics and the post communist instrumentalization and re mythologization of World War II memories The book focuses on the three Slavic countries of post

Soviet Eastern Europe Russia Ukraine and Belarus the epicentre of Soviet war suffering and the heartland of the Soviet war myth The collection gives insight into the persistence of the Soviet commemorative culture and the myth of the Great Patriotic War in the post Soviet space It also demonstrates that for geopolitical cultural and historical reasons the political uses of World War II differ significantly across Ukraine Russia and Belarus with important ramifications for future developments in the region and beyond The chapters Introduction War and Memory in Russia Ukraine and Belarus From the Trauma of Stalinism to the Triumph of Stalingrad The Toponymic Dispute over Volgograd and The Partisan Republic Colonial Myths and Memory Wars in Belarus are published open access under a CC BY 4.0 license at link.springer.com The chapter Memory Kinship and Mobilization of the Dead The Russian State and the Immortal Regiment Movement is published open access under a CC BY-NC-ND 4.0 license at link.springer.com

Pink Triangle Legacies W. Jake Newsome, 2022-09-15 Pink Triangle Legacies traces the transformation of the pink triangle from a Nazi concentration camp badge and emblem of discrimination into a widespread recognizable symbol of queer activism pride and community W. Jake Newsome provides an overview of the Nazis targeted violence against LGBTQ people and details queer survivors' fraught and ongoing fight for the acknowledgement compensation and memorialization of LGBTQ victims Within this context a new generation of queer activists has used the pink triangle a reminder of Germany's fascist past as the visual marker of gay liberation seeking to end queer people's status as second class citizens by asserting their right to express their identity openly The reclamation of the pink triangle occurred first in West Germany but soon activists in the United States adopted this chapter from German history as their own As gay activists on opposite sides of the

Atlantic grafted pink triangle memories onto new contexts they connected two national communities and helped form the basis of a shared gay history indeed a new gay identity that transcended national borders Pink Triangle Legacies illustrates the dangerous consequences of historical silencing and how the incorporation of hidden histories into the mainstream understanding of the past can contribute to a more inclusive experience of belonging in the present There can be no justice without acknowledging and remembering injustice As Newsome demonstrates if a marginalized community seeks a history that liberates them from the confines of silence they must often write it themselves

Victim Appearances at Sentencing Hearings Under the California Victims' Bill of Rights Edwin Villmoare, Virginia V. Neto, 1987

Fatal Isolation Richard C. Keller, 2015-05-07 In a cemetery on the outskirts of Paris lie the bodies of a hundred of what many have called the first casualties of global climate change They are the so called abandoned or forgotten victims of the worst natural disaster in French history the devastating heat wave that struck France in August 2003 leaving 15 000 people dead They are those who died alone in Paris and its suburbs buried at public expense when no family claimed their bodies They died and to a great extent lived unnoticed by their neighbors discovered in some cases only weeks after their deaths And as with the victims of Hurricane Katrina they rapidly became the symbols of the disaster for a nation wringing its hands over the mismanagement of the heat wave and the social and political dysfunctions it revealed Chasing Ghosts tells the stories of these victims and the catastrophe that took their lives It explores the official story of the crisis and its aftermath as presented by the media and the state the anecdotal lives and deaths of its victims and the ways in which they illuminate and challenge typical representations of the disaster and the scientific understandings of catastrophe and its management It is at once a social history of risk and vulnerability in the urban landscape and an ethnographic account of how a city copes with dramatic change and emerging threats
