*Porphyry: On Aristotle Categories* S. Strange, 2014-04-10 Porphyry AD 232-305 is of crucial importance for the history of Aristotelian studies Born in Tyre and a student of Plotinus in Rome he later defended Aristotle's *Categories* against Plotinus arguing that they were entirely compatible with Platonism His intervention was decisive the *Categories* became a basic textbook of logic for all subsequent Neoplatonist teaching and influenced both the Arabic and Western Traditions Boethius drew heavily on Porphyry's treatment The full commentary is lost but a shorter version survives and is translated here *The Cambridge Companion to Plotinus* Lloyd P. Gerson, 1996-08-13 Each volume of this series of companions to major philosophers contains specially commissioned essays by an international team of scholars together with a substantial bibliography and will serve as a reference work for students and non specialists One aim of the series is to dispel the intimidation such readers often feel when faced with the work of a difficult and challenging thinker Plotinus was the greatest philosopher in the 700 year period between Aristotle and Augustine He thought of himself as a disciple of Plato but in his efforts to defend Platonism against Aristotelians Stoics and others he actually produced a reinvigorated version of Platonism that later came to be known as Neoplatonism In this volume sixteen leading scholars introduce and explain the many facets of Plotinus complex system They place Plotinus in the history of ancient philosophy while showing that he was a founder of medieval philosophy *Aufstieg und Niedergang der römischen Welt: Principat.* v Hildegard Temporini, Wolfgang Haase, 1972 **From Aristotle to Augustine** David Furley, 2016-08-01 This second volume opens with Aristotle's immense influence on philosophy from the beginnings of Christian philosophy in the fifth century AD [Alexander Aphrodisiensis, "De anima libri mantissa"](#) Alexander Aphrodisiensis, 2014-09-05 R W Sharples provides a new edition with introduction and commentary in English of the Greek text The *Mantissa* is a collection of short discussions transmitted as a supplement to the treatise *On the Soul* by the Aristotelian commentator Alexander of Aphrodisias c 200 AD The collection includes discussion of a range of topics among them the nature of soul and intellect theories of how seeing takes place issues in ethics and the nature of fate The text is based upon a new collation of the principal manuscript the ninth century Venetus Marcianus graecus 258 and the apparatus corrects Bruns misreportings of the principal manuscript and of the others that he used Account has also been taken of the medieval Arabic and Latin versions of some of the sections which circulated independently notably *On Intellect* which had a substantial influence on medieval philosophy The introduction is chiefly concerned with the manuscripts and the relation between them The commentary is based on the notes to the editor's English translation of the work London Duckworth and Ithaca Cornell University Press 2004 however the commentary also takes into account more recent work on the collection by various scholars [John Philoponus' New Definition of Prime Matter](#) Frans A.J. de Haas, 2016-06-21 This study provides the first full discussion of Philoponus' excursus on matter in *contra Proclum* XI 1-8 which sets out the innovative definition of prime matter as three dimensional extension The author argues that Philoponus

definition was motivated primarily by philosophical problems in Neoplatonism Philoponus employs the explanation of growth the interpretation of Aristotle's category theory and the notions of formlessness and potentiality to substantiate his definition To conclude the book offers an assessment of the significance of Philoponus innovation It is demonstrated for the first time that Plotinus view of matter exerted considerable influence on both Philoponus and Simplicius Moreover the structure of Syrianus and Proclus metaphysics prepared the way for Philoponus account of prime matter Routledge History of Philosophy Volume II David Furley, 2003-09-02 The final volume to be published in the acclaimed Routledge History of Philosophy series provides an authoritative and comprehensive survey and analysis of the key areas of late Greek and early Christian Philosophy *Alexander of Aphrodisias: Supplement to On the Soul* Alexander Of Aphrodisias, 2014-04-10 The Supplement transmitted as the second book of *On the Soul* by Alexander of Aphrodisias fl c 200 AD is a collection of short texts on a wide range of topics from psychology including the general hylomorphic account of soul and its faculties and the theory of vision questions in ethics natural instincts the unity of the virtues the naturalness of justice and the insufficiency of virtue for happiness and issues relating to responsibility chance and fate One of the texts in the collection *On Intellect* had a major influence on medieval Arabic and Western thought greater than that of Alexander's *On the Soul* itself The treatises may all be by Alexander himself certainly the majority of them are closely connected with his other works Many of them however consist of collections of arguments on particular issues collections which probably incorporate material from earlier in the history of the Peripatetic school This translation is from a new edition of the Greek text based on a collation of all known manuscripts and comparison with medieval Arabic and Latin translations *On Aristotle Categories* Porphyry, 1992 Porphyry ad 232 3 c 305 is of crucial importance for the history of Aristotelian studies Born in Tyre and a student of Plotinus in Rome he later defended Aristotle's *Categories* against Plotinus arguing that they were entirely compatible with Platonism His intervention was decisive the *Categories* became a basic textbook of logic for all subsequent Neoplatonist teaching and influenced both the Arabic and Western Traditions Boethius drew heavily on Porphyry's treatment The full commentary is lost but a shorter version survives and is translated here Bloomsbury Publishing **Thinking on Thinking** Robert M. Berchman, 2021-04-23 Aristotle and Plotinus set the horizon of inquiry thinking is thinking on thinking Discussion of mind meaning and subjectivity begins with the question How is thinking on thinking different from the kind of thinking with which we are familiar The answer is that thinking on thinking is about the presuppositions concepts and problems that generate questions in ancient and modern metaphysics epistemology aesthetics philosophy of mind and philosophy of language Topics examined include the nature of intentionality and meaning identity and relation mind and consciousness self identity and subjectivity which lead into discussions concerning other minds the limits of thought and language and the emergence of aesthetics of the self The effects of thinking on thinking are mapped particularly in parsing problems in ancient modern analytic and phenomenological thought with advocacy of its importance in the present age On Aristotle's Categories
