Writing History in the Soviet Union Arup Banerji, 2017-08-18 The history of the Soviet Union has been charted in several studies over the decades These depictions while combining accuracy elegance readability and imaginativeness have failed to draw attention to the political and academic environment within which these histories were composed Writing History in the Soviet Union Making the Past Work is aimed at understanding this environment The book seeks to identify the significant hallmarks of the production of Soviet history by Soviet as well as Western historians It traces how the Russian Revolution of 1917 triggered a shift in official policy towards historians and the publication of history textbooks for schools In 1985 the Soviet past was again summoned for polemical revision as part and parcel of an attitude of openness glasnost and in this literary figures joined their energies to those of historians The Communist regime sought to equate the history of the country with that of the Communist Party itself in 1938 and 1962 and this imposed a blanket of conformity on history writing in the Soviet Union The book also surveys the rich abundance of writing the Russian Revolution generated as well as the divergent approaches to the history of the period The conditions for research in Soviet archives are described as an aspect of official monitoring of history writing Another instance of this is the manner by which history textbooks have through the years been withdrawn from schools and others officially nursed into circulation This intervention occasioned in the present circumstance by statements by President Putin himself in the manner in which history is taught in Russian schools continues to this day In other words over the years the regime has always worked to make the past work Please note Taylor Francis does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh Sri Lanka

The Rise of the Fiscal State in Europe c.1200-1815 Richard Bonney, 1999-09-02 In this volume an international team of scholars builds up a comprehensive analysis of the fiscal history of Europe over six centuries It forms a fundamental starting point for an understanding of the distinctiveness of the emerging European states and highlights the issue of fiscal power as an essential prerequisite for the development of the modern state The study underlines the importance of technical developments by the state its capacity to innovate and however imperfect the techniques the greater detail and sophistication of accounting practice towards the end of the period New taxes had been developed new wealth had been tapped new mechanisms of enforcement had been established In general these developments were made in western Europe the lack of progress in some fiscal systems especially those in eastern Europe is an issue of historical importance in its own right and lends particular significance to the chapters on Poland and Russia By the eighteenth century mountains of debt and high debt revenue ratios had become the norm in western Europe yet in the east only Russia was able to adapt to the western model by 1815 The capacity of governments to borrow and the interaction of the constraints on borrowing and the power to tax had become the real test of the fiscal powers of the modern state by 1800 15

Russia Philip Longworth, 2024-06-04 Through the centuries Russia has swung sharply

between successful expansionism catastrophic collapse and spectacular recovery This illuminating history traces these dramatic cycles of boom and bust from the late Neolithic age to Ivan the Terrible and from the height of Communism to the truncated Russia of today Philip Longworth explores the dynamics of Russia's past through time and space from the nameless adventurers who first penetrated this vast inhospitable terrain to a cast of dynamic characters that includes Ivan the Terrible Catherine the Great and Stalin His narrative takes in the magnificent historic cities of Kiev Moscow and St Petersburg it stretches to Alaska in the east to the Black Sea and the Ottoman Empire to the south to the Baltic in the west and to Archangel and the Arctic Ocean to the north Who are the Russians and what is the source of their imperialistic culture Why was Russia so driven to colonize and conquer From Kievan Rus the first ever Russian state which collapsed with the invasion of the Mongols in the thirteenth century to ruthless Muscovy the Russian Empire of the eighteenth century and finally the Soviet period this groundbreaking study analyses the growth and dissolution of each vast empire as it gives way to the next Refreshing in its insight and drawing on a vast range of scholarship this book also explicitly addresses the question of what the future holds for Russia and her neighbors and asks whether her sphere of influence is growing History of Russia Sergei Fedorovich Platonov,1925 **International Banking 1870-1914** Rondo Cameron,V. Global Trends in State Formation Godknows Boladei Igali, 2014-03-25 Political communities across the world are facing tremendous challenges in terms of trying to create an appropriate and cooperative environment for civic existence. Despite the current trend in international relations toward regional integration and globalisation, the idea of properly understanding how states come together, how they build themselves up, and what makes them disintegrate is relevant. In *Global Trends in State Formation*, author Godknows Boladei Igali offers broad insight into the emergence of the modern state system, the disintegration of states, and suggestions that will bring stability and peaceful coexistence within nations. Igali, with more than thirty years of experience in public service in Nigeria, presents a philosophical inquiry and a historical survey into the origins of the various political formations such as nations, nation states, states, societies from the perspective of Western political and religious thought as inspired by the state of the world in the late twentieth century as it moved toward the twenty-first century.

Russia in the Nineteenth Century A. I. U. Polunov, Thomas C. Owen, L. G. Zakharova, 2015-02-12 This is a comprehensive interpretive history of Russia from the defeat of Napoleon to the eve of World War I. It is the first such work by a post-Soviet Russian scholar to appear in English. Drawing on the latest Russian and Western historical scholarship, Alexander Polunov examines the decay of the two central institutions of tsarist Russia: serfdom and autocracy. Polunov explains how the major social groups—the gentry, merchants, petty townspeople, peasants, and ethnic minorities—reacted to the Great Reforms and why, despite the emergence of a civil society and capitalist institutions, a reformist evolutionary path did not become an alternative to the Revolution of 1917. He provides detailed portraits of many tsarist bureaucrats and political reformers, complete with quotations from their writings to explain how the principle of autocracy, although significantly weakened by the Great Reforms in mid-century, reasserted itself under the last two emperors. Polunov stresses the relevance for Russians in the post-Soviet period of issues that remained unresolved in the pre-Revolutionary period, such as the question of private property in land and the relationship between state regulation and private initiative in the economy.

Civil Society and the Search for Justice in Russia Christopher Marsh, Nikolas K. Gvosdev, 2002-01-01 More than a decade has passed since path-breaking policies aimed at liberalizing post-Soviet society were first introduced in Russia. Today, these promises of freedom, equality, and justice remain largely unfulfilled.

and Russia's political system continues to exhibit signs of the deep rooted problems that may well retard if not completely derail any possibility of future reform Against this stark background *Civil Society and the Search for Justice in Russia* explores the various dimensions of Russia's civil society the meaning of and search for justice the role of the Orthodox church as a principal unifier in civil society the need for new freedoms for women and ethnic minorities and the role of mass education and the free press in inculcating and articulating new civic values Expertly blending the historical with the theoretical the recent with the empirical this work offers new insight and analysis into the ability of a nascent Russian civil society to engage effectively with the twenty first century Russian state to ensure social religious and political justice

Factory and Community in Stalin's Russia Kenneth M. Straus, 2010-11-23 Kenneth Straus weaves together many threads in Russian social history to develop a new theory of working class formation in the years of Stalin's First Five Year Plan In so doing he addresses a long standing debate among historians by suggesting new answers to an old question Was there social support for the Stalin regime among the Soviet working class during the 1930s and if so why Straus argues that the keys for interpreting Stalinism lie in occupational specialization on the one hand and community organization on the other He focuses on the daily life of the new Soviet workers in the factory and community arguing that the most significant new trends saw peasants becoming open hearth steel workers housewives becoming auto assembly line workers and machine operatives and youth training en masse rather than occupations categories in the vocational schools in the factories the FZU Tapping archival material only recently available and a wealth of published sources Straus presents Soviet social history within a new analytical framework suggesting that Stalinist forced industrialization and Soviet proletarianization is best understood within a comparative European framework in which the theories of Marx Durkheim and Weber best elucidate both the broad similarities with Western trends and the striking exceptional aspects of the Soviet experience **Bulletin of the Russian**

Information Bureau in the U.S. Russian Information Bureau in the U.S., 1920 **A History of Russian Economic Thought** John M. Letiche, 1964 The Ukraine-a History W. E. D. Allen, 2009 *Time of Troubles* Iurii Vladimirovich Got'e, 2014-07-14 Among the few diaries available from inside early Soviet Russia none approaches Iurii V Got'e's in sustained length of coverage and depth of vivid detail Got'e was a member of the Moscow intellectual elite a complex and unusually observant man who was a professor at Moscow University and one of the most prominent historians of Russia at the time the revolution broke out Beginning his first entry with the words *Finis Russiae* he describes his life in revolution torn Moscow from July 8 1917 through July 23 1922 nearly the entire period of the Russian Revolution and Civil War up to the advent of the New Economic Policy This remarkable chronicle published here for the first time describes the hardships undergone by Got'e's family and friends and the gradual takeover of the academic and professional sectors of Russia by the new regime Got'e was in his mid forties when he wrote the diary At first he felt that Bolshevism meant complete doom for Russia but eventually his ardent patriotism led him to accept the Bolsheviks role in preserving the integrity of the Russian

state The diary was discovered in 1982 in the Hoover Institution Archives in the papers of Frank Golder to whom Golder himself had entrusted it in 1922 It is translated literally and unabridged with annotations by Terence Emmons The introduction by Professor Emmons places the diary clearly in the context of Golder's life and scholarly career Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Russian States Great Britain. Foreign Office, 1922 *The Origins of the Slavic Nations* Serhii Plokhy, 2006-09-07 This book documents developments in the countries of eastern Europe including the rise of authoritarian tendencies in Russia and Belarus as well as the victory of the democratic Orange Revolution in Ukraine and poses important questions about the origins of the East Slavic nations and the essential similarities or differences between their cultures It traces the origins of the modern Russian Ukrainian and Belarusian nations by focusing on pre modern forms of group identity among the Eastern Slavs It also challenges attempts to nationalize the Russian past on behalf of existing national projects laying the groundwork for understanding of the pre modern history of Russia Ukraine and Belarus The book covers the period from the Christianization of Kyivan Rus in the tenth century to the reign of Peter I and his eighteenth century successors by which time the idea of nationalism had begun to influence the thinking of East Slavic elites
