Forming the Future Jack O'Toole, 1996 Forming the Future is the first complete account of the dramatic creation of the Saturn Corporation General Motors highly publicized attempt to design a product that could compete in an automobile market dominated by the Japanese

Learning From Saturn Saul A. Rubinstein, Thomas A. Kochan, 2018-10-18 The last two decades of the twentieth century were a tumultuous time of innovation for business and labor Perhaps the boldest and most far reaching experiment in industry was the creation of the Saturn Corporation Working together as partners the UAW and General Motors built a new small car in Spring Hill Tennessee with American suppliers and American workers Saturn s locally designed manufacturing system featured self directed teams and the integration of union representatives into management s strategic and operational decision making processes Saul A Rubinstein and Thomas A Kochan have followed the Saturn story since its beginning in 1983 Through surveys as well as hundreds of interviews with company managers union representatives and employees and with leaders of GM and the UAW they trace the history of and the lessons to be learned from this Different Kind of Company The Saturn experiment embodied a new concept of labor management relations management and organizational governance Has it been a success or a failure Is it relevant in the current industrial environment What effect has it had on GM and the UAW The authors resist overly simplistic conclusions Saturn s strengths and limitations must be fairly assessed before the company s experience can provide lessons on the future of unions labor management relations work organization and corporate governance

The Dawning Age of Cooperation Gordon Ervin Moss, 2011 Rugged individualism is great for legendary heroes but does it really shape a society that can endure for the long term A massive social transformation is underway driven by technology it requires and is pushing us toward a cooperative culture Our American competitive individualistic culture is outmoded and increasingly ineffective This book presents a new model of

cooperation for building a cooperative American and worldwide society True cooperation is a stranger in America The author an expert on medical sociology has conducted research on social stress and cooperative solutions only to find that we call many things cooperation which are not This includes mutual aid in pursuit of shared individual goals democratic decision making equal sharing and compromising True cooperation is a cultural pattern used to organize cooperative social systems Participants are group centered and work to achieve group goals True cooperation produces rapidly adapting information processing social systems that benefit all of the participants These cooperative organizations and societies become our primary and very effective adaptive tools for survival This book shows what true cooperation is and how to do it while also showing how competition and individualism prevent us from truly cooperating and creating a cooperative American and worldwide society This book fills a huge gap in our literature on and understanding of cooperation As such it is of great value to libraries organizations universities a variety of specialties and professions and concerned individuals The book is written at a more academic level because the material cannot be simplified further without loss of insights and information It is a friendly academic level with examples and explanations while a variety of more academic issues and analyses are excluded

American Corporate Economy William Lazonick, 2002 The readings collected in these four volumes examine the evolution operation and performance of the American corporate enterprise and the American corporate economy more generally Divided into seven sections many of the readings provide broad overviews of the evolution of the US corporate enterprise while others contribute to debates on its role in the evolution of American economy and society The material is arranged thematically to help the reader navigate the field There is also a new introduction and a thorough index making this set an invaluable resource for both academics and practitioners in the field

The Second Wave Philip Scranton, 2001 Though it had helped define the New South era the first wave of regional industrialization had clearly lost momentum even before the Great Depression These nine original case studies look at how World War II and its aftermath transformed the economy culture and politics of the South From perspectives grounded in geography law history sociology and economics several contributors look at southern industrial sectors old and new aircraft and defense cotton textiles timber and pulp carpeting oil refining and petrochemicals and automobiles One essay challenges the perception that southern industrial growth was spurred by a disproportionate share of federal investment during and after the war In covering the variety of technological managerial and spatial transitions brought about by the South's second wave of industrialization the case studies also identify a set of themes crucial to understanding regional dynamics investment and development workforce training planning cost containment and environmental concerns equal employment opportunities rural to urban shifts and the decay of local economies entrepreneurship and coordination of supply service and manufacturing processes From boardroom to factory floor the variety of perspectives in *The Second Wave* will significantly widen our understanding of the dramatic reshaping of the region in the decades after 1940

Corporate Celebration Terrence E. Deal, M. K. Key, 1998-06-06 How ceremonies

can be used to build relationships relieve tension level the hierarchy create excitement transform losses into gains and provide access to life s deeper lessons Cover A New Protestant Labor Ethic at Work Ken Estey,2011-01-01 Estey proposes a labor ethic that emphasizes the protest in Protestantism The purpose of this ethic is to interrupt the drudgery of the Protestant work ethic which Estey asserts is the dominant cultural ideal in the U S Protestantism must not be about capitulation to capitalism and a Protestant ethic that works must be one that questions and confronts authority in order to undo the newest and oldest forms of dehumanization as they pertain to workers labor issues and conditions in the workplace

Engineering Earth Stanley D. Brunn,2011-03-19 This is the first book to examine the actual impact of physical and social engineering projects in more than fifty countries from a multidisciplinary perspective The book brings together an international team of nearly two hundred authors from over two dozen different countries and more than a dozen different social environmental and engineering sciences Together they document and illustrate with case studies maps and photographs the scale and impacts of many megaprojects and the importance of studying these projects in historical contemporary and postmodern perspectives This pioneering book will stimulate interest in examining a variety of both social and physical engineering projects at local regional and global scales and from disciplinary and trans disciplinary perspectives

The Pirate Inside Adam Morgan,2011-03-10 Most marketing and branding books fall into one of two camps either they are about leaders or they assume that brands can be managed by process alone *The Pirate Inside* is different It forwards the idea that brands are about people and Challenger Brands are driven by a certain kind of person in a certain kind of way Challenger Brands don t rely on CEOs or founders but on the people within the organization whose personal qualities and approach to what they do make the difference between whether the brand turns to gold or falls to dust In line with this thinking *The Pirate Inside* forwards two key questions what does it take to be the driver or guardian of a successful Challenger Brand and what are the demands made by this on character and corporate culture Building on his answers Adam Morgan then explores the critical issue of whether big multi brand companies can create Challenger micro climates within their companies and the benefits that they might achieve by doing so Contests for Corporate Control Mary O'Sullivan,2000-04-20 During the 1990s corporate governance became a hot issue in all of the advanced economies For decades major business corporations had reinvested earnings and developed long term relations with their labour forces as they expanded the scale and scope of their operations As a result these corporations had made themselves central to resource allocation and economic performance in the national economies in which they had evolved Then beginning in the 1980s and picking up momentum in the 1990s came the contests for corporate control Previously silent stockholders now empowered by institutional investors demanded that corporations be run to maximize shareholder value In this highly original book Mary O Sullivan provides a critical analysis of the theoretical foundations for this principle of corporate governance and for the alternative perspective that corporations should be run in the interests of stakeholders She embeds

her arguments on the relation between corporate governance and economic performance in historical accounts of the dynamics of corporate growth in the United States and Germany over the course of the twentieth century O Sullivan explains the emergence and consequences of maximizing shareholder value as a principle of corporate governance in the United States over the past two decades and provides unique insights into the contests for corporate control that have unfolded in Germany over the past few years

Framing and Managing

Lean Organizations in the New Economy Darina Lepadatu, Thomas Janoski, 2020-02-18 This book examines the dominance and significance of lean organizing in the international economy. Scholars from each discipline see lean production as positive or negative; the book blends theory with practice by sorting out these different academic views and revealing how lean is implemented in different ways. The first part synthesizes academic research from a range of disciplines including engineering, sociology, and management to present the reader with an integrated understanding of the benefits and drawbacks of lean management. The second part links this theory to practice with a set of case studies from companies like Apple, Google, Nike, Toyota, and Walmart that demonstrate how lean is implemented in a variety of settings. The book concludes with three models explaining how Toyotism, Nikefication with offshoring, and Waltonism provide full or less complete models of lean production. It clearly presents the positive and negative aspects of lean and insights into the culture of lean organizations. With its rich interdisciplinary approach, *Framing and Managing Lean Organizations in the New Economy* will benefit researchers and students across a range of classes from management, sociology, and public policy to engineering. *Handbook of Self-determination Research* Edward L. Deci, Richard M. Ryan, 2004 Over the past twenty years, an increasing number of researchers from various universities have been investigating motivational issues underlying the self-regulation of behavior. Using either Self-Determination Theory or closely related theoretical perspectives, these researchers have performed laboratory experiments as well as field studies in a variety of real-world settings. In April 1999, thirty of these researchers convened at the University of Rochester to present their work, share ideas, and discuss future research directions. This book is an outgrowth of that important and fascinating conference. It summarizes the research programs of these social, personality, clinical, developmental, and applied psychologists who have a shared belief in the importance of self-determination for understanding basic motivational processes and for solving pressing real-world problems. Midwest *ZOOM* Mr. Vijay Vaitheeswaran, Mr. Iain Carson, 2007-10-01 Zoom goes from zero to sixty in nothing flat. It's an exciting ride into the future of the world's favorite physical object: the automobile. Gregg Easterbrook, author of *THE PROGRESS PARADOX*, Zoom offers a new way to think about cars and energy that's key to understanding the forces shaping business today. It's smart, well-informed, and insightful—exactly what one would expect from two of *The Economist*'s best journalists. Chris Anderson, author of *THE LONG TAIL*, Zoom puts oil in its sights and squeezes off one telling round after another. Car lovers will see a sunny future with other fuels. OPEC: a steadily darkening twilight. R. James Woolsey, VP Booz Allen Hamilton, former Director of Central Intelligence. An incisive analysis of the end of the petroleum age, including all its repercussions and opportunities. Vinod Khosla, Khosla Ventures. Oil is the problem. Cars are the solution. Those two simple sentences by the authors of Zoom define the scope of their illuminating and important book: an examination of a transformation in business and culture that is occurring before our eyes. We are living in the midst of a Great Awakening. People are seeking environmentally sound alternatives to gas guzzlers. Detroit's reign is over. Oil companies, despite their billion-dollar profits, could be on the brink of

extinction if they don't adapt And citizens all too aware that these industries have lobbied politicians into gridlock over energy policy are mobilizing to support leaders who advocate new policies In Zoom Iain Carson and Vijay V Vaitheeswaran award winning correspondents for The Economist show why and how geopolitical and economic forces are compelling the linked industries of oil and autos to change as never before Drawing on years of industry research including dozens of interviews with motor and energy executives top policymakers and latter day Fords and Edisons Carson and Vaitheeswaran explain How Toyota became the world's largest automaker through innovation and superior performance Why American politicians have for decades failed to address our energy issues and global warming and how grassroots movements along with individual entrepreneurs innovators and outsiders are making real reform possible How these Green revolutionaries are creating new products powered by hydrogen electricity bio fuels and digital technology As political leaders debate our energy environmental and economic future Zoom offers a lucid and visionary portrait of what that future could be Anyone planning to vote will find compelling truth in its assertions and conclusions Rhetoric, Materiality, & Politics Barbara A.

Biesecker, John Louis Lucaites, 2009 Rhetoric Materiality and Politics explores the relationship between rhetoric's materiality and the social world in the late modern political context Taking as their point of departure a reprint of Michael Calvin McGee's 1982 call to reconceptualize rhetoric as the palpable experience of sociality the authors in this volume grapple anew with the role of communication practices in contemporary collective life Drawing upon the work of Michel Foucault Jacques Lacan and Jacques Derrida these twelve original essays supplement extend and challenge McGee's position collectively advocating on behalf of a shift in theoretical and critical attention from rhetorical materialism to rhetoric's materiality Book Jacket

Buy American Dana Frank, 2000-04-07 With the election of Donald Trump economic nationalism has re-emerged as a patriotic rallying cry But are imports and foreigners really to blame for the disappearance of good jobs in the United States Tracing the history and politics of economic nationalism from the American Revolution to the present historian Dana Frank investigates the long history of Buy American campaigns and their complexities This entertaining story is full of surprises including misguided heroes chilling racism and more than a few charlatans Frank helps reframe the debate between free trade on the one hand and nationalism on the other to suggest alternative strategies that would serve the needs of working Americans instead of the interests of corporations and economic elites and that don't cast foreigners or immigrants as our enemies The Publishers Weekly, 1996
