Forms Of Nature Life:

Impetus and Equipose in the Life-Strategies of Reason Anna-Teresa Tymieniecka, 2000-12-31 Employing her original concept of the ontopoiesis of life the author uncovers the intrinsic law of the primogenital logos that which operates in the working of the indivisible dyad of impetus and equipose This is the crucial intrinsically motivated device of logoi constructivism This key instrument is engaged is at play at every stage of the advance of life In a feat unprecedented in the history of western philosophy the emergence and unfolding of the entire orbit of the human universe is shown to bear out this insight Furthermore the intrinsic rhythms of impetus and equipose are taken as a guide in uncovering the workings of the logos all at once in contrast to the piecemeal exposition of a single line of argument In a schema covering the entire career of beingness in becoming between the infinities of origin and destiny an historically unprecedented harmonizing all sectors of rationality is accomplished in a span of reflection comparable to Spinoza's Ethics The work draws on interdisciplinary investigations in both science and the arts All of the history of Occidental philosophy finds summary in it even as feelers guidelines leitmotifs are thrown out for its future development A landmark of Occidental philosophy at the turn of the millennium

The Tingling: My Story of a Living Form Alexandra Porter, PhD, 2014-11-26 No man can exist without a maker In the physical world we attribute that title to our mother and father They are the ones we call our parents our makers During our early years it is these people whom we consciously recognize as our first treasures Then there comes a time when we begin to grow up and start to look deeper into the subject As you follow the trail in this book that has been prepared for the reader I hope that you can find some treasures along the way This book is my concept of an invisible formless substance that has become my constant companion The Tingling is my story the story of a woman who is in tune with an invisible formless substance whose idyllic visions are its form of communication The unique concepts in this book are novel and unexplored areas of healing which have been in my practice for many years I wanted to share my visions with you in hope that they would show you a different point of view I will share with you several meaningful life experiences to best illustrate the methods of communication I maintained with an invisible force I call the Tingling I hope the framework and patterns of this book enhance your perspective view of the life you are leading Visit www.thetingling.com

Forms of Nature and Life Andreas Feininger, 1966

Hegel's Grammatical Ontology Jeffrey Reid, 2021-06-17 Reading The Phenomenology of Spirit through a linguistic lens Jeffrey Reid provides an original commentary on Hegel's most famous work Beginning with a close analysis of the preface where Hegel himself addresses the book's difficulty and explains his tortured language in terms of what he calls the speculative proposition Reid demonstrates how every form of consciousness discussed in The Phenomenology involves and reveals itself as a form of language Elucidating Hegel's speculative proposition which consists of the reversal of the roles of the subject and predicate in such a way that the copula of the proposition becomes the lively arena of dialogical ambiguity and hermeneutical openness this book offers new onto grammatical readings of every

chapter of *The Phenomenology* Not only does this bring a new understanding to Hegel's foundational text but the linguistic approach further allows Reid to unpack its complexity by relating it to contemporary contexts that share the same language structures that we discover in Hegel Amongst many others this includes Hegel's account of sense certainty and the critique of the immediacy of consumer culture today

Living Forms Bruce Haley, 2003-01-01 Examines Romantic poets and essayists' fascination with the human form

Understanding Veselin Penef, 2022-01-28 The book reveals the Reality of Life Life's origin Life's reason for existence is answered The personal choice for the self self creation is shown Life's Eternity Life's Indestructible Nature is proven The immortality of the soul is proven The book proves God's existence Unlimited power is disproven The philosophy of the book is titled the one philosophy The One Philosophy includes all opposites the Middle Ground between which is taken and confirmed All that is lacking of the good is exposed Philosophy is the answer to knowledge of the good not religion not democracy The philosopher king is advocated The three main human objectives are put forth understanding of Life's laws the creating of the good society the need to live in peace Only philosophy has the answers This book marks the new human beginning It is groundbreaking The phony not so peaceful and loving the real Jesus Christ is exposed The destruction of Jesus Christ is complete The greatest human questions are answered The basis of future humanity will be the One Philosophy

THE PLAGUE OF MALE DOMINANCE Boye De Mente, 2014-09-12 Human males have been responsible for most of the violence that has plagued humanity since the origin of the species It is something programmed into males by their genes This built in mindset is responsible for the present state of affairs in the United States and the economic social and religious problems in virtually all other societies Virtually all of the male created institutions have traditionally been designed to keep women from using their minds and to repress their natural sexuality and this especially applies to man made religions This book details the overall failures of American culture from economics education entertainment politics and religions to sexual behavior It maintains that human beings cannot achieve even half of their potential until women play an equal if not primary role in the affairs of humanity It also makes other suggestions for overcoming the built in handicaps of humanity

The Principles of Nature (digitally re-edited) Andrew Jackson Davis, 2014-05-19 This rare book has been digitally re edited from a facsimile reprint of the original Much care and attention has been spent bringing the book back to its original glory The scanning process always introduces errors but as far as we know we have managed to find the majority and fix them in this edition If you are an Andrew Jackson Davis fan or you are new to the author then this is his masterpiece This work was produced whilst he was under hypnosis and the gems therein comes direct from the Fountain of Knowledge Davis was a young uneducated man at the time of producing this book and its contents and style are far beyond anything he could have produced He was a remarkable man as you will find out from the Introduction

Organic Homiletic Richard Hee-Chun Park, 2006 Organic form theory of Romanticism helps writers artists and preachers free themselves from potentially limiting norms and rules of form Organic Homiletic Samuel T Coleridge

Henry G Davis and the New Homiletic will inspire preachers to express their individual voices and create their own authentic forms by offering preachers innovative methods to creatively imitate blend and mix a wide variety of sermon forms The book is a motivator for preachers to intuitively discover sermon content in the rhetorical context of a given preaching situation and to develop that content utilizing organic form in the process of sermon preparation Organic Homiletic is a must read for seminarians experienced preachers creative writers and artists all those who seek to be fresh authentic creative liberated and organic

Form and Reason Edward C. Halper,1993-01-01 This book uses the study of philosophical texts to raise and explore metaphysical issues On one level each essay addresses a scholarly issue in a classical text often a text of Aristotle s On a deeper level the issues Halper considers are metaphysical However unlike thinkers who have brought linguistic analysis and contemporary metaphysical notions to these texts Halper approaches them to find their formulations of issues and their strategies of pursuit Halper is not concerned with the defense of metaphysical commitments but with finding and exploring paths of metaphysical inquiry The essays in this volume are exploratory and exegetical rather than decisive Their contribution to metaphysics lies in the issues they raise the methods they explore and their conception of metaphysics as a discipline rooted in philosophical problems

Evolution in Form and Consciousness R. S. Whiteside,2007

Ways & Power Of Love Pitirim A. Sorokin,2015-10-22 The Ways and Power of Love was originally published in 1954 when Pitirim Sorokin was in the twilight of his career and leading the Harvard Research Center in Creative Altruism His elaborate scientific analysis of love with regard to its higher and lower forms its causes and effects its human and cosmic significance and its core features constitutes the first study on this topic in world literature to date Sorokin was the one absolutely essential twentieth century pioneer in the study of love at the interface of science and religion Bringing The Ways and Power of Love back into print allows a new generation of readers to appreciate Sorokin s genius and to move forward with his endeavor at a time when civilization itself continues to be threatened by a marked inability to live up to the ideal of love for all humankind It is certainly right to hope with Sorokin that progress in knowledge about love can move humanity forward to a better future Turning the sciences toward the study of love is no easy task but it can and must be done

The Contexts of Bakhtin Professor David Shepherd,David Shepherd,2012-11-12 The fourteen essays collected in this volume notwithstanding their diversity of subject matter and approach share a concern with the contexts to which we need to refer in order to understand not only the origins but also the potential of Mikhail Bakhtin s thought contexts both immediate and oblique personal and impersonal intellectual and theoretical Five of the essays are by well known Russian scholars whose work on Bakhtin has not previously been translated in English the other nine papers are by established and emerging Bakhtin specialists in North America the United Kingdom and Europe

Sudden Death in Opera Michael Trimble,Robert Ignatius Letellier,Dale Hesdorffer,2021-09-28 An aspect of dying in opera rarely observed or commented on is Sudden Unexpected Death There are many deaths in this melodramatic genre most follow expected causes like murder suicide or old age This

book explores those deaths which occur without obvious natural causes These are often central to the overall drama of the opera representing denouements forming the epiphany of the story and the apotheosis for the audience The book identifies 50 operas where such events occur exploring the role of the *dramatis personae* the circumstances of their dying and specific themes that emerge These include a preponderance of females especially in the 19th century who die mainly at the end of the operas often in the context of tragedy It charts the growing awareness in the medical sciences of the unconscious forces driving human behaviour including liminal mental states and trances which influenced these operas and continue to affect human behaviour to the present day In addition the changing philosophies that are intertwined with operatic narratives in particular stemming from Kant Hegel Schopenhauer and Nietzsche are important in the book's exegesis as is the special role of Wagner's compositions This leads to the exploration of recurrent concepts such as the *Liebste* the *ewig Weibliche* and redemption itself

Damascius' Problems and Solutions Concerning First Principles Damaskios, 2010-10-28 Damascius was head of the Neoplatonist academy in Athens when the Emperor Justinian shut its doors forever in 529 His work *Problems and Solutions Concerning First Principles* is the last surviving independent philosophical treatise from the Late Academy Its survey of Neoplatonist metaphysics discussion of transcendence and compendium of late antique theologies make it unique among all extant works of late antique philosophy It has never before been translated into English The *Problems and Solutions* exhibits a thorough going critique of Proclean metaphysics starting with the principle that all that exists proceeds from a single cause proceeding to critique the Proclean triadic view of procession and reversion and severely undermining the status of intellectual reversion in establishing being as the intelligible object Damascius investigates the internal contradictions lurking within the theory of descent as a whole showing that similarity of cause and effect is vitiated in the case of processions where one order e.g. intellect gives rise to an entirely different order e.g. soul Neoplatonism as a speculative metaphysics posits the One as the exotic or extopic explanans for plurality conceived as immediate present to hand and therefore requiring explanation Damascius shifts the perspective of his metaphysics he struggles to create a metaphysical discourse that accommodates insofar as language is sufficient the ultimate principle of reality After all how coherent is a metaphysical system that bases itself on the Ineffable as a first principle Instead of creating an objective ontology Damascius writes ever mindful of the limitations of dialectic and of the pitfalls and snares inherent in the very structure of metaphysical discourse

Lucifer, 1891 **UNIVERSAL HUMAN VALUES-1** Dr. Sujatha, 2024-05-07 Human beings are complex creatures with a myriad of aspirations that drive them to seek fulfillment and purpose in their lives These aspirations encompass various aspects including physical emotional intellectual and spiritual needs Fulfilling these aspirations brings a sense of contentment happiness and harmony to a person's life In this discourse we will explore the concept of basic human aspirations the role of right understanding and resolution in their fulfillment and the significance of the self in human existence

Environmental Ethics John Benson, 2000 *Environmental Ethics* is an introductory textbook on

ethical issues about the environment and our involvement with it **Lifestyle by Nature** Betty Holston Smith
Ed.D,2019-04-06 How are you If your truest first thoughts in pondering this question are something like I could be better this nature based lifestyle change book might help To be healthy you must take care of all of you because the total you is made up of your entire self including your body mind spirit soul your everything If one part of you is not up to par in some way or another it s impossible for your everything else to be totally healthy You have tried everything your friends your doctors and even the advertisement industry recommended for improving your health But nothing has worked except to make you a frustrated person Close your eyes right now and allow your conscious mind to contemplate your health situation Be honest You are not the healthiest that you can or should be In fact you are in dire straits according to how you feel and what your medical team says about your health I know all of this about you because I was you so many years ago Like you for years I followed the same type of diet herd that you have been following And like you after trying everything I had no clue about what to try next However I found a clue Over forty years I lived the importance of and learned to replicate nature s wisdom on nutrition and movement in my unhealthy lifestyle Her focus was on naturally changing lifestyles not on temporary quick fixes And in the process she provided me with all types of support to do so I carefully recorded her step by step wisdom and provided the details inside Ditch your next quick fix cosmetic diet and put your trust in nature s simple but trustworthy lifestyle change wisdom **The Barbarian Principle** Jason M. Wirth,Patrick Burke,2013-09-04 Toward the end of his life Maurice Merleau Ponty made a striking retrieval of F W J Schelling s philosophy of nature The Barbarian Principle explores the relationship between these two thinkers on this topic opening up a dialogue with contemporary philosophical and ecological significance that will be of special interest to philosophers working in phenomenology and German idealism
