*379th Bombardment Group (H) Anthology, November 1942-July 1945*, 2000 The anthology of the 379th Bombardment Group H is a comprehensive collection of 800 pages of words numbers and historic photographs that provide significance to the Best Bomb Group in The Mighty Eighth Air Force **Boeing B-17** Graham M. Simons, Harry Friedman, 2011-12-01 Fascinating insight into the early development of the B 17 Flying Fortress undoubtedly outshines other books on this significant WWII aircraft Air Mail The Boeing B 17 was the first American heavy bomber to see action in World War II when it was supplied to the RAF The design originated in 1934 when the US Air Corps was looking for a heavy bomber to reinforce air forces in Hawaii Panama and Alaska For its time the design included many advanced features and Boeing continued to develop the aircraft as experience of the demands of long distance flying at high altitude was gained When the United States entered WWII production of the aircraft was rapidly increased and it became the backbone of the USAAF in all theaters of war This book describes how it was built and utilizes many hitherto unpublished photographs from the design studio and production lines It illustrates and explains the many different roles that the aircraft took as the war progressed Heavy bomber reconnaissance antisubmarine and air sea rescue operations there were few roles that this solid design could not adopt **The Bomber Boys** Travis L. Ayres, 2009-10-06 True tales of heroism and the men who fought and died in the skies of World War II Europe In World War II there were all too many ways for a fighting man to die But no theater of operations offered more fatal choices than the skies above Nazi occupied Europe Inside of a B 17 Bomber thousands of feet above the earth death was always a moment away From the hellish storms of enemy flak and relentless strafing of Luftwaffe fighters to mid air collisions mechanical failure and simple bad luck it s a wonder any man would volunteer for such dangerous duty But some very brave men did Some paid the ultimate price Some made it home But in the end all would achieve victory Here author Travis L Ayres has gathered a collection of previously untold personal accounts of combat and camaraderie aboard the B 17 Bombers that flew countless sorties against the enemy as related by the men who lived and fought in the air and survived They are stories of heroism sacrifice miraculous survival and merciless warfare But they should all be remembered INCLUDES PHOTOS *To Command the Sky* Stephen L. McFarland, Wesley Phillips Newton, 2006-03-06 To Command the Sky is a scholarly record of the fight for domination of the skies over western Europe during World War II It also explains the technical details of the tactics used to defeat the Luftwaffe This book is important for serious students of World War II or military aviation EndFragment **379th Bombardment Group Anthology, Volume 2**, 2000-06 Beretter om den amerikanske 379th Bombardment group s operationer over Europa under 2 verdenskrig i perioden 1942 1945 **JG26** Donald Caldwell, 2013-11-20 This unique impressive study presents a history in microcosm of the entire Luftwaffe Fighter Corps a spellbinding work Library Journal Jagdgeschwader 26 the German elite fighter unit was more feared by the Allies than any other Luftwaffe group Based on extensive archival research in Europe personal combat diaries and interviews with

more than 50 surviving pilots Caldwell has assembled a superb day to day chronicle of JG 26 operations from its first air victory in 1939 to its final combat patrol in 1945 A microcosm of World War II exists in the rise and fall of this famous fighter wing For the first two years of the war it was an even match between the Spitfires and Hurricanes of the Royal Air Force and the Luftwaffe s Messerschmitts and Focke Wulfs but the scales tipped in favor of the Allies in 1943 with the arrival of the Eighth US Air Force and its peerless P 51 Mustang The book has been endorsed by the top fighter commanders of three air forces the RAF Johnnie Johnson the USAAF Hub Zemke and the Luftwaffe Adolf Galland and is considered essential reading for anyone interested in the aerial war of 1941 45 1st Air Division 8th Air Force USAAF 1942-45 Martin W.

doctrine of daylight precision bombing they believed they could help turn the tide of the war in Europe In the months that followed they formed the Eighth Air Force an organization that grew at an astonishing rate To accommodate it almost seventy airfields were hastily built across the eastern counties of England At the heart of the Eighth Air Force was its bombardment groups each equipped with scores of heavily armed four engine bombers These Boeing B 17 Flying Fortresses and Consolidated B 24 Liberators were soon punching through the enemy s defenses to bomb targets vital to its war effort They were crewed by thousands of young American airmen most of whom were volunteers This book tells the story of just one Bomb Group the 381st which crossed the Atlantic in May 1943 Arriving at RAF Ridgewell on the Essex Suffolk border its airmen quickly found themselves thrown into the hazardous and attritional air battle raging in the skies over Europe The 381st s path led from its formation in the Texan desert to its 297th and final bombing mission deep into the heart of Hitler s Third Reich This is the remarkable story of one group and the part it played in the strategic bombing campaign of The Mighty Eighth [Air University Library Index to Military Periodicals](#) ,1988 *Screwball Express* Kenneth H. Bowman,2013-01-19 A highly readable account of the early stages of the USAAF air war over Western Europe from the author of *Confounding the Reich* The Bulletin This book describes the period when the American daylight offensive faltered and nearly failed and recalls the terrible losses suffered by Liberators on the low level attack on the Ploesti oilfields in Romania and by the B 17s on the notorious Schweinfurt and Regensburg raids which entered 8th Air Force folklore as
