Novel Sounds Florence Dore, 2018-06-12 The 1950s witnessed both the birth of both rock and roll and the creation of Southern literature as we know it Around the time that Chuck Berry and Elvis Presley put their electric spin on Southern vernacular ballads a canonical group of white American authors native to rock s birthplace began to write fiction about the electrification of those ballads translating into literary form key cultural changes that gave rise to the infectious music coming out of their region In *Novel Sounds* Florence Dore tells the story of how these forms of expression became intertwined and shows how Southern writers turned to rock music and its technologies tape radio vinyl to develop the rock novel Dore considers the work of Southern writers like William Faulkner Flannery O Connor and William Styron alongside the music of Bessie Smith Lead Belly and Bob Dylan to uncover deep historical links between rock and Southern literature Along with rock pioneers Southern authors drew from blues country jazz and other forms to create a new brand of realism that redefined the Southern vernacular as global electric and notably white Resurrecting this Southern literary tradition at the birth of rock Dore clarifies the surprising but unmistakable influence of rock and roll on the American novel Along the way she explains how literature came to resemble rock and roll an anti institutional art form if there ever was one at the very moment academics claimed literature for the institution

Jonathan Lethem James Peacock, 2013-07-19 Jonathan Lethem is the first full length study dedicated to the work of an exciting genre busting contemporary writer with an increasingly high profile in American literature Examining all of Lethem's novels as well as a number of his short fictions essays and critical works this study shows how the author's prolific output his restlessness and his desire always to be subverting literary forms and genres are consistent with his interest in subcultural identities The human need to break off into small groupings subcultures or miniature utopias is mirrored in the critical tendency to enforce generic boundaries To break down the boundaries between genres then is partly to make a nonsense of critical distinctions between high and low literature and partly to reflect the wider need to recognise difference to appreciate that other people no matter how outlandish and alien they may appear share similar desires experiences and problems With this in mind James Peacock argues that Lethem's experiments with genre are not merely games or elaborate literary jokes but ethical necessities particularly when viewed in the light of the losses and traumas that shadow all of his writing Jonathan Lethem therefore makes an important contribution not just to Lethem studies but also to debates about genre and its position in postmodern or post postmodern literature It will be of interest to all scholars and students of contemporary American writing as well as those interested in genre fiction and literature's relationship with subcultures

The politics of male friendship in contemporary

American fiction Michael Kalisch, 2021-07-20 How might our friendships shape our politics? This book examines how contemporary American fiction has rediscovered the concept of civic friendship and revived a long tradition of imagining male friendship as interlinked with the promises and paradoxes of democracy in the United States. Bringing into dialogue the work of a wide range of authors including Philip Roth, Paul Auster, Michael Chabon, Jonathan Lethem, Dinaw Mengestu, and Teju Cole, this innovative study advances a compelling new account of the political and intellectual fabric of the American novel today.

Understanding Don DeLillo Henry Veggian, 2014-11-10 Henry Veggian introduces readers to one of the most influential American writers of the last half century. Winner of the National Book Award, American Book Award, and the first Library of Congress Prize for American Fiction, Don DeLillo is the author of short stories, screenplays, and fifteen novels, including his breakthrough work *White Noise* (1985) and Pulitzer Prize finalists *Mao II* (1992) and *Underworld* (1998). Veggian traces the evolution of DeLillo's work through the three phases of his career as a fiction writer: from the experimental early novels through the critically acclaimed works of the mid 1980s and 1990s into the smaller but newly innovative novels of the last decade. He guides readers to DeLillo's principal concerns: the tension between biography and anonymity, the blurred

boundary between fiction and historical narrative and the importance of literary authorship in opposition to various structures of power and traces the evolution of his changing narrative techniques Beginning with a brief biography an introduction to reading strategies and a survey of the major concepts and questions concerning DeLillo's work Veggian proceeds chronologically through his major novels His discussion summarizes complicated plots reflects critical responses to the author's work and explains the literary tools used to fashion his characters narrators and events In the concluding chapter Veggian engages notable examples of DeLillo's other modes particularly the short stories that reveal important insights into his modular working method as well as the evolution of his novels
