Radix Naturalis Craig Cramm,2020-10-30 The substance of this present work is liberation semiology The world s own principle is love agape Our fellow creatures are co symbols of emancipation from human violence Creation is not as influential modern thinkers envision mere material mere nature to commodify and dominate for the freedom of an exclusive constituency of our species The ecological crisis emerges from a tragic misfit between experiments with secular sovereignty and the continuance of Christian historicity Either the Christian form of life of time is replaced revealing a new ecological worldview or we revive Christian sovereignty as a creative fit with the actuality of Christian historicity This work wagers on the latter Christian civilization is coextensive with ecological civilization **Converse in the Spirit** Kevin Fischer,2004 Underlining the importance to both of a living creative and spiritual tradition Converse in the Spirit argues that the relationship between Blake and Boehme was a meeting of like minds that transcended place and time that each regarded

himself as part of a community of vision and aspiration and believed that any predominant form of thought and understanding was only partial Through this Boehme is used to illuminate the more esoteric aspects of Blake and Blake those of Boehme Their writings are not a simple or direct description on the movements of divinity nor of what divinity is or is not but a medium for approaching it and for participating in the creation of the sacred the giving of personal individual form to the divine *The Theosophist* ,1912 **On Behalf of the Mystical Fool** John P. Dourley,2009-09-30 Jung s explanation of the religious tendency of the psyche addresses many sides of the contemporary debate on religion and the role that it has in individual and social life This book discusses the emergence of a new mythic consciousness and details ways in which this consciousness supersedes traditional concepts of religion to provide a spirituality of more universal inclusion On Behalf of the Mystical Fool examines Jung s critique of traditional western religion demonstrating the negative consequences of religious and political collective unconsciousness and their consequent social irresponsibility in today s culture The book concludes by suggesting that a new religiosity and spirituality is currently emerging in the West based on the individual s access to the sense of ultimacy residual in the psyche and seeking expression in a myth of a much wider compass This book will be of interest to scholars and students at all levels who are engaged in the expanding field of Jungian studies It will also be key reading for anyone interested in the theoretical and therapeutic connections between the psyche and religious experience The Book Monthly James Milne,1911 **MYSTICISM (Complete Edition)** Evelyn Underhill,2023-12-01 Evelyn Underhill s MYSTICISM Complete Edition serves as a profound exploration into the intricacies of mystical experience and its significance within the spiritual journey Blending a rich tapestry of philosophy theology and psychology Underhill employs an elegant literary style that weaves historical context with personal insights The work meticulously examines various mystical traditions providing an accessible yet comprehensive overview of their practices and underlying principles Through her systematic analysis she elevates mysticism from a peripheral component of religious experience to a central pillar of spiritual understanding firmly situating her discussion within both Western and Eastern perspectives Evelyn Underhill was a pioneering figure in the study of mysticism a fact that deeply informs her authoritative voice in this text Born in 1875 she was a novelist poet and passionate scholar of religion who engaged with not only Christian mystics but also Sufism and the philosophies of the East Her personal contemplative practices and scholarly pursuits coalesce in this seminal work reflecting her pursuit of a unifying thread among diverse spiritual traditions MYSTICISM Complete Edition is highly recommended for scholars practitioners and seekers alike as it invites readers to deepen their understanding of mystical phenomena and encourages a reflective engagement with the divine Underhill s insights illuminate the transformative potential of mysticism making it an essential addition to any spiritual library In this enriched edition we have carefully created added value for your reading experience A succinct Introduction situates the work s timeless appeal and themes The Synopsis outlines the central plot highlighting key developments without spoiling critical twists A detailed Historical Context
