Foundations Of Esoteric Philosophy Helena Petrovna Blavatsky,1982 **Foundations of Esoteric Philosophy** H. P. Blavatsky, *The Encyclopedic Sourcebook of New Age Religions* James R. Lewis,2004-08-30 In the late 1980s the New Age movement became the focus of both media attention and widespread ridicule as some of the more outlandish aspects of the movement such as channeling and the use of crystals for healing briefly piqued the public s curiosity While the movement was at its height scholars of religion generally sneered at what was perceived to be a daffy shallow craze and ignored it as a subject of serious study Professor James R Lewis was among the first to examine this growing religious phenomenon scientifically In previous books he has investigated the New Age as the most visible manifestation of a significant spiritual subculture the roots of which reach back to Theosophy Spiritualism and New Thought The present collection pursues this theme bringing together some of the best recent scholarship on new religions Since the height of its popular influence the New Age has declined in strength but has given rise to a plethora of new denominations all shaped by New Age ideas and spirituality Reflecting the emergence of this new denominational structure the core chapters of this book focus on specific groups Other chapters examine the movement s historical roots A unique feature of Dr Lewis s work is his inclusion of extensive selections from New Age literature thus allowing readers to experience firsthand the unusual perspectives of the various groups This is a fascinating examination of a significant and persistent religious and social phenomenon *Initiation into the Mysteries of the Secret Doctrine* Aceka,2015-05-26 Initiation into the Mysteries of the Secret Doctrine is an extensive consideration of Occult Science that delves into the historical record to trace the role of this secret knowledge through ancient cultures and into the present Presenting the Zodiac as the concept central to the understanding of the life cycle Aceka reveals the keys to understanding ancient esoteric philosophy By revealing the teachings of the Constellations Initiation into the Mysteries of the Secret Doctrine encourages readers to pursue a full and joyful life **Rudolf Steiner's 'Philosophie der Freiheit' as the Foundation of the Logic of Beholding Thinking. Religion of the Thinking Will. Organon of the New Cultural Epoch. Vol. 1** G. A. Bondarev,2014-09-15 An introduction to Anthroposophical Methodology and a complete analysis of Rudolf Steiner s Philosophy of Freedom Spiritual Activity Gennady Bondarev s Organon demonstrates that the methodology intrinsic to Anthroposophy is fundamental and capable of unifying all modern sciences as it describes the monistic sensible supersensible reality Through its anthropocentric and ontological character the methodology s actualization implies an evolutionary change of both the human subject and the process of cognition itself Rudolf Steiner s fundamental epistemological work is thereby shown to be the foundation for the development of a new kind of beholding thinking what Goethe began to experience and called anschauende Urteilskraft This is volume 1 of 3 The volumes taken together contain a completely new translation of Die Philosophie der Freiheit by Graham B Rickett **The Esoteric Basis of Christianity** William Kingsland,1895 **The Theosophist** ,1884 **Plato and the Foundations of**

The Mystic Foundation Christopher Penczak, 2006 THE PRACTICAL FOUNDATIONS OF MODERN MYSTICISM Yes Mysticism is both Modern and Practical Too often the Mystical is seen as airy fairy and disconnected from the Real World What is this so called Real World You think you know it as that which you can touch and feel the world you plant your feet on and that feeds you You think it's really solid stuff The Real World You're wrong The Real World isn't really solid stuff and the Mystical is actually the very stuff of reality the far bigger reality that is as modern as tomorrow and as practical as money in the bank The Mystical is about actually understanding how things really work and how you can benefit from personal exploration and experience in what some people refer to as the Magical Universe where truly real things happen and affect you in this world you thought was such a solid thing This Magical Universe where real things happen is the same universe studied by modern scientists at the cutting edge of quantum physics and consciousness and that has been studied for ages by mystics philosophers Kabbalists shamans hermeticists yogis alchemists all scientists exploring those dimensions lying behind below inside and above what you once thought of as the only real world Using Esoteric Technology It is by means of various esoteric technologies that you can actually reach in behind the scenes so to speak to touch work with or even change the inner reality that manifests in the outer world These technologies have been developed out of many differing perceptions of the inner reality that are as equally true and valid as are the many ways to describe the glory of a sunset the beauty of a rose or the glow of love Scientists and Mystics have developed many models to understand explore and relate to this hidden world each as different and yet the same as the brilliant facets on a cut diamond These have names and their validity is enhanced by their attraction to you and the beauty you find in them Certain of them speak to you as others do not and it is your choice and your opportunities to work with those that strike the right cord within you The Many Pathways to Enlightenment In this concise yet deep and insightful book many Pathways to Enlightenment are explored and their inner reality models described illustrated with diagrams and charts Alchemy Ascension Buddhism Christianity Druidism Hermetic
