## **Frontiers Of Entrepreneurship Research 1986:**

Frontiers of Entrepreneurship Research 1986 Robert Ronstadt, Rein Peterson, 1986      **Frontiers of Entrepreneurship Research**, 1996      Journal of Small Business and Entrepreneurship, 1995-10      **Journal of Small Business and Entrepreneurship**, 1985      Journal of Small Business and Entrepreneurship, 1985      Researching Entrepreneurship Per Davidsson, 2006-04-18 Entrepreneurship is a phenomenon of tremendous societal importance. It is also an elusive phenomenon and researching entrepreneurship is therefore fun, fascinating and frustrating at times. In Researching Entrepreneurship Per Davidsson, one of the most highly recognized entrepreneurship scholars shares in a personal and readable way his rich experience and ideas on how entrepreneurship can or should be researched. After a comprehensive treatment of entrepreneurship as a societal phenomenon and scholarly domain, the core chapters of the book discuss design, sampling, operationalization and analysis issues on several levels of analysis: individual, venture, firm, industry, region and nation. The book is targeted at doctoral students and other relative newcomers to the field of entrepreneurship research. However, taking a fresh, reflective perspective and looking beyond research conventions, it should provide potential for inspiration and food for thought also for experienced entrepreneurship researchers.      Journal of Small Business and Entrepreneurship, 1990-07      **Handbook of Research on Ethnic Minority Entrepreneurship** Leo Paul Dana, 2007 Professor Dana and his colleagues have carefully and successfully put together a collection of chapters on ethnic minority entrepreneurship from all parts of the world. The book comprises eight parts and 49 chapters. Undoubtedly, given the massive size and content of a 835 page book, it is fair to ask: is it value for money? The answer is unequivocally yes. A further comment on the content of the book should probably reassure potential readers and buyers of the book. This collection is undoubtedly rich, creative and varied in many respects. Therefore, it will be of great benefit to researchers and scholars alike. I will strongly recommend this book to researchers, students, teachers and policy makers. Aminu Mamman International Journal of Entrepreneurial Behaviour and Research The volume presents an impressive panorama of studies on ethnic entrepreneurs ranging from Dalits in India to Roma entrepreneurs in Hungary. B. P. Corrie Choice From a focus on middle man minorities in the 1950s, the study of minority ethnic entrepreneurship has evolved into a vast undertaking. A major ingredient in this expansion is the massive population movements of the past thirty years that have created ethnic minority communities in almost all advanced economies. From New York to San Francisco, from Birmingham to Hamburg, from the Chinese in Canada to the Turks in Finland, to the Ghanians in South Africa, to the Lebanese in New Zealand, more than twenty chapters in this volume treat small scale ethnic entrepreneurship and the cultural and institutional resources which support it. At the other end of the spectrum, the ethnic Chinese have created ever larger multi divisional enterprises in the host societies of Southeast Asia. At the mid point of the spectrum, analyzed in an elegant paper by Ivan Light, is the recently identified transmigrant entrepreneur acculturated in two societies but assimilated in neither, whose special endowments have

provided the lynchpin for much of the international trade expansion in the global economy over the past decade And Dana and Morris provide us with much more Afro American entrepreneurship caste and class the theory of clubs women ethnic entrepreneurs minority ethnicity and IPOs In the quality of its contributions and in the reach of its coverage this Handbook attains a very high standard Peter Kilby Wesleyan University US The new Handbook of Research on Ethnic Minority Entrepreneurship edited by L o Paul Dana constitutes a major contribution to the literature on ethnic enterprise Unlike previous work which tended to focus on one country or one region of the world this book is global in scope You will find chapters on America Europe and Asia as well as integrative essays that review important principles and concepts from the literature on ethnic entrepreneurship I particularly appreciate the historical and evolutionary framework within which the contributions are situated This book belongs on the shelf of everyone who has an interest in immigration and entrepreneurship or ethnic entrepreneurship more generally Howard Aldrich University of North Carolina US This exhaustive interdisciplinary Handbook explores the phenomena of immigration and ethnic minority entrepreneurship in light of marked changes since the mid twentieth century and the advent of easier more affordable travel and more open and integrated national economies The international contributors key experts in their respective fields illustrate that myriad ethnic minorities exist across the globe and that their entrepreneurship can and does significantly influence national economies The contributors go on to promote our understanding of which factors make for successful entrepreneurship and perhaps more importantly how negative political consequences that members of successful entrepreneurial ethnic minorities might face can be minimized This extensive collection of current research on entrepr

**Energizing Management Through Innovation and Entrepreneurship** Milé Terziovski,2008-09-04 This book provides an in depth understanding of key variables that play a significant role at the various stages of the innovation process leading to successful commercialisation of products and services Combining interdisciplinary studies in entrepreneurship and innovation the book consists of contributions focusing on theory research and practise in the field of innovation management and entrepreneurship The role of the entrepreneur is addressed as an innovator who recognises opportunities and convert these

into marketable products and services through personal commitment financial resources and management skill taking appropriate level of risk Terziovski has selected a variety of chapters focusing on a wide ranging number of topics including corporate entrepreneurship entrepreneurial learning strategies the impact of entrepreneurial practises on competitiveness human resource management and knowledge management The main conclusion of the analysis in these chapters is that there is a strong relationship between innovation and entrepreneurship Moreover this book articulates two contradictory schools of thought first that firms with a higher entrepreneurial orientation have higher relative international sales and operate in a greater number of foreign countries and secondly that entrepreneurial orientation is not associated with subsidiary financial or market performance but is positively and significantly associated with subsidiary idea generation which are subsequently converted into marketable products and services through the innovation process This book acts as a negotiation between these two perspectives *Black Entrepreneurship in America* Shelley Green,Paul L. Pryde,1989-01-01 At a time of rapid economic change in black American communities this important study provides fresh thinking about black values institutions and economics Black Entrepreneurship in America defines the cultural context of economic changes in this most critical segment of American life This bold and pioneering effort will be of great value to social researchers and political analysts interested in black studies and social and economic change **Journal of Small Business and Entrepreneurship ,**

Entrepreneurship and the Growth of Firms Per Davidsson,Frédéric Delmar,Johan Wiklund,2006-01-01 Exploring the relationships between the growth of firms and entrepreneurship the authors have drawn on many individual projects case studies to provide a comprehensive analysis **Pioneers in Entrepreneurship and Small Business Research** H. Landstrom,2007-12-31 Around the world there is an increasing interest in issues of small business and entrepreneurship In a time with a lot of myths and opinions of the role of entrepreneurs and small business it is vital for a book like this to encapsulate the knowledge that can be gained from the most significant research contributions in the field Such knowledge is often build upon empirical oriented methods providing policy relevant results for small business owners and entrepreneurs The aim of Pioneers in Entrepreneurship and Small Business Research is first to provide a historical doctrinal review of the development of entrepreneurship and small business research and second to present some of the key pioneers that have shaped the research field during the past three decades The book focuses on the first recipients of the FSF NUTEK International Award for Small Business Research including David Birch Arnold Cooper David Storey Ian MacMillan Howard Aldrich Zoltan Acs David Audretsch and Giacomo Becattini Seminal Ideas for the Next Twenty-Five Years of Advances Jerome A. Katz,Andrew C. Corbett,2019-06-19 Seminal Ideas for the Next Twenty Five Years of Advances is the second of two volumes exploring and celebrating some of the most long lasting and influential contributions to Advances in Entrepreneurship Firm Emergence and Growth **Entrepreneurship** Norris F. Krueger,2002 This new collection provides

a much needed retrospective view of the key academic work published in this area The papers here highlight the importance of studying entrepreneurship from a wide range of perspectives including research that derives from economics history sociology psychology and from different business disciplinary bases such as marketing finance and strategy The overall focus in this set is on entrepreneurial activity rather than specifically small or family owned business and favours research articles over those that deal purely with practice

**Handbook of Research on Innovation and Clusters** Charlie Karlsson, 2008 This volume is an important step in furthering the discussion about how cluster strategies work and the implications for theory and policy Jennifer Clark Review of Regional Studies The role of innovations and clusters has increasingly dominated local and regional development policies in recent decades This authoritative and accessible Handbook considers important aspects of high tech clusters analyses insightful cluster case studies and provides a number of recommendations for cluster policies The chapters in this Handbook are written by international experts in the field and present evidence of the scope effects and potential of clusters as concentrations of innovative activities The authors emphasize that cluster development is not the only option for local and regional development and argue that for cluster policies to be worthwhile supporting policies in fields such as education R D transportation and communication infrastructure must accompany most cluster policies Furthermore several contributions stress that clusters often develop along a life cycle that may end with decline and even the disappearance of clusters Consequently this Handbook provides the basis for improving both research on innovation and clusters and the formulation and implementation of cluster policies Furnishing the reader with rich comprehensive discussion of innovations and clusters this Handbook will be an essential source for researchers and academics in the field as well as policymakers planners and specialists development experts and agencies and consultants
