Fear, Wonder, and Science in the New Age of Reproductive Biotechnology Scott Gilbert, Clara Pinto-Correia, 2017-08-08 How does one make decisions today about in vitro fertilization abortion egg freezing surrogacy and other matters of reproduction This book provides the intellectual and emotional intelligence to help individuals make informed choices amid misinformation and competing claims Scott Gilbert and Clara Pinto Correia speak to the couple trying to become pregnant the woman contemplating an abortion and the student searching for sound information about human sex and reproduction Their book is an enlightening read for men as well as for women describing in clear terms how babies come into existence through both natural and assisted reproductive pathways They update the talk for the twenty first

century the birds the bees and the Petri dishes Fear Wonder and Science in the New Age of Reproductive Biotechnology first covers the most recent and well grounded scientific conclusions about fertilization and early human embryology It then discusses the reasons why some of the major forms of assisted reproductive technologies were invented how they are used and what they can and cannot accomplish Most important the authors explore the emotional side of using these technologies focusing on those who have emptied their emotions and bank accounts in a valiant effort to conceive a child This work of science and human biology is informed by a moral concern for our common humanity

Sexuality and Procreation in the Age of Biotechnology Paola Marion, 2021-07-12 Through the lens of psychoanalytic thought about sexuality the book examines changes in the area of procreation and generation the disjunction between sexuality and procreation introduced by biotechnology and some new methods of reproduction and their impact on the essential moments of existence birth illness death and the most intimate aspects of personal identity sexuality procreation body At the centre of this book is the thesis that the disjunction between sexuality and procreation brought about by biotechnology represents a new scenario and introduces elements of discontinuity What kind of effects on individuals will the modifications introduced by biotechnologies in the field of procreation have How can these changes affect even the most profound aspects of personal identity including body and sexuality How might they interfere with the sphere of desire The book investigates the new scenarios and the consequences which are emerging such as an alteration of personal boundaries both in spatial and temporal terms which is reflected in our way of thinking about ourselves and our relationships and the assertion of an unconscious fantasy that the limits imposed by sexuality and death can be surpassed Offering a psychoanalytic reading of changes introduced in this field this book will appeal to training and practising psychoanalysts as well as philosophers psychologists and gynaecologists

Reproductive Donation Martin Richards, Guido Pennings, John B. Appleby, 2012-07-05 Reproductive donation is the most contentious area of assisted reproduction Even within Europe there are wide variations in what is permitted in each country This multidisciplinary book takes a fresh look at the practices of egg sperm and embryo donation and surrogacy bringing together ethical analysis and empirical research New evidence is offered on aspects of assisted reproduction and the families these create including non traditional types One of the key issues addressed is should children be told of their donor origin If they do learn the identity of their donor what kinds of relationships may be forged between families the donor and other donor sibling families Should donation involve a gift relationship Is intra familial donation too close for comfort How should we understand the growing trend for reproductive tourism This lively and informed discussion offers new insights into reproductive donation and the resulting donor families

A Womb of Her Own Ellen L.K. Toronto, Joann Ponder, Kristin Davisson, Maurine Kelber Kelly, 2017-02-03 Gender and body based distinctions continue to be a defining component of women s identities both in psychoanalytic treatment and in life Although females have made progress in many areas their status within the human community has remained unstable and subject to societal whim A Womb of Her Own brings together

a distinguished group of contributors to explore from a psychoanalytic perspective the ways in which women's sexual and reproductive capabilities and their bodies are regarded as societal and patriarchal property not as the possession of individual women. It further examines how women have been viewed as the other and thus become the focus of mistreatment such as rape, sexual slavery, restriction of reproduction rights and ongoing societal repression. Postmodern gender theories have greatly enhanced understanding of the fluidity of gender and freed women from repressive stereotypes but attention has shifted prematurely from the power differential that continues to exist between men and women. Before the male/female binary is transcended the limitations imposed upon women by the still prevailing patriarchal order must be addressed. To this end *A Womb of Her Own* addresses issues such as the prevalence of rape culture and its historical roots, the relationship of the LGBT movement to feminism, current sexual practices such as sexting and tattooing and their meaning to women, reproductive issues including infertility, adoption, postpartum depression and the actual experience of birthing all from the perspectives of women. The book also explores the cultural definitions of motherhood and how such definitions set exacting standards both for the acceptable face of motherhood and for women generally. While women's unique anatomy and biology have historically contributed to their oppression in a patriarchal society, it is the exploration and illumination of these capabilities from their own perspective that will allow women to claim and control them as their own. Covering a broad topical range of contemporary subjects, *A Womb of Her Own* will appeal to psychoanalysts, psychoanalytic psychotherapists as well as scholars and students of gender and women's studies.

The Impact of Parenthood on the Therapeutic Relationship
April E. Fallon, Virginia Brabender, 2017-08-04
This volume covers the range of reactions that both patients and clients have to the circumstance of a child entering the therapist's family. Through research, the authors show these reactions can be extremely powerful and when fully explored can be used to advance the therapy and the development of the patient. Rich clinical illustrations are provided throughout the text. In addition, the reader is offered many therapeutic strategies for working with patient/therapist reactions as they unfold. Many practical issues arise in conjunction with this life transition. Examples include announcing a pregnancy or an imminent adoption, planning parental leave and covering the patient's needs during the hiatus. In this second edition, therapists who are members of LGBT families and single parent families are described in terms of their special needs, challenges and resources. This updated edition also contains a new chapter on special problems that can arise during pregnancy.

Social History Assessment
Arlene Bowers Andrews, 2006-12-07
Her book takes us on a journey back to the basics of conducting a thorough and informative social history and is an account of what a real social history involves. I recommend this book not only for the novice but also for all clinicians who want an edge on how to accumulate more pertinent information concerning their patients and to guide their treatment. **PSYCCRITIQUES**
what impresses me about this text is that Andrews uses her love of social history to take a subject that is rarely celebrated and remind us of what is exciting about it. **FAMILIES IN SOCIETY**
