In this definitive study David Bathrick examines East German culture both before and after the fall of the Berlin Wall in
November 1989 Bathrick argues that dissident East German writers were unique among East European literary intellectuals
in that they attempted to open up alternative spaces for public speech from within the framework of Marxism and state
socialism According to Bathrick the fact that some of them had been censored hunted questioned and ridiculed does not belie
the fact that they were also and sometimes even simultaneously privileged nurtured courted and coddled It was precisely
their function on both sides of the power divide as official and unofficial voices within the whole which defined a particular
kind of intellectual in the GDR Bathrick applies his insights into this particular kind of intellectual to a wide range of topics
He compares oppositional culture in East Germany to radical cultures elsewhere examines the complex political and cultural
relations of East and West Germany traces the anguished history of the East German avant garde and describes the troubled
effort to develop a revolutionary theatrical tradition in East Germany The book also includes nuanced insights into the
collapse of the East German political order in the late 1980s and more recent revelations about the collaboration of allegedly
oppositional writers with the Stasi state police In his treatment of these and other issues Bathrick enters hotly contested
territory Yet he brings clarity and scrupulous fairness to these issues that are still very much alive in Germany and elsewhere
