

# Fruit Key & Twig Key to Trees and Shrubs

**FRUIT KEY TO NORTHEASTERN TREES  
TWIG KEY TO THE DECIDUOUS WOODY PLANTS OF  
EASTERN NORTH AMERICA**

by **William M. Harlow**  
(Professor of Wood Technology, College of Forestry, State  
University of New York, Syracuse)

Bound together for the first time in one volume, these handy, accurate, and easily used keys to fruit and twig identification are the only guides of their sort with photographs — over 350 of them, of nearly every twig and fruit described — making them especially valuable to the novice.

The fruit key dealing with both deciduous trees and evergreens begins with a concise introduction, explaining simply and lucidly the process of seedling, and identifying the various organs involved: the shoot and flower, and their component parts and variations. Next the various types of fruits are described — drupe, berry, pome, legume, follicle, capsule, achene, samara, nut — and fruiting habits, followed by a synoptic summary of fruit types.

The introduction to the twig key tells in plain language the process of growth, and its relation to twig morphology through leaf scars, branch scars, buds, etc. For the benefit of the unwary, poison-ivy, poison-oak, and poison-sumac are immediately and fully described.

Identification in both books is easy. There is a pair of alternative descriptions of each aspect of the specimens. Your choice of the fitting one leads you automatically to the next proper pair. At the end of the chain is the name of your specimen and, as a double check, a photograph. More than 120 different fruits and 540 different twigs are distinguished.

This exceptional work, widely used in university courses in botany, biology, forestry, etc., is a valuable tool and instructor to the naturalist, woodsman, or farmer, and to anyone who has wondered about the name of a leafless tree in winter, or been intrigued by an interestingly shaped fruit or seed.

Over 350 photographs, up to 3 times natural size. Bibliography, glossary, index of common and scientific names, in each key. Total of vol. + 126pp. 5 1/2 x 8 1/2. Two volumes bound as one.

TS11 Paperbound \$1.25

## THIS BOOK EDITION IS DESIGNED FOR YEARS OF USE

**THE PAPER** is exactly the same quality as you would find in books priced \$2.00 or more. It does not discolored or become brittle with age. Not artificially bulked, either, this edition is an unadorned full-length book, but is still easy to handle.

**THE BINDING.** The pages in this book are 100% in signature, in the method traditionally used for the best books. These books open flat for easy reading and reference. Pages do not show out, the binding does not crack and split (as in the case with many paperbacks) held together with glue.

**THE TYPE IS LEGIBLE.** Margins are ample and allow for clean re-binding.
