Fugitives Mission:

The Guaraní and Their Missions Julia J. S. Sarreal, 2014-06-11 The thirty Guaran missions of the R o de la Plata were the largest and most prosperous of all the Catholic missions established throughout the frontier regions of the Americas to convert acculturate and incorporate indigenous peoples and their lands into the Spanish and Portuguese empires But between 1768 and 1800 the mission population fell by almost half and the economy became insolvent This unique socioeconomic history provides a coherent and comprehensive explanation for the missions operation and decline providing readers with an understanding of the material changes experienced by the Guaran in their day to day lives Although the mission economy funded operations sustained the population and influenced daily routines scholars have not focused on this important aspect of Guaran history primarily producing studies of religious and cultural change This book employs mission account books letters and other archival materials to trace the Guaran mission work regime and to examine how the Guaran shaped the mission economy These materials enable the author to poke holes in longheld beliefs about Jesuit mission management and offer original arguments regarding the Bourbon reforms that ultimately made the missions unsustainable

makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1976 Saints and Citizens Lisbeth Haas,2014 Saints and Citizens is a bold new excavation of the history of Indigenous people in California in the late eighteenth and nineteenth centuries showing how the missions became sites of their authority memory and identity Shining a forensic eye on colonial encounters in Chumash Luise o and Yokuts territories Lisbeth Haas depicts how native painters incorporated their cultural iconography in mission painting and how leaders harnessed new knowledge for control in other ways Through her portrayal of highly varied societies she explores the politics of Indigenous citizenship in the independent Mexican nation through events such as the Chumash War of 1824 native emancipation after 1826 and the political pursuit of Indigenous rights and land through 1848 Contest for California Stephen G. Hyslop,2019-07-23 California s early history was both colorful and turbulent After Europeans first explored the region in the sixteenth century it was conquered and colonized by successive waves of adventurers and settlers In Contest for California award winning author Stephen G Hyslop draws on a wide array of primary sources to weave an elegant narrative of this epic struggle for control of the territory that many saw as a beautiful sprawling land of promise In vivid detail Hyslop traces the story of early California from its founding in 1769 by Spanish colonists to its annexation in 1848 by the United States He describes the motivations and activities of colonizers and colonized alike Using eyewitness accounts he allows all participants Native American Spanish Mexican and Anglo American to have their say Soldiers settlers missionaries and merchants testify to the heroic and commonplace the colorful and tragic in California s pre American history Even as he acknowledges the dark side of this story Hyslop avoids a simplistic perspective Moving beyond the polarities that have marked late twentieth century California historiography he offers nuanced portraits of such controversial figures as Jun pero Serra and treats the Californios and their distinctive Hispanic culture with a respect lacking in earlier histories Attentive to tensions within the invading groups priests and the military during the Spanish era merchants and settlers during the American era he also never loses sight of their impact on the original inhabitants of the region California s Native peoples He also recounts the journeys of colonists from Russia England and other countries who influenced the development of California as it passed from the hands of Spaniards and Mexicans to Americans Exhaustively researched yet concise this book offers a much needed alternative history of early California and its evolution from Spanish colony to American territory

Frontiers of Evangelization Robert H. Jackson,2017-07-21 The Spanish crown wanted native peoples in its American territories to be evangelized and to that end facilitated the establishment of missions by various Catholic orders Focusing on the Franciscan missions of the Sierra Gorda in Northern New Spain Mexico and the Jesuit missions of Chiquitos in what is now Bolivia Frontiers of Evangelization takes a comparative approach to understanding the experiences of indigenous populations in missions on the frontiers of Spanish America Marshaling a wealth of data from sacramental military and census records Robert H Jackson explores the many factors that influenced the stability of mission settlements including the

indigenous communities previous subsistence patterns and family structures the evangelical techniques of the missionary orders the social and political organization within the mission communities and epidemiology in relation to population density and mobility The two orders Jackson s research shows organized and administered their missions very differently The Franciscans took a heavy handed approach and implemented disruptive social policies while the Jesuits engaged in a comparatively kinder and gentler form of colonization Yet the most critical factor to the missions success Jackson finds was the indigenous peoples existing demographic profile in particular their mobility Nonsedentary populations like the Pames and Jonaces of the Sierra Gorda were more prone to demographic collapse once brought into the mission system whereas sedentary groups like the Guaran of Chiquitos experienced robust growth and greater resistance to disease and natural disaster Drawing on more than three decades of scholarly work this analysis of crucial archival material augments our understanding of the role of missions in colonization and the fate of indigenous peoples in Spanish America

We Are Not Animals Martin Rizzo-Martinez, 2022-02 Winner of the 2023 John C Ewers Award from the Western History Association 2023 Choice Outstanding Academic Title By examining historical records and drawing on oral histories and the work of anthropologists archaeologists ecologists and psychologists *We Are Not Animals* sets out to answer questions regarding who the Indigenous people in the Santa Cruz region were and how they survived through the nineteenth century Between 1770 and 1900 the linguistically and culturally diverse Ohlone and Yokuts tribes adapted to and expressed themselves politically and culturally through three distinct colonial encounters with Spain Mexico and the United States In *We Are Not Animals* Martin Rizzo Martinez traces tribal familial and kinship networks through the missions chancery registry records to reveal stories of individuals and families and shows how ethnic and tribal differences and politics shaped strategies of survival within the diverse population that came to live at Mission Santa Cruz *We Are Not Animals* illuminates the stories of Indigenous individuals and families to reveal how Indigenous politics informed each of their choices within a context of immense loss and violent disruption

The Guaraní under Spanish Rule in the Río de la Plata Barbara Anne Ganson, 2003 This ethnographic study is a revisionist view of the most significant and widely known mission system in Latin America that of the Jesuit missions to the Guaran Indians who inhabited the border regions of Paraguay Argentina and Brazil It traces in detail the process of Indian adaptation to Spanish colonialism from the sixteenth through the early nineteenth centuries The book demonstrates conclusively that the Guaran were as instrumental in determining their destinies as were the Catholic Church and Spanish bureaucrats They were neither passive victims of Spanish colonialism nor innocent children of the jungle but important actors who shaped fundamentally the history of the Río de la Plata region The Guaran responded to European contact according to the dynamics of their own culture their individual interests and experiences and the changing political economic and social realities of the late Bourbon period

Jackson,2019-05-08 Scholars have debated the demographic consequences for the indigenous populations of the Americas of 1492 the beginning of sustained contact between the Old and New Worlds Some have hypothesized an initial die off of indigenous population resulting from the introduction of highly contagious crowd diseases such as smallpox and measles So called virgin soil epidemics caused catastrophic mortality that culled the indigenous populations and some scholars such as the late Henry Dobyns hypothesized a rate of decline of around 90 percent as epidemics spread across the Americas like a miasmic cloud However over the course of generations the indigenous populations developed immunities to the maladies and recovered This book presents a detailed case study of indigenous populations congregated on Jesuit missions in lowland South America that challenges the basic assumptions of the model of virgin soil epidemics It shows that epidemic mortality varied between communities and that catastrophic mortality occurred on some mission communities generations after first sustained contact It concludes that patterns of demographic change among indigenous populations were far more complex than is often assumed This study is of interest to specialists in historical demography colonial Spanish America Native

American history and the history of Spanish frontier missions Franciscan Missions and the Chumash Uprising Robert H. Jackson, 2025-02-23 Between 1769 and 1834 Franciscan missionaries from the Apostolic College of San Fernando in Mexico City administered missions in what today is California The Franciscans attempted to convert the indigenous peoples to Catholicism and reshape their society and culture along with European norms In 1824 three years after Mexico gained its independence from Spain Chumash neophytes rebelled following the flogging by a Mexican soldier of a neophyte at Mission Santa In s The rebellion quickly spread to two other missions and lasted a month until soldiers defeated the rebels This book analyzes the long and short term causes of the uprising and the larger historical context It focuses on the development of Mission La Pur sima Concepci n where the rebellion lasted the longest A root cause of the uprising was deteriorating conditions of life on the missions resulting from the outbreak of the independence war in Mexico in 1810 **Coyote's Land** Margery Wolf, 2018-07-26 Via time travel Charlotte Makee a 21st century anthropologist meets an elderly Coast Miwok curer named Sekiak in the hills near Olompali in Marin County California Charlotte wishes to learn about Coast Miwok life before their society was disrupted and then destroyed by Catholic priests Spanish soldiers settlers and other foreigners over less than 100 years Once Sekiak decides to work with Charlotte she administers a potion that renders her visitor invisible to all but Sekiak and one or two others That potion also allows Charlotte to comprehend Miwok speech and she embarks on ethnographic fieldwork listening and observing in the nearby settlements with Sekiak as her primary teacher of local customs and history As the two women move back and forth through time Charlotte fills dozens of notebooks with data about Coast Miwok life that she intends to draw upon to tell the story of what happened to the people of Coyote s Land But as Margery Wolf s novel ethnography unfolds an ominous air settles over the research enterprise comparable to the ominous air of death and devastation that demolish a once thriving society This experimental ethnography joins fiction to historical and cultural data helping us to feel and see what happened as the Coast Miwok world turned upside down and then was altered beyond recognition *We Are the Land* Damon B.
