**Mission to Tokyo** Robert F. Dorr,2012-09-15 From Hell Hawks author Bob Dorr Mission to Tokyo takes the reader on a World War II strategic bombing mission from an airfield on the western Pacific island of Tinian to Tokyo and back Told in the veterans words Mission to Tokyo is a narrative of every aspect of long range bombing including pilots and other aircrew groundcrew and escort fighters that accompanied the heavy bombers on their perilous mission Several thousand men on the small Mariana Islands of Guam Saipan and Tinian were trying to take the war to the Empire Imperial Japan in B 29 Superfortresses flying at 28 000 feet but the high altitude bombing wasn t very accurate The decision was made to take the planes down to around 8 000 feet even as low as 5 000 feet Eliminating the long climb up would save fuel and allow the aircraft to take heavier bomb loads The lower altitude would also increase accuracy substantially The trade off was the increased danger of anti aircraft fire This was deemed worth the risk and the devastation brought to the industry and population of the capital city was catastrophic Unfortunately for all involved the bombing did not bring on the quick surrender some had hoped for That would take six more months of bombing culminating in the atomic bombs dropped on Hiroshima and Nagasaki As with Mission to Berlin Spring 2011 Mission to Tokyo focuses on a specific mission from spring 1945 and provides a history of the strategic air war against Japan in alternating chapters      **Burning Japan** Daniel T.

Schwabe,2015-01-15 The origins of destruction The makings of a mission Planning Japan s demise Hansell s 21st Bomber Command Losses per unit of target destruction Down the path of destruction Death throes Interpreting the campaign

Inferno Edwin P. Hoyt,2000-10-11 Throughout the spring and summer of 1945 Major General Curtis LeMay and his squadron of B29 bombers targeted Tokyo and numerous Japanese cities with near nightly incendiary bombing campaigns

**Fire from the Sky** Ron Greer,2013-08-27 This is the story of the last few months of WWII in the Pacific seen through the eyes of one man a radio operator aboard a B29 Superfortress who kept a diary of 28 missions over Japan The diary tells of the horrors of war It was written in darkness and often fear with a pen light during lonely hours confined for up to 18 hours at a time Herb Greer our main author 23 years old frightened and sitting on up to 20 000 pounds of jellied gasoline napalm while blindly flying through constant flak bursts and fighter opposition The plane is blacked out save the dull red glow of the instrument panels as they pass through the target area Suddenly the most intense bright light floods the aircraft blinding us the tension in the aircraft shot up hearts started beating a whole lot faster as we instantly realized that we were being singled out of the sky by a searchlight and were now firmly in the sights of air and ground fire we were the main act and center stage From that moment everything went into slow motion as we pass through the target seconds felt like minutes and minutes hours BOOM an explosion the plane rocks bucks flak is searing its way through the fragile fabric of the fuselage loose items are flying around Im scared they say you can taste fear well theyre absolutely right This personal view gives us two perspectives the first is the story of Herb Greer speaking to us aboard a B29 through the written entries of his diary and then the second recounted from his armchair 60 years later Written with an immediacy that can only be shared by those who were there while capturing for posterity their bravery and dignity of sacrifice Praise for Fire from the Sky This is a book you will not be able to put down It is a well told memoir of the men whose missions will live forever in history It was my honor to have read the book it felt almost sacred to be allowed to look inside a crew members personal diary truly a treasured artifact of historic and sentimental value This is a book worth reading several times Great black and white photos as well I fully recommend this wonderful book about aviation and the men who crewed B 29s Bill McDonald president of the Military Writers Society of America As an avid reader of military history I found Fire from the Sky A Diary over Japan to be both a treasure trove of information and a stirring and often startling look at the air war over Japan in World War II What comes across in this book is not only the dedication and heroism of a B 29 bomber crew but also the harrowing circumstances of life and death in the air Truly a remarkable book told by a remarkable man who found himself with a job to do that now in the light of the passage of time seems like an incredible and mind boggling achievement This book richly deserves its Silver Medal Award Robert McCammon New York Times bestselling author
