Shakespeare and Fun Donald Hedrick,2025-02-27 In this bold original study Hedrick proposes an early modern entertainment value revolution to which Shakespeare contributed and in which he played a competitive role As London's nascent capitalist industry developed and the variety of entertainments proliferated theatre contributes to the birth of entertainment value and a commercial trajectory toward what Marxist critic Adorno theorizes as fun seen contemporaneously in LasVegasization and the election of Donald Trump to U S Presidency In this innovative approach to Shakespeare's plays through their compulsory competitive relation to other choices from London's entertainment industry such as sex work and gaming Hedrick recovers a coherent internal

dynamic of theatre's pleasure enclosure accompanying the revolutionary logic of capital's new cultural and economic extremes Applying these relations to original insightful readings of *A Midsummer Night's Dream*, *The Winter's Tale* and *The Taming of the Shrew* Hedrick draws from cultural studies contemporary and personal parallels wide ranging historical materials and political theory These include the semantic shifts in keywords of pleasure the practice of betting on actors the psychology of paying admission before an entertainment and various reality shows such as contests of prose and verse Continual insights emerge both broad and specific from ten entertainment value axioms to Shakespeare's awareness of entertainment value's birth at moments in his late plays marking a logic of value crisis bubbles and the danger of too much fun
