*Love As God Had Intended: A High School Science Teacher Is Given Lessons in Goodness By Native American Teenagers* Harry Cralle, This is a true story about the kind of love for one another that God had intended It is a love that arose between a young white man the author and a group of Native American high school students in an experimental school in Chicago in the early 1970s I was a volunteer general science teacher who attempted to

teach science with a spiritual dimension within the guide lines of a public school There are many instances of humorous and serious classroom events However most of the book is devoted to dramatic events outside the school involving sports violence crime police sexual abuse attempted suicide attempted murder and great acts of self sacrificing love On two occasions adult Native Americans put me in mortal danger I was saved in one case by two male Native American teenagers ages 14 and 15 and in the other case by the 15 year old male and a 14 year old female They risked their lives to save my life These experiences show how the love that God had intended overcame all social and historical barriers all anger and jealousy all bitterness and resentment to generate goodness and the courage to battle and defeat evil When we see the moon or planets we see the reflected light of the Sun In the love and goodness of these heros I saw the reflection of the love and goodness of God From 1983 to 2017 I had a professorship in teaching and research at Texas A M University in the Department of Soil Crop Sciences In my 34 years at TAMU I taught more than 13 000 students and supervised more than 300 graduate teaching assistants I taught courses in agricultural ethics history of farming in the Great Plains world food and fiber crops sustainable crop production agricultural extension and international agricultural development My research areas were the interaction of crops and weeds biological nitrogen fixation and the distribution of the products of photosynthesis within plants I am now retired In this book I show how deeply my teaching and understanding of life was affected by these young Native Americans

**Found in Translation - Genesis One** J. Roland Kent, 2016-02-23 J R Kent has solved a 2 500 year old mystery that defies both religion and science Hidden in the thirty one verses of Genesis One is a message so powerful it could ultimately change the course of global events Our hi tech world is barely a century old and already life altering environmental terrorist political economic and health threats pose potentially dire consequences for our future However many of the ancient advanced civilizations such as the Egyptians the Greeks the Romans and the Mayans of Central America endured for thousands of years So what was their secret and how is it revealed in the Genesis verses Genesis One is an ancient creation account for the earth plants animals and humankind However when reading these verses they may seem bewildering and out of the natural order The premise of this book illustrates in startling detail that this amazing story in fact perfectly correlates with the theories of modern science There are several reasons why this mystery has not been revealed until now First an ancient author wrote this account in the original Hebrew language but the actual evolutionary sequence of the Earth that he so accurately revealed has been lost in translation by the many biblical versions that followed Second the discoveries of modern science now put us at a point in time when this correlation has now been found in translation This revelation then begs two questions How was this knowledge possible in ancient times and who wrote it
