same time a compliance with a reasonable public demand Nor are these first steps in her wonderful intellectual progress any the less but are all the more noteworthy for being first steps To ignore this stage says the author of the valuable little volume to which we have just referred to ignore this stage in George Eliot's mental development would be to lose one of the connecting links in her history Furthermore nothing in her fictions excels the style of these papers Here is all her epigrammatic felicity and an irony not surpassed by Heine himself while her paper on the poet Young is one of her wittiest bits of critical analysis

Do you often feel the uncontrollable urge to drive at ridiculously high speeds when out on the freeway Does that constant nagging struggle between the opposing sides of your inferiority superiority complex keep you up at night Are you brutally direct painfully precise and sometimes feel like you re speaking a foreign language because no one seems to understand you Vorsicht watch out You might be German In that case you won t have any use for this book Have a nice day If on the other hand you have always been puzzled by odd German Attitudes Behavior or Cultural practices then this is the book for you You are not alone you see Nor is there anything wrong with you reacting that way Your puzzlement is a perfectly healthy and normal human response to the cognitive dissonance and other psychological disruptions that often dissonate and disrupt when foreigners make unprotected contact with high grade Germanness Or at least that s what a specialist in Vienna told me As Winston Churchill once said Germany is a riddle wrapped in a mystery inside an enigma Actually he said Russia when he said that but I m pretty sure he meant Germany He was Winston Churchill after all and he had been around a bit I certainly would have said Germany And I wouldn t much less couldn t have said it better myself Germany and the Germans are indeed enigmatic and well really weird sometimes This collection of random personal observations and unsolicited opinion is an attempt to document just that I cannot guarantee that this list of German oddities is complete of course I can assure you however that enjoying these oddities in the privacy of your own home is a relatively safe and effective way to partake in the German experience without any of the harmful side effects Viel Gl ck dabei and good luck with that
