Fundamentalism Hazards And Heartbreaks:

Fundamentalism Rod L. Evans, Irwin M. Berent, 1988 Fundamentalism is a world shaking force It has given joy peace of mind and a sense of purpose to millions It has become a formidable political and social movement Yet fundamentalism has apparently disappointed many of its former followers who are now fearful and confused This book explains exactly what has gone wrong with fundamentalism and why It contains no mockery no disrespect and no malice It is a book written with love for those who genuinely want to understand , Bad Girls and Boys Go to Hell (or not) Gloria Neufeld Redekop, 2012-07-26 To question the idea of hell as a default destination is to question the entire fundamentalist evangelical worldview This book does just that Fundamentalist evangelicalism holds that the Bible is an infallible authority and that all are born in sin Sinners go to hell but Jesus taking their place died to save them from hell How did this belief come to be What were the effects on people brought up with a belief in the reality of hell What has been the process of people leaving the fundamentalist evangelical movement In Bad Girls and Boys Go To Hell or not Gloria Neufeld Redekop takes us on her own personal journey as she engages a movement in which she was raised conducting a careful study of the history of fundamentalist evangelicalism the attachment to a literal factual interpretation of the Bible and an analysis of the experience of those who have left the movement The Christian Delusion John W. Loftus, 2010-04-20 In this anthology of recent criticisms aimed at the reasonableness of Christian belief a former evangelical minister and apologist author of the critically acclaimed Why I Became an Atheist has assembled fifteen outstanding articles by leading skeptics expanding on themes introduced in his first book Central is a defense of his outsider test of faith arguing that believers should test their faith with the same skeptical standards they use to evaluate the other faiths they reject as if they were outsiders Experts in medicine psychology and anthropology join Loftus to show why when this test is applied to Christianity it becomes very difficult to rationally defend Collectively these articles reveal that popular Christian beliefs tend to rely on ignorance of the facts Drawing together experts in diverse fields including Hector Avalos Richard Carrier David Eller and Robert Price this book deals a powerful blow against Christian faith Dictionary of Mission Karl Muller, Theo Sundermeier, Stephen B. Bevans, Richard H. Bliese, 2006-01-30 Conceived and developed by two of Europe's most eminent missiologists in the country where the scientific and sustained study of mission first took shape the Dictionary of Mission represents the finest of the chorus of voices that comprise contemporary missiology The choice of topics and the authors to address them reflects what Christian mission has become a genuinely worldwide and ecumenical phenomenon That there would be entries on regional theological developments is indicative of how the world church is developing A host of other topics here explored show too how the landscape of mission is changing Taken as a whole then the Dictionary of Mission is a road map through this exciting and challenging terrain from the Foreword **ThirdWay** , 1990-02 Monthly current affairs magazine from a Christian perspective with a focus on politics society economics and culture Final Acts Gerry Cox, Robert Stevenson, 2016-12-05 The

Walker,2015-02-28 Barbara G Walker bestselling author of The Woman s Encyclopedia of Myths and Secrets and past winner of the American Humanist Association s Humanist Heroine Award takes a hard look at religion in her latest book Belief Unbelief Walker s 22 new essays cover the spectrum from The Islamic Holocaust being perpetrated against women to the dizziness of crystal gazers in Encountering the New Age Walker explains in depth how religion has been perverted from its naturalistic roots in the celebration of the mystery of new life to a patriarchal orgy of violence In Does Religion Make People Good Walker responds with an emphatic No citing extensive evidence of Bible Morality to produce today s Christian God the Monster Women have borne the brunt of patriarchal religion s evils Walker even argues cogently for Religion As the Root of Sexism Yet in her conclusion Family and the Future the ever upbeat Walker imagines a return to the original best traditions of religion as a metaphor for the wonder of the universe **Different Visions of Love** Brian Griffith,2008

Griffiths narrative moves like a searchlight over each phase of church history illuminating the visions options and choices behind events He traces the rise of a dominator version of Christianity in which the primary concern was a chain of command to be followed with rewards or punishments according to the degree of obedience And beside this he illuminates another face of Christianity concerned with healing all divisions between loved and unloved people The story Griffith presents is often deeply disturbing as in his unstinting accounts concerning the gospel for women or the age of holy wars and witch hunts But ultimately his story offers solid grounds for optimism He shows that all contention between different religious visions can be a process of building partnership As Griffith points out Jesus himself wished to debate his opponents openly not to silence or eliminate them He was not afraid of real encounter or the potential of creative conflict I want to congratulate Brian Griffith on this masterful controversial and highly readable account His book offers hope in a divided world where reaction against globalized godless corporate secularism meets with a war on religious fundamentalism I hope to see other writers do comparable work in highlighting the partnership and dominator visions within their religious traditions around the world Riane Eisler author of *The Chalice the Blade Sacred Pleasure* *Tomorrows Children* *The Power of Partnership* *The Real Wealth of Nations* I find it gives me an incredibly clarifying perspective on Christianity way beyond my previous understanding It should be read by everyone with an interest in Western Civilization It is a marvelous companion to *The Great Turning* David Korten author of *The Great Turning From Empire to Earth Community*

Practicing Prayer for the Dead James B. Gould, 2016-11-04 Throughout history Christians have prayed for the dead This book challenges Protestants who seldom pray for the dead to begin doing so and Roman Catholics and Eastern Orthodox who pray only for the Christian dead to include the unsaved as well Gould discusses the meaning of prayer for final consummation of all things growth of the blessed in heaven purification of the imperfect in purgatory and salvation of the unsaved in hell identifying the necessary conception of the afterlife required by each particular prayer He also reflects on the spiritual value of prayer for the departed how it enhances faith builds hope and sharpens discipleship and provides some sample prayers for public liturgy and private devotion In essence *Practicing Prayer for the Dead* offers an outline of theology from the perspective of death arguing that prayer for all the departed is one aspect of a tightly knit web of doctrines The argument while revisionary in some respects is orthodox ecumenical and integrative engaging a range of academic disciplines so as to be biblically accurate historically informed and philosophically reasoned

At Home with God: Here and Now Lee Adams Young, 2000-05-25 From biblical times through the Middle Ages and the Reformation the Christian religion enjoyed a sturdy belief in God consistent with human knowledge of the universe But modern science then introduced a new picture of this world at odds not only with the old world picture but with the miracle working God of ancient Scripture Of the many different responses to this conflict three stand out i To deny the religious view of God and the world or ii To deny many solid findings of generations of scientists concerning the evolution of stars the Earth and life or iii To deny little yet to affirm little in religion to repeat ancient rituals without serious conviction Lee Adams Young a physicist and Bible scholar claims to replace this chaos with an orderly view of God and the world in only 437 pages He makes three main points 1 The Bible consistently but falsely

split the world into two separate realms Heaven and Earth God rarely or never left his celestial throne room to visit the Earth The steeples of traditional churches pointed toward this Sky God and the Lord's Prayer still speaks of a Father in Heaven The result has been a disconnect between God and the believer a chasm bridged only by armies of angels and other intermediaries or via long distance calls The solution according to *At Home with God Here and Now* is to proclaim as does science that there is only one realm of reality God should be seen as dwelling in this world says Young indeed within each of us available for direct communication and personal support Prayer should take the form of face to face communication with a person no farther away than the other end of a park bench 2 The Bible consistently and correctly insists upon the inseparability of the human body and soul So does Aristotle and the latest Catholic Catechism Alas in postbiblical times many Jews and Christians have come to believe that at death the human soul could detach itself from the body and ascend to Heaven Young responds as follows a If there is no Heaven the latter step has no meaning We are face to face with God now in this life Because we already live in a sacred world one need not die in order to reach the divine b The notion of a soul that can function independently of bodily support goes against ancient and modern awareness of the influence of bodily conditions on thinking and memory c Near death experiences NDEs are reports from the living not from those who died Medical research shows that NDEs are triggered not by the objective peril of death but by the subjective fear of death d Human faith in an afterlife can blunt the human need to put interpersonal relationships in order in this life We must mend our personal fences now there is no second chance as the Hebrew Bible says 3 The God depicted in Young's book is entirely consistent with modern science That God is seen as the essential governor of nature whose regularities people depend on and science describes This book is recommended to all who seek a religious faith based on reality not make-believe a faith grounded in ancient wisdom yet believable in this modern age

Drug Legalization Rod L. Evans, Irwin M. Berent, 1992 Should drugs be legalized A few years ago this question was not taken seriously by mainstream opinion but more recently an increasing number of leading figures have spoken out for legalization and polls show that a growing percentage of the public favors legalization This book gives a fair and balanced presentation of both sides in the debate over drug legalization as well as some of the intermediate positions It contains the most important articles to have appeared from the beginning of the legalization controversy and clearly sets out all the key arguments on both sides Back cover
