Aaron T. Wolf,2017-09-14 Over more than twenty years as a mediator Aaron T Wolf has learned that successful conflict resolution is shaped by complicated dynamics from how comfortable the meeting room is to the participants deepest senses of self Bridging seemingly intractable issues means addressing multiple layers of needs Wolf s approach may be surprising to Westerners who are accustomed to separating rationality from spirituality and science from religion *The Spirit of Dialogue* draws lessons from a diversity of faith traditions to transform conflict from identifying the root cause of anger to aligning with an energy beyond oneself what Christians call grace to the true listening practiced by Buddhist monks Whether atheist or fundamentalist Muslim or Jewish Quaker or Hindu any reader involved in difficult dialogue will find concrete steps towards a meeting of souls *Six Stages on the Spiritual Path* Ruth Whitney,2021-05-21 In *Six Stages on the Spiritual Path* we learn about spirituality and its stages as well as how spirituality helps to reduce our suffering and create more love Writings from ancient to contemporary mystics across the world provide us with practical and spiritual wisdom that will make our lives happier and more loving In the first stage on the mystic way children experience awe and wonder but they do not realize that this is a spiritual experience While all indigenous people recognize awe as a mystical experience only some adults and most artists do When parents and religious leaders teach children about God they cause their spiritual growth to flourish or to become stunted at an elementary school level Awakening is an experience of the Divine that helps us realize that the Sacred Spirit is within us and loves us Awakening produces love for our neighbors and ourselves Then love nurtures more awakenings Illumination and union are deeper mystical experiences that the Holy One is not only within all of us and all of creation but also that we are within the ONE Illumination creates more love for all people and all the universe

Harold Ellens, 2014-10-28 Can drugs be used intelligently and responsibly to expand human consciousness and heighten spirituality This two volume work presents objective scientific information and personal stories aiming to answer the question The first of its kind this intriguing two volume set objectively reports on and assesses this modern psycho social movement in world culture the constructive medical use of entheogens and related mind altering substances Covering the use of substances such as ayahuasca cannabis LSD peyote and psilocybin the work seeks to illuminate the topic in a scholarly and scientific fashion so as to lift the typical division between those who are supporters of research and exploration of entheogens and those who are strongly opposed to

any such experimentation altogether The volumes address the history and use of mind altering drugs in medical research and religious practice in the endeavor to expand and heighten spirituality and the sense of the divine providing unbiased coverage of the relevant arguments and controversies regarding the subject matter Chapters include examinations of how psychoactive agents are used to achieve altered states in Judaism Christianity Islam and Buddhism as well as in the rituals of shamanism and other less widely known faiths This highly readable work will appeal to everyone from high school students to seasoned professors in both the secular world and in devoted church groups and religious colleges Sacred World Jeremy Hayward, Karen Hayward, 1998-12-01 This is the first book to offer step by step instruction in Shambhala warriorship Combining Buddhist mindfulness practice and pre Buddhist shamanic teachings Shambhala warriorship training teaches ways to call on powerful natural energies for personal and collective transformation It shows us how to use everyday situations to unite mind body and emotions in a harmonious whole *Heart to Heart—The Journey Outward* Robert P. Vande Kappelle, 2023-01-20 Whether religiously theists atheists agnostics or simply seekers each of us is on a journey of faith spiraling through stages seasons or phases of spirituality On this journey we discover that spirituality is more caught than taught and that faith enriched more by subtraction than by addition is more about unlearning than learning At the center of Jesus life and message stands the exhortation to receive and share divine love The two volumes of Heart to Heart excerpted from Dr Vande Kappelle's published writings examine the meaning and implications of the biblical Great Commandment to love God and others as oneself Whereas the first volume examines the spiritual journey inward this companion volume examines the journey outward Ultimately there is only one spiritual journey the journey Godward and there is only one commandment Divine love is the key to everything Unloved people misbehave fail to love or fail to change Loved people aren't concerned with rules regulations or beliefs Rather because they are loved they take proper care of themselves and in so doing care for nature and others as extensions of themselves Heart to Heart is written for those who affirm the value of lifelong spiritual growth realize the limits of logic and embrace the paradoxes in life If you are willing to commit less than ten minutes a day over a seven month period you will undertake a spiritual journey of epic proportions guaranteed to transform you morally and spiritually In addition you will come to embrace Christianity as the transformative movement envisioned by Jesus for humanity a way of life grounded in compassion justice service humility and love of others **Every Branch In Me: Essays On The Meanin** Barry McDonald, 2010-08-01 Every Branch in Me Essays on the Meaning of Man is a collection of articles by leading perennialist authors that are unified by a single theme nothing that is properly human can be separated from the intrinsically spiritual nature of man Models of God and Alternative Ultimate Realities Jeanine Diller, Asa Kasher, 2013-06-13 The envisioned volume is a collection of recent essays about the philosophical exploration critique and comparison of a the major philosophical models of God gods and other ultimate realities implicit in the world's philosophical schools and religions and of b the ideas of such models and doing such modeling per se The aim is to identify exactly what a

Psychedelic Mysticism Morgan Shipley,2015-11-12 Concerned with scholarly popular and religious backdrops that understand the connection between psychedelics and mystical experiences to be devoid of moral concerns and ethical dimensions a position supported empirically by the rise of acid fascism and psychedelic cults by the late 1960s *Psychedelic Mysticism Transforming Consciousness Religious Experiences and Voluntary Peasants in Postwar America* traces the development of sixties psychedelic mysticism from the deconditioned

mind and perennial philosophy of Aldous Huxley to the sacramental ethics of Timothy Leary Richard Alpert and Ralph Metzner to the altruistic religiosity practiced by Stephen Gaskin and The Farm Building directly off the pioneering psychedelic writing of Huxley these psychedelic mystics understood the height of psychedelic consciousness as an existential awareness of unitive oneness a position that offered worldly alternatives to the maladies associated with the postwar moment e g vapid consumerism and materialism lifeless conformity unremitting racism heightened militarism In opening a doorway to a common world Morgan Shipley locates how psychedelics challenged the coherency of Western modernity by fundamentally reorienting postwar society away from neoliberal ideologies and toward a sacred understanding of reality defined by mutual coexistence and responsible interdependence In 1960s America psychedelics catalyzed a religious awakening defined by compassion expressed through altruism and actualized in projects that sought to ameliorate the conditions of the least advantaged among us In the exact moments that historians and cultural critics often locate as signaling the death knell of the counterculture Gaskin and The Farm emerged not as a response to the perceived failures of the hippies nor as an alternative to sixties politicians but in an effort to fulfill the religious obligation to help teach the world how to live more harmoniously Today as we continue to confront issues of socioeconomic inequality entrenched differences widespread violence and the limits of religious pluralism Psychedelic Mysticism serves as a timely reminder of how religion in America can operate as a tool for destabilization and as a means to actively reimagine the very basis of how people relate such a legacy can aid in our own efforts to build a more peaceful sustainable and compassionate world

In Our Own Image Wesley J. Wildman, 2017-12-15 *In Our Own Image* is a work of comparative philosophical theology It is a study of the roles anthropomorphism and apophaticism play in the construction of conceptual models of ultimate reality Leading scholar Wesley J Wildman considers whether we create our ideas of God He offers a comparative analysis of three major classes of ultimacy models paying particular attention to the way those classes are impacted by anthropomorphism while tracing their relative strengths and weaknesses Wildman provides a constructive theological argument on behalf of an apophatic understanding of ultimate reality showing how this understanding subsumes challenges and relates ultimacy models from the three classes being compared He describes and compares competing ultimacy models fairly and sympathetically The conclusion is that all models cognitively break on the shoals of ultimate reality but that the ground of being class of models carries us further than the others in regard to the comparative criteria that matter most
