Forgotten Kingdoms in Sumatra F. M. Schnitger, 1939 *Lost Kingdoms: Hindu-Buddhist Sculpture of Early Southeast Asia* Guy, John, 2014-04-07 A fresh and exciting exploration of Southeast Asian history from the 5th to 9th century seen through the lens of the region's sculpture **Violence and Serenity** Natasha Reichle, 2007-07-26 The mention of Buddhism in Indonesia calls to mind for many people the Central Javanese monument of Borobudur one of the largest Buddhist monuments in the world and the subject of extensive scholarly scrutiny The neglect of scholarship on Buddhist art from later periods might lead one to assume that after the tenth century Buddhism had been completely eclipsed by the predominantly Hindu Eastern Javanese dynasties Yet as the works discussed here illustrate extraordinary Buddhist images were still being produced as late as the fourteenth century **Violence and Serenity** offers a close examination of some of the impressive works from East Java and Sumatra and explores their political and religious roles The number of clearly identifiable Buddhist works from the Singasari and Majapahit dynasties 1222 ca 1520 is limited yet existing examples are impressive They demonstrate a remarkable level of craftsmanship and are exceptionally expressive exhibiting a range of emotions from the ferocious to the serene Following a brief discussion of the early history of Buddhism in Indonesia Natasha Reichle focuses each chapter on a specific statue or group of statues and considers the larger issues evoked by the images Through a rarely examined depiction of the last Singasari king she explores the nature of religion in Java in the late thirteenth century and what we know about tantric practices and the syncretism of Hinduism and Buddhism She reassesses the question of portraiture in ancient Javanese art while contemplating the famous Prajaparamita from Singasari Notions of kingship are discussed in light of a number of statues depicting the Buddhist deity Amoghapasa and his attendants and the meanings of the Amoghapasamala The final chapter examines the origins and significance of one of Indonesia's most

Suzuki, 2013-03-09 The purpose of this bibliography is to serve as a medium for informing those interested about the contents of books and articles which have thus far appeared dealing with the above mentioned three cultures Anthropology here is used in its widest sense Physical anthropology ethnology cultural anthropology archaeology and ethno history 1 In view of the fact that Kennedy s bibliography has recently been brought up to date 2 a few words of explanation to justify this bibliography are necessary This work attempts at completeness that is to say the items especially found in missionary journals which have been overlooked by those who did the splendid job of revising Kennedy s bibliography have been included here Only those items which the present compiler was not able to get hold of have been left unannotated In other words nearly every item listed here has been read or skimmed through Moreover those pieces which have hardly any value or relevance to these cultures but which none the less are found listed in Kennedy e g Buys under Nias have been precluded from consideration here Likewise those few articles dealing with modern developments which were uncovered have been listed here as well contrary to the policy taken by the compilers of Kennedy s revised edition Needless to say the debt one owes to these compilers for such a work as this indeed for almost any research which one undertakes dealing with Indonesia is untold **Maritime Trade and State Development in Early Southeast Asia** Kenneth R. Hall, 2019-03-31 This book brings something new in both dimension and detail to our understanding of Southeast Asia from the first to the fourteenth centuries It puts Southeast Asia in the context of the international trade that stretched from Rome to China and draws upon a wide range of recent scholarship in history and the social sciences to redefine the role that this trade played in the evolution of the classical states of Southeast Asia By examining the sources of Southeast Asia s classical

era with the tools of modern economic history the author shows that well developed socioeconomic and political networks existed in Southeast Asia before significant foreign economic penetration took place With the growth of interest in Southeast Asian commodities and the refocusing of the major East West commercial routes through the region during the early centuries of the Christian era internal conditions within Southeast Asia adjusted to accommodate increased external contacts Hall takes the view that Southeast Asia s response to international trade was a reflection of preexisting patterns of trade and statecraft In the forty years since Coede s monumental work *The Indianized States of Southeast Asia* was published a great deal of archaeological and epigraphical work has been done and new interpretations advanced By integrating new theoretical constructs recent archaeological finds and interpretations and his own informed reading and research Kenneth R Hall puts his historical narrative on a large canvas and treats areas not previously brought together for discussion along comparative lines Like Coedes work his book will be important as a basic text for the teaching of early Southeast Asian history
