Forgotten Planet:

The Forgotten Planet Murray Leinster, 2015-11-10 This is something of an oddity among fiction stories because some of its characters may be met in person if you wish Down at the nearest weed patch or thicket you are quite likely to see a large and unusually perfect spider web with a zig zag silk ribbon woven into its center Its engineer is the yellow banded garden spider *Epeira Fasciata* whose abdomen may be as big as your thumb I do not name it to impress you but to suggest a sort of science fiction experience Take a bit of straw and disturb the web Don t break the cables Simply tap them a bit The spider will know by the feel of things that you aren t prey and that it can t eat you So it will set out frightening you away It will run nimbly to the center of the web and shake itself violently The whole web will vibrate so that presently the spider may be swinging through an arc inches in length and blurred by the speed of its swing You are supposed to be scared When you are alarmed enough the spider will stop That spider very much magnified is in this book with crickets and grasshoppers and divers beetles you may not know personally But this is not an insect book but science fiction If the habits of the creatures in it are authentic it is because they are much more dramatic and interesting than things one can invent *The Forgotten Planet* Sewell Peaslee Wright, 2010-10-01 I have been asked to record plainly and without prejudice a brief history of the Forgotten Planet That this record when completed will be sealed in the archives of the Interplanetary Alliance and remain there a secret and rather dreadful bit of history is no concern of mine I am an old man well past the century mark and what disposal is made of my work is of little importance to me I grow weary of life and living which is good The fear of death was lost when our scientists showed us how to live until we grew weary of life But I am digressing an old man s failing *The Forgotten Planet* was not always so named The name that it once bore had been as every child knows stricken from the records actual and mental of the Universe It is well that evil should not be remembered But in order that this history may be clear in the centuries to come my record should go back to beginnings So far as the Universe is concerned the history of the Forgotten Planet begins with the visit of the first craft ever to span the space between the worlds the crude adventuresome *Edorn* whose name as well as the names of the nine Zenians who manned her occupy the highest places in the roll of honor of the Universe **THE FORGOTTEN PLANET (Unabridged)** Murray Leinster, 2018-11-02 This eBook edition of *The Forgotten Planet* has been formatted to the highest digital standards and adjusted for readability on all devices A planet had been seeded for life by humans first with microbes and later with plants and insects A third expedition intended to complete the seeding with animals never occurred Over the millennia the insects and plants grew to gigantic sizes The action of the novel describes the fight for survival by descendants of a crashed spaceship as they battle wolf sized ants flies the size of chickens and gigantic flying wasps Interestingly this novel is a combination of three different science fiction tales *The Mad Planet* *The Red Dust* and *Nightmare Planet* which were heavily revised by Murray Leinster to form a coherent story This edition thus brings to you both the versions of this famous sci fi story in one convenient edition for your ultimate pleasure Contents Novel

Version The Forgotten Planet Magazine Version The Mad Planet The Red Dust Nightmare Planet *Forbidden Planet* John E. Muller, Lionel Fanthorpe, Patricia Fanthorpe, 2013-12-19 Charles Fort the great American Rebel Philosopher believed that every man had the right to doubt He aimed his merciless shaft at scientists and religious leaders alike No dearly cherished doctrine was safe from Fortean criticism simply because it was old and accepted Fort wanted proof He wanted more proof than any scientist could give He demanded to see with his own eyes to hear with his own ears Just because a telescope indicated that a certain astronomical fact was very probable was no proof to Fort that it was Fact He would not have accepted that the earth was 93 000 000 miles from the sun until he had run a measuring chain across the intervening space There will be men like Charles Fort in every age on every civilised planet They will want proof They will want to see and hear alien races for themselves They will fly their valiant exploring ships to every corner of the universe They will live They will die They will fail They will succeed This is the story of one of their journeys **Earth: the Forbidden Planet B.**

Fox, 2003-06-03 Traveling swiftly from the dateless past to the immediate future the book takes one from the history of fallen angels and their role as ancient gods of past civilizations causing the first flood of Lucifer and the second flood of Noah Known as the Nephilim by many and gods and giants by others the influence of these creatures on man's destiny past present and future is revealed While searching for a crashed UFO college students looking for summer vacation adventure soon become embroiled in a plot that threatens to destroy not only them but also all mankind The Forgotten Planet

Murray Leinster, 2023-12-15 A planet had been seeded for life by humans first with microbes and later with plants and insects A third expedition intended to complete the seeding with animals never occurred Over the millennia the insects and plants grew to gigantic sizes The action of the novel describes the fight for survival by descendants of a crashed spaceship as they battle wolf sized ants flies the size of chickens and gigantic flying wasps Interestingly this novel is a combination of three different science fiction tales The Mad Planet The Red Dust and Nightmare Planet which were heavily revised by Murray Leinster to form a coherent story This edition thus brings to you both the versions of this famous sci fi story in one convenient edition for your ultimate pleasure Contents Novel Version The Forgotten Planet Magazine Version The Mad Planet The Red Dust Nightmare Planet **Special Service Patrol** Sewell Peaslee Wright, 2011-06-01 This book includes all of the John Hanson Series The Forgotten Planet The Terrible Tentacles of L 472 The Dark Side of Antri The Ghost World The Man from 2071 The God in the Box The Terror from the Depths Vampires of Space Priestess of the Flame The Death Traps of FX 31 Excerpt I have been asked to record plainly and without prejudice a brief history of the Forgotten Planet That this record when completed will be sealed in the archives of the Interplanetary Alliance and remain there a secret and rather dreadful bit of history is no concern of mine I am an old man well past the century mark and what disposal is made of my work is of little importance to me I grow weary of life and living which is good The fear of death was lost when our scientists showed us how to live until we grew weary of life But I am digressing an old man's failing The Forgotten Planet was not

always so named The name that it once bore had been as every child knows stricken from the records actual and mental of the Universe It is well that evil should not be remembered But in order that this history may be clear in the centuries to come my record should go back to beginnings So far as the Universe is concerned the history of the Forgotten Planet begins with the visit of the first craft ever to span the space between the worlds the crude adventuresome Edorn whose name as well as the names of the nine Zenians who manned her occupy the highest places in the roll of honor of the Universe Ame Baove the commander and historian of the Edorn made but brief comment on his stop at the Forgotten Planet I shall record it in full We came to rest upon the surface of this the fourth of the planets visited during the first trip of the Edorn eighteen spaces before the height of the sun We found ourselves surrounded immediately by vast numbers of creatures very different from ourselves and from their expressions and gestures we gathered that they were both curious and unfriendly Careful analysis of the atmosphere proved it to be sufficiently similar to our own to make it possible for us to again stretch our legs outside the rather cramped quarters of the Edorn and tread the soil of still another world No sooner had we emerged however than we were angrily beset by the people of this unfriendly planet and rather than do them injury we retired immediately and concluded our brief observations through our ports The topography of this planet is similar to our own save that there are no mountains and the flora is highly colored almost without exception and apparently quite largely parasitical in nature The people are rather short in stature with hairless heads and high foreheads Instead of being round or oval however the heads of these people rise to a rounded ridge which runs back from a point between and just above the eyes nearly to the nape of the neck behind They give evidence of a fair order of intelligence but are suspicious and unfriendly From the number and size of the cities we saw this planet is evidently thickly populated We left about sixteen spaces before the height of the sun and continued towards the fifth and last planet before our return to Zenia

The Ritchie & Fitz Sci-Fi Murder Mysteries Books 4-6 Kate MacLeod, 2025-01-26 This bundle contains the final three books in the Ritchie Fitz Sci Fi Murder Mysteries Death on the Summit The cadets of the Oymyakon Foreign Service Academy know more than most about challenging environments They experience one every day just while crossing their campus Their planet barely ranks as habitable on the best of days But now the third and fourth year cadets face even harsher conditions climbing to heights nearly at the edge of space and totally within the heart of Oymyakon s ever present storms Murdina Ritchie relishes the opportunity to test her mettle in ways she never could back home in the stable comfortable environment of a space station Shackleton Fitz IV delights in freedom from campus life and distance from the growing rumors of political turmoil in the Union of Free Worlds if only for a few days Then a fellow cadet falls to her death No one in the camp thinks this an accident But with no way down off the mountain until the storm passes they all live with the knowledge that a murderer lurks among them possibly planning to kill again Ritchie and Fitz face death all the time But if a human killer fails to end them the planet itself just might finish the job Staying alive calls on them to apply everything they ve learned at the academy But will it be enough An Undiplomatic Murder Cadets Ritchie and Fitz finally face their last year at the Oymyakon Foreign Service Academy Which means decision time for what comes next The golden wings and ivory robes of a diplomat Or the crossed spears and navy blue uniform of a guardian Before they decide they and the other last year cadets first spend a week on the university planet visiting both of the colleges A single day at the guardian school exhausts even the most highly trained of the cadets But the first night visiting the diplomat school ends in a very undiplomatic murder One of the guests at a mock state dinner dies in the middle of the dessert course a victim of a very gruesome poison And the only suspect Cadet Shackleton Fitz IV So Murdina Ritchie finds herself alone on a strange planet

with its own set of rules desperate to prove her partner's innocence Hard enough under any circumstances made harder still by the presence of two former Oymyakon cadets Finn and Feena Berweger Can Ritchie defeat her old nemeses one more time Maybe Can she do it with her best friend and close partner in crime solving trapped in police custody She has to A Lethal Betrayal Murdina Ritchie left her childhood home of Buennagel when a volatile very alien species abducted her father during a failed diplomatic meeting Six years later she finds herself flying back Her best friend Shackleton Fitz IV needs her help His father's increasingly bizarre behavior demands an explanation And Ritchie and Fitz specialize in finding explanations But when another guest at the house dies when brutally attacked their first night home Ritchie and Fitz find themselves caught up in two cases Someone in the house is the killer and anyone in the house could be next [The Ritchie & Fitz Sci-Fi Murder Mysteries Books 1-3](#) Kate MacLeod, 2024-04-09 This bundle contains the first three books in the Ritchie Fitz Sci Fi Murder Mysteries Murder on the Intergalactic Railway For Murdina Ritchie acceptance at the Oymyakon Foreign Service Academy means one last chance at her dream of becoming a diplomat for the Union of Free Worlds For Shackleton Fitz IV it represents his last chance not to fail out of military service entirely Strange that fate should throw them together now among the last group of students admitted after the start of the semester They had once shared the strongest of friendships But that all ended a long time ago But when an insufferable but politically important woman turns up murdered the two agree to put their differences aside and work together to solve the case Because the murderer might strike again But more importantly solving a murder would just have to impress the dour colonel who clearly thinks neither of them belong at his academy Murder in the Skies Murdina Ritchie put everything on the line to earn one chance to prove herself at the Oymyakon Foreign Service Academy Just one chance Despite the bad reputation that comes with her family name despite the bullies desperate to see her fail she refuses to back down from any opportunity to show her worth Everyone at the academy knows her skill knows her inability to compromise in the pursuit of excellence and knows her drive for success at all costs that borders on desperation But all of that common knowledge works against her when a bullying upper class cadet dies in a freak training accident that looks a lot like murder Because now everyone knows that Murdina Ritchie tops any possible list of suspects Suddenly she finds a goal beyond proving her worth proving her own innocence The Body in the Catacombs Murdina Ritchie and Shackleton Fitz IV start their junior year at the Oymyakon Foreign Service Academy finally feeling like they belong in that world They stand as equals among the other cadets And the crushing load of schoolwork Surprisingly manageable when you're not trying to solve a murder at the same time But the rumors of big changes in the political universe reach even the depths of the Academy Distrust and secretiveness invade the minds of all of the cadets Something dark and tumultuous hangs over all of them and not just the ever present storms of Oymyakon Then someone finds a body in the lower levels and the accusations fly A murder but committed decades before Long before the time of any of the cadets But not before the time of the instructors In fact exactly at the time Colonel Hansen was Cadet Hansen Can Ritchie and Fitz

solve the coldest of cases and prove the colonel innocent Or worse guilty
