Ann Jervis,1991-03-01 This book analyses the structure and content of the four

epistolary sections of a Pauline letter most directly related to the question of purpose the opening formula the thanksgiving the apostolic Parousia and the conclusion Jervis proposes that while the concerns of the letter involve Paul's missionary plans and his desire to establish himself as the Roman Christians leader in the faith the primary function of Romans is for Paul to make available to Christians at Rome the good news in all of its power Romans is written to fulfil Paul's mandate to establish and nurture his Roman readers in a life of faith marked by obedience and holiness to preach the gospel to them Paul in the Greco-Roman World: A Handbook J. Paul Sampley, 2016-10-06 This landmark handbook written by distinguished Pauline scholars and first published in 2003 remains the first and only work to offer lucid and insightful examinations of Paul and his world in such depth Together the two volumes that constitute the handbook in its much revised form provide a comprehensive reference resource for new testament scholars looking to understand the classical world in which Paul lived and work Each chapter provides an overview of a particular social convention literary or rhetorical topos social practice or cultural mores of the world in which Paul and his audiences were at home In addition the sections use carefully chosen examples to demonstrate how particularly features of Greco Roman culture shed light on Paul's letters and on his readers possible perception of them For the new edition all the contributions have been fully revised to take into account the last ten years of methodological change and the helpful chapter bibliographies fully updated Wholly new chapters cover such issues as Paul and Memory Paul's Economics honor and shame in Paul's writings and the Greek novel *Theodoret's People* Adam M. Schor, 2011-05-17 Adam Schor explores the social and doctrinal role of Theodoret in a novel and lively way making use of social theory and seeing Theodoret's activities and contacts against the rich documentation provided by the great ecclesiastical controversies of his time Fergus Millar author of *A Greek Roman Empire Power and Belief under Theodosius II* 408-450 Schor's proposal that modern social network theory is the key to understanding Theodoret of Cyrus's social positioning and mode of controversy makes for compelling reading His nuanced yet powerful analysis shows the continued relevance of socio scientific methods for understanding the history of late antique Christianity Richard Lim author of *Public Disputation Power and Social Order in Late Antiquity* Adam Schor has written a lively and incisive study of a notoriously difficult era Mining the substantial but greatly understudied letter collections of the times applying the insights of network theory and boldly taking on the entire corpus of Theodoret's writings an ambitious project in itself Schor has produced strikingly fresh material throughout With rich insight and rigorous attention to detail Schor opens new vistas on the late antique landscape Thought provoking at every turn Susan Ashbrook Harvey author of *Scents of Salvation Ancient Christianity and the Olfactory Imagination* **2 Corinthians** Colin G. Kruse, 2020-03-15 The Exegetical Guide to the Greek New Testament EGGNT closes the gap between the Greek text and the available lexical and grammatical tools providing all the necessary information for greater understanding of the text The series makes interpreting any given New Testament book easier especially for those who are hard pressed for time but want to preach or teach with accuracy and authority Each

volume begins with a brief introduction to the particular New Testament book a basic outline and a list of recommended commentaries The body is devoted to paragraph by paragraph exegesis of the Greek text and includes homiletical helps and suggestions for further study A comprehensive exegetical outline of the New Testament book completes each EGGNT volume

Collecting Early Christian Letters Bronwen Neil, Pauline Allen, 2015-02-19 Letter collections in late antiquity give witness to the flourishing of letter writing with the development of the mostly formulaic exchanges between elites of the Graeco Roman world to a more wide ranging correspondence by bishops and monks as well as emperors and Gothic kings The contributors to this volume study individual collections from the first to sixth centuries CE ranging from the Pauline and Deutero Pauline letters through monastic letters from Egypt bishops letter collections and early papal collections compiled for various purposes This is the first multi authored study of New Testament and late antique letter collections crossing the traditional divide between these disciplines by focusing on Latin Greek Coptic and Syriac epistolary sources It draws together leading scholars in the field of late antique epistolography from Australasia Sweden the United Kingdom and the United States

The Gift of Correspondence in Classical Rome Amanda Wilcox, 2012-08-06 Amanda Wilcox offers an innovative approach to two major collections of Roman letters Cicero's *Ad Familiares* and Seneca's *Moral Epistles* informed by modern cross cultural theories of gift giving By viewing letters and the practice of correspondence as a species of gift exchange Wilcox provides a nuanced analysis of neglected and misunderstood aspects of Roman epistolary rhetoric and the social dynamics of friendship in Cicero's correspondence Turning to Seneca she shows that he both inherited and reacted against Cicero's euphemistic rhetoric and social practices and she analyzes how Seneca transformed the rhetoric of his own letters from an instrument of social negotiation into an idiom for ethical philosophy and self reflection Though Cicero and Seneca are often viewed as a study in contrasts Wilcox extensively compares their letters underscoring Cicero's significant influence on Seneca as a prose stylist philosopher and public figure

Ancient Letters Ruth Morello, A. D. Morrison, 2007-06-07 A series of case studies in ancient letters asking how each letter writer manipulates the epistolary tradition why he chose the letter form over any other and what effect the publication of volumes of collected letters might have had upon a reader's engagement with epistolary works

1 Corinthians Mark Reasoner, 2025-09-12 This commentary offers a deep dive into the first century city of Roman Corinth insight from patristic commentaries on 1 Corinthians and a focus on Paul's call for unity in the church Its thesis is that Paul counters the Corinthians prioritization of knowledge by calling them to focus on the message of the crucified and risen Christ while embodying the virtue of love to animate and unify the church From beginning to end this commentary evokes appreciation of Paul's letter of 1 Corinthians as an artifact of first century social history and prompts reflection on the letter's challenge to Christ followers for what it means to be the church

Philippians, Colossians, Philemon Elsa Tamez, Cynthia Briggs Kittredge, Claire Miller Colombo, Alicia J. Batten, 2017-02-10 *Philippians* lends itself to a political ideological reading To take into account that the document is a writing from prison and

to read it from a political religious and feminist perspective using new language helps to re create the letter as if it were a new document In this analysis Elsa Tamez endeavors to utilize non patriarchal inclusive language which helps us to see the contents of the letter with different eyes Cynthia Briggs Kittredge and Claire Miller Colombo argue that Colossians s contradictions and complications provide opportunities for entering imaginatively into the world of first century Christian women and men Rather than try to resolve the controversial portions including the household code they read the letter s tensions as evidence of lively conversation around key theological spiritual and social issues of the time Taking into account historical structural and rhetorical dimensions of Philemon Alicia J Batten argues against the runaway slave hypothesis that has so dominated the interpretation of this letter Paul asks that Onesimus be treated well but the commentary takes seriously the fact that we never hear what Onesimus s wishes may have been Slaves throughout history have had similar experiences as have many women Like Onesimus their lives and futures remain in the hands of others whether those others seek good or ill

Cicero, Paul and Seneca as Transformational Leaders in their Letter Writing Eve-Marie Becker,Henriette van der Blom,Ulrike Egelhaaf-Gaiser,Jacob P.B. Mortensen,2024-09-02 This commentary offers the reader a set of letters or letter parts written by Cicero Paul and Seneca which have been selected against the Transformational Leadership categories of idealised influence inspirational motivation intellectual stimulation and individualised consideration Chapter 1 offers introduction into authors and theory all three letter writers are considered as ancient leadership figures composing leadership letters The letters selected are presented in original text facing a translation Chapter 2 Chapter 3 provides analysis and discussion of each letter and aims to introduce the reader to the historical and literary contexts before reading the letter through the lenses of Transformational Leadership theory Chapter 4 sums up the findings on each letter and each letter writer in light of Transformational Leadership and its categories The volume is aimed at all those who are studying the function of ancient letter writing especially the letters of Cicero Paul or Seneca

Introducing Romans Richard N. Longenecker,2011-03-25 Introducing Romans a kind of introduction ahead of time to Richard Longenecker s forthcoming commentary on Romans is a major achievement in its own right the fruit of at least fifty years of scholarship on the apostle Paul and on Romans in particular It can stand alone as an indispensable handbook for anyone venturing to write a commentary of one s own or for anyone who wants to teach or understand that classic letter Above all Longenecker succeeds admirably in putting the many issues surrounding Romans in the broadest

possible historical context encompassing not just recent fashions but the legacy of centuries Seasoned scholars and beginning students alike have every reason to be grateful J Ramsey Michaels Missouri State University *1, 2, and 3 John* Karen H. Jobes, 2014-02-11 Concentrate on the biblical author's message as it unfolds Designed to assist the pastor and Bible teacher in conveying the significance of God's Word the Zondervan Exegetical Commentary on the New Testament series treats the literary context and structure of every passage of the New Testament book in the original Greek With a unique layout designed to help you comprehend the form and flow of each passage the ZECNT unpacks The key message The author's original translation An exegetical outline Verse by verse commentary Theology in application While primarily designed for those with a basic knowledge of biblical Greek all who strive to understand and teach the New Testament will benefit from the depth format and scholarship of these volumes 1 3 John In her commentary on John's letters Karen H Jobes writes to bridge the distance between academic biblical studies and pastors students and laypeople who are looking for an in depth treatment of the issues raised by these New Testament books She approaches the three letters of John as part of the corpus that includes John's gospel while rejecting an elaborate redactional history of that gospel that implicates the letters Jobes treats three major themes of the letters under the larger rubric of who has the authority to interpret the true significance of Jesus an issue that is pressing in our religiously pluralistic society today with its many voices claiming truth about God A Companion to the Ancient Greek Language Egbert J. Bakker, 2010-01-28 A comprehensive account of the language of Ancient Greek civilization in a single volume with contributions from leading international scholars covering the historical geographical sociolinguistic and literary perspectives of the language A collection of 36 original essays by a team of international scholars Treats the survival and transmission of Ancient Greek Includes discussions on phonology morphology syntax semantics and pragmatics
