Henry Noble DAY,1870 The Art of Discourse Henry Noble Day,1869 **The Form of Greek Romance** B. P. Reardon,2014-07-14 In the early Roman Empire a new literary genre began to flourish mainly in the Greek world prose fiction or romance Broadly defined as a love story that offers adventure and a romantic vision of life this form of literature emerged long after the other genres and until recently seemed hardly worthy of critical attention Here B P Reardon addresses the growing interest in ancient fiction by providing a literary and cultural framework in which to understand Greek romance and by demonstrating its importance as an artistic and social phenomenon Beginning with a discussion of Chariton s Chaereas and Callirhoe Reardon sets out the generic characteristics of the romance He then moves through a wide range of works including those of Longus and Heliodorus and reveals their sophistication in terms of social observation technique within a convention and the stance adopted by the authors toward their own creations Although antiquity left behind little discussion of the genre Reardon shows how romance can be assessed within its time period by considering the practice of narrative in other Greek literature and the concept of fiction in antiquity Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Form and Thought in Prose** Joseph Schwartz,1965
