The Nature of the Early Ottoman State Heath W. Lowry, 2012-02-01 Drawing on surviving documents from the fourteenth and fifteenth centuries *The Nature of the Early Ottoman State* provides a revisionist approach to the study of the formative years of the Ottoman Empire Challenging the predominant view that a desire to spread Islam accounted for Ottoman success during the fourteenth century advance into Southeastern Europe Lowry argues that the primary motivation was a desire for booty and slaves The early Ottomans were a plundering confederacy open to anyone Muslim or Christian who could meaningfully contribute to this goal It was this lack of a strict religious orthodoxy and a willingness to preserve local customs and practices that allowed the Ottomans to gain and maintain support Later accounts were written to buttress what had become the self image of the dynasty following its incorporation of the heartland of the Islamic world in the sixteenth century

Middle Eastern Politics and Historical Memory Jacob Lassner, 2020-07-09 How is the complex history of the ancient Near East and Islamic World brought to bear in contemporary political discourse In this book Medieval Near Eastern historian Jacob Lassner explores the resonance of ancient and medieval history in the political disputes that dominate the contemporary Middle East From identification with ancient forbears as a method of legitimization and nation building to tracing the deep history of the concept of revolution in the Arab world the author probes the historical foundations of modern conflicts in the region A medievalist the author takes the position that an appreciation of cultural history is essential to understanding the debate surrounding the Israel Palestine conflict In turn the book identifies the misappropriation and misunderstanding of the past deliberate or accidental as key weapon in the ongoing conflict

Two Thousand Years of Missions Before Carey Lemuel Call Barnes, 1906

The Strides of Vishnu Ariel Glucklich, 2008-05-09 Books about Hinduism often begin by noting the immense size and complexity of the subject Hinduism is vast and diverse they say Or it doesn't exist at all Hinduism is merely a convenient and foreign term that masks a plurality of traditions In either case readers are discouraged by the sense that they are getting only a tiny sample or a shallow overview of something huge and impossible to understand This book is designed to be accessible and comprehensive in a way that other introductions are not maintaining an appealing narrative and holding the reader's interest in the unfolding sequence of ideas through time and place Each of the 13 chapters combines historical material with key religious and philosophical ideas supported by substantial quotations from scriptures and other texts The overarching organizational principle is a historical narrative largely grounded in archaeological information Historic places and persons are fleshed out as actors in a narrative about the relation of the sacred to ordinary existence as it is mediated through arts sciences rituals and philosophical ideas Although many books purport to introduce the Hindu tradition this is the only one with a broad historical focus that emphasizes archaeological as well as textual evidence It will nicely complement Vasuda Narayanan's forthcoming introduction which takes the opposite approach of focusing on the lived experience of Hindu believers

Christian Missions and Social Progress: Lecture 6, continued : the contribution of Christian missions to social progress James Shepard Dennis, 1906 The Students Lectures on Missions at Princeton Theological

Seminary which form the basis of the book now issued were delivered by the author in the spring of 1896 Preface

Impeccability and Temptation Johannes Grössl, Klaus von Stosch, 2021-04-12 In Christian theology the teaching that Christ possessed both a human and divine will is central to the doctrine of two natures but it also represents a logical paradox raising questions about how a person can be both impeccable and subject to temptation This volume explores these questions through an analytic theology approach bringing together 15 original papers that explore the implications of a strong libertarian concept of free will for Christology With perspectives from systematic theologians philosophers and biblical scholars several chapters also offer a comparative theology approach examining the concept of impeccability in the Muslim tradition Therefore this volume will be of interest to scholars and graduate students working in analytic theology biblical scholarship systematic theology and Christian Islamic dialogue Introduction to the History of Christianity George Herring, 2006-09 A beautifully crafted and clearly written introduction to Christianity over its 2000 year history *The Halakhah: Historical and Religious Perspectives* Jacob Neusner, 2002-04-01 The normative law or Halakhah of the Oral Torah defines the principal medium by which the sages set forth their message Norms of conduct more than norms of conviction convey the sages statement by embodying its system for the social order of holy Israel The essays gathered here complementing the author's *Theology of the Halakhah* Brill 2001 systematically investigate the religious meaning of the normative law of Judaism with special reference to the concept of time and history that is embodied by the law in the now classic essays *History Time and Paradigm in Scripture and in Judaism Halakhah Past Time Why No History in Rabbinic Judaism and the comparison of history and purity in Rabbinic Judaism and in the religious system of the Dead Sea library at Qumran History and Purity in First Century Judaism Two essays of anthropological interest The Halakhah and Anthropology and The Halakhah and the Inner Life of the Israelite move from history to the Halakhah as a cultural indicator The final essays take up two theological questions how the theology expressed in the Halakhic system works together with the theology conveyed by the Aggadic statements of Rabbinic Judaism in late antiquity and the case for the Rabbis reading of ancient Israelite Scripture Why the Rabbis are right An essay ritual without myth argues that the Halakhah on its own without verbal explanation embodies its own mythic structure in the context of the law of Numbers 19 Mishnah tractate Parah *The Origins of History* Herbert Butterfield, 2016-03-31 A distillation of the thought and research to which Herbert Butterfield devoted the last twenty years of his life to this book originally published in 1981 traces how differently people understood the relevance of their past and its connection with their religion It examines ancient Egypt and Mesopotamia the political perceptiveness of the Hittites the Jewish sense of God in history of promise and fulfilment the classical achievement of scientific history and the unique Chinese tradition of historical writing The author explains the problems of the early Christians in relating their traditions of Jesus to their life and faith and the emergence when Christianity became the religion of the Roman Empire of a new historical understanding The book then charts the gradual growth of a sceptical approach to*

recorded authority in Islam and Western Europe the reconstruction of the past by deductive analysis of the surviving evidence and the secularisation of the eighteenth century *British Historical Facts, 1760-1830* C. Cook, J.

Stevenson, 2016-09-27 **The National Magazine; A Monthly Journal of American History**, 1887 Writing Ottoman History Colin Heywood, 2024-12-11 The study of Ottoman history has resulted in the construction of a number of Ottoman pasts some of which have been proved recoverable and essentially durable while others have been seen to owe too much to extraneous preconceptions In the articles collected here Dr Heywood has questioned some of the perceived certainties in the field of Ottoman history and historiography focusing in particular on the work of Paul Wittek and the idea of the frontier Other studies are based on the abundant surviving documentation and look at specific topics in 17th century Ottoman history and in Anglo Ottoman relations for example Sir Paul Rycaut's view of the Ottoman empire or the organisation of the Ottoman postal service and roads and the cannon foundry in Istanbul
