**Forms of Nationhood** Richard Helgerson, 1992-06-15 What have poems and maps law books and plays ecclesiastical polemics and narratives of overseas exploration to do with one another By most accounts very little They belong to different genres and have been appropriated by scholars in different disciplines But as Richard Helgerson shows in this ambitious and wide ranging study all were part of an extraordinary sixteenth and seventeenth century enterprise the project of making England

**Forms of Nationhood** Richard Helgerson, 1992      **Writing the Nation in Reformation England, 1530-1580** Cathy Shrank, 2006-09-28 Writing the Nation in Reformation England offers a major re evaluation of English writing between 1530 and 1580 Studying authors such as Andrew Borde John Leland William Thomas Thomas Smith and Thomas Wilson Cathy Shrank highlights the significance of these decades to the formation of English nationhood and examines the impact of the break with Rome on the development of a national language literary style and canon As well as demonstrating the close relationship between literary culture and English identities it reinvests Tudor writers with a sense of agency As authors counsellors and thinkers they were active citizens participating within and helping to shape a national community In the process their works were also used to project an image of themselves as authors playing and fitted to play their part in the public domain In showing how these writers engaged with and promoted concepts of national identity the book makes a significant contribution to our broader understanding of the early modern period demonstrating that nationhood was not a later Elizabethan phenomenon and that the Reformation had an immediate impact on English culture before England emerged as a Protestant nation      *Maps and the Writing of Space in Early Modern England and Ireland* B. Klein, 2001-01-11 Maps make the world visible but they also obscure distort idealize This wide ranging study traces the impact of cartography on the changing cultural meanings of space offering a fresh analysis of the mental and material mapping of early modern England and Ireland Combining cartographic history with critical cultural studies and literary analysis it examines the construction of social and political space in maps in cosmography and geography in historical and political writing and in the literary works of Marlowe Shakespeare Spenser and Drayton      **Catholics Writing the Nation in Early Modern Britain and Ireland** Christopher Highley, 2008-07-10 Modern scholars fixated on the winners in England s sixteenth and seventeenth century religious struggles have too readily assumed the inevitability of Protestantism s historical triumph and have uncritically accepted the reformers own rhetorical construction of themselves as embodiments of an authentic Englishness Christopher Highley interrogates this narrative by examining how Catholics from the reign of Mary

Tudor to the early seventeenth century contested and shaped discourses of national identity patriotism and Englishness Accused by their opponents of espousing an alien religion one orchestrated from Rome and sustained by Spain English Catholics fought back by developing their own self representations that emphasized how the Catholic faith was an ancient and integral part of true Englishness After the accession of the Protestant Elizabeth the Catholic imagining of England was mainly the project of the exiles who had left their homeland in search of religious toleration and foreign assistance English Catholics constructed narratives of their own religious heritage and identity however not only in response to Protestant polemic but also as part of intra Catholic rivalries that pitted Marian clergy against seminary priests secular priests against Jesuits and exiled English Catholics against their co religionists from other parts of Britain and Ireland Drawing on the reassessments of English Catholicism by John Bossy Christopher Haigh Alexandra Walsham Michael Questier and others Catholics Writing the Nation foregrounds the faultlines within and between the various Catholic communities of the Atlantic archipelago Eschewing any confessional bias Highley s book is an interdisciplinary cultural study of an important but neglected dimension of Early Modern English Catholicism In charting the complex Catholic engagement with questions of cultural and national identity he discusses a range of genres texts and documents both in print and manuscript including ecclesiastical histories polemical treatises antiquarian tracts and correspondence His argument weaves together a rich historical narrative of people events and texts while also offering contextualized close readings of specific works by figures such as Edmund Campion Robert Persons Thomas Stapleton and Richard Verstegan

*Poetry and British Nationalisms in the Bardic Eighteenth Century* Jeff Strabone,2018-10-26 This book offers a radical new theory of the role of poetry in the rise of cultural nationalism With equal attention to England Scotland and Wales the book takes an Archipelagic approach to the study of poetics print media and medievalism in the rise of British Romanticism It tells the story of how poets and antiquarian editors in the British nations rediscovered forgotten archaic poetic texts and repurposed them as the foundation of a new concept of the nation now imagined as a primarily cultural formation It also draws on legal and ecclesiastical history in drawing a sharp contrast between early modern and Romantic antiquarianisms Equally a work of literary criticism and history the book offers provocative new theorizations of nationalism and Romanticism and new readings of major British poets including Allan Ramsay Thomas Gray and Samuel Taylor Coleridge

**Custom, Improvement and the Landscape in Early Modern Britain** Richard W. Hoyle,2017-03-02 A great deal has been written about the acceleration of English agriculture in the early modern period In the late middle ages it was hard to see that English agriculture was so very different from that of the continent but by 1750 levels of agricultural productivity in Britain were well ahead of those general in northern Europe The country had become much more urban and the proportion of the population engaged in agriculture had fallen Customary modes of behaviour whilst often bitterly defended had largely been swept away Contemporaries were quite clear that a process of improvement had taken place which had seen agriculture reshaped and made much more productive Exactly what that process was has remained surprisingly obscure This volume addresses the fundamental notion of improvement in the development of the British landscape from the sixteenth to the nineteenth century Contributors present a variety of cases of how improvement custom and resistance impacted on the local landscape which includes manorial estates enclosures fens forests and urban commons Disputes between tenants and landlords and between neighbouring landlords over improvement meant that new economic

and social identities were forged in the battle between innovation and tradition The volume also includes an analysis of the role of women as agricultural improvers and a case study of what can happen when radical improvement failed The volume will be essential reading for scholars of landscape studies rural and agrarian history but will also provide a useful context for anybody studying the historical legacy of mankind's exploitation of the environment and its social economic legal and political consequences

*Environment and Embodiment in Early Modern England* Garrett A. Sullivan, Jr, 2007-06-15 Eleven essays invite us to rethink not only what constitutes an environment but also where the environment ends and selfhood begins The essays examine the dynamic and varied mediations early modern writers posited between microcosm and macrocosm ranging from discourses on the ecology of passions to striking examples of distributed cognition

**Sexuality and Form** Graham Hammill, 2000-11 He then explores the epistemological and aesthetic spaces in the paintings of Caravaggio and Michaelangelo the plays of Christopher Marlowe and the scientific treatises of Francis Bacon demonstrating how in each the flesh is bruised into visibility through poses that underwrite and belie ideals of secular civility

**Writing Captivity in the Early Modern Atlantic** Lisa Voigt, 2012-12-01 Drawing on texts written by and about European and Euro American captives in a variety of languages and genres Lisa Voigt explores the role of captivity in the production of knowledge identity and authority in the early modern imperial world The practice of captivity attests to the violence that infused relations between peoples of different faiths and cultures in an age of extraordinary religious divisiveness and imperial ambitions But as Voigt demonstrates tales of Christian captives among Muslims Amerindians and hostile European nations were not only exploited in order to emphasize cultural oppositions and geopolitical hostilities Voigt's examination of Spanish Portuguese and English texts reveals another early modern discourse about captivity one that valorized the knowledge and mediating abilities acquired by captives through cross cultural experience Voigt demonstrates how the flexible identities of captives complicate clear cut national colonial and religious distinctions Using fictional and nonfictional canonical and little known works about captivity in Europe North Africa and the Americas Voigt exposes the circulation of texts discourses and peoples across cultural borders and in both directions across the Atlantic

free seas to the emergence of hyphenated identities and the perennial problem of the Picts Concluding with a survey of recent work in British studies and the history of early modern nationalism this collection highlights issues of British national identity cohesion and disintegration that remain undeniably relevant and topical in the twenty first century This book was originally published as a special issue of the journal *The Seventeenth Century* [A Companion to Shakespeare's Works, Volume II](#) Richard Dutton, Jean E. Howard, 2003-06-02 This four volume Companion to Shakespeare's Works compiled as a single entity offers a uniquely comprehensive snapshot of current Shakespeare criticism Brings together new essays from a mixture of younger and more established scholars from around the world Australia Canada France New Zealand the United Kingdom and the United States Examines each of Shakespeare's plays and major poems using all the resources of contemporary criticism from performance studies to feminist historicist and textual analysis Volumes are organized in relation to generic categories namely the histories the tragedies the romantic comedies and the late plays problem plays and poems Each volume contains individual essays on all texts in the relevant category as well as more general essays looking at critical issues and approaches more widely relevant to the genre Offers a provocative roadmap to Shakespeare studies at the dawning of the twenty first century This companion to Shakespeare's histories contains original essays on every history play from Henry VI to Henry V as well as fourteen additional articles on such topics as censorship in Shakespeare's histories the relation of Shakespeare's plays to other dramatic histories of the period Shakespeare's histories on film the homoerotics of Shakespeare's history plays and nation formation in Shakespeare's histories [England's Colonial Wars 1550-1688](#) Bruce Lenman, 2014-07-15 Bruce Lenman's hugely ambitious study explores three interacting themes the growth of England's sprawling colonial empire its military dimension and the impact of colonial warfare on national identity He starts in Ireland with the renewed assault of English settlers on the Irish Gaeltacht Under the Scottish Stuarts England then began a dramatic expansion across the North Atlantic In America the Indian Wars fought with minimal Crown support helped forge an independent military capability among the colonists while in the West Indies slave numbers and French intervention forced English settlers into a new dependency on the Crown In India the East India Company achieved ascendancy by sepoy armies under British control These were very different kinds of empire and a showdown became inevitable The climactic conflict the American Revolution would not only dictate the future shape of colonial expansion but also decisively reshaped the identities of all the participants *Transnational Exchange in Early Modern Theater* Robert Henke, Eric Nicholson, 2008 Emphasizing a performative and stage centered approach this book considers early modern European theater as an international phenomenon Early modern theater was remarkable both in the ways that it represented material and symbolic exchanges across borders but also in the ways that it enacted them In analyzing theater as a medium of dialogic communication the volume emphasizes cultural relationships of exchange and reciprocity more than unilateral encounters of hegemony and domination *Political Culture in the Reign of Elizabeth I* A. N. McLaren, 1999-12-09 In this major contribution to the Ideas

in Context series Anne McLaren explores the consequences for English political culture when with the accession of Elizabeth I imperial kingship came to be invested in the person of a female ruler She looks at how Elizabeth managed to be queen in the face of considerable male opposition and demonstrates how that opposition was enacted Dr McLaren argues that during Elizabeth s reign men were able to accept the rule of a woman partly by inventing a new definition of citizen one that made it an exclusively male identity and she emphasizes the continuities between Elizabeth s reign and the outbreak of the English civil wars in the seventeenth century A significant work of cultural history informed by political thought Political Culture in the Reign of Elizabeth I offers a wholesale reinterpretation of the political dynamics of the reign of Queen Elizabeth
