Crusader Landscapes in the Medieval Levant, 2016-08-20 Written to celebrate the prestigious career of Professor Denys Pringle this collection of articles produced by many of the leading archaeologists and historians in the field of crusades studies offers a compilation of pioneering scholarship on recent studies on the Latin East The geographical breadth of topics discussed in each chapter reflects both Pringle's international collaborations and research interests and the wide development of scholarly interest in the subject With a concentration on the areas corresponding to the crusader states during the twelfth and thirteenth centuries the articles also offer research into the neighbouring areas of Cyprus Anatolia Greece and the West and the legacy of the crusader period there with results from recent archaeological fieldwork in the Middle East

Crusading and Archaeology Vardit R. Shotten-Hallel, Rosie Weetch, 2020-11-03 Between the eleventh and fifteenth centuries the social and cultural worlds of medieval Europe and the Eastern Mediterranean were transformed by the religious impetus of the crusades Today we bear witness to these transformations in the material and environmental record revealed by new archaeological excavations and reappraisals of museum collections This volume highlights new archaeological knowledge being developed by scholars working in the fields of history archaeology numismatics and architecture to demonstrate its potential to change and augment our understanding of the crusades The 16 chapters in this volume deploy a contemporary scientific approach to archaeology of the crusades to give an up to date account into the diverse range of research in this area They explore five key themes the implications of scientific methods new excavations and surveys architectural analyses sigillography and the application of social interpretations Together these chapters provide a new way of approaching the study of the crusades and demonstrate the value of taking a holistic view that utilises the full diverse range of evidence available to us

Crusaders and Settlers in the Latin East Jonathan Riley-Smith, 2023-05-31 The studies here reflect Jonathan Riley Smith's work as a historian which began with research on the history of the military orders the specific focus of the third section here Out of this grew the concerns covered in the previous sections an interest in the political and constitutional history of the kingdom of Jerusalem and the relations of the western settlers with the indigenous population of Palestine and Syria the theory of crusading

involving research on theology and canon law and the role of the popes as preachers and at the same time detailed consideration of the responses of lay men and women to the ideas that were being presented to them The two final papers explore some of the implications of crusading ideology and mythology in the modern world Warriors and their Weapons around the Time of the Crusades David Nicolle, 2024-10-28 The technological relationship between the three main civilizations of the Western world Byzantium the Islamic world and the West most particularly in the area of arms armour and military technology is a field of research for which Dr Nicolle is noted This volume deals principally with Western Europe and Byzantium which for many centuries learnt from the Muslims in these matters several articles also focus on military interactions in the Crusader states The work draws upon both written and archaeological sources but above all makes use of the depictions of war and military equipment in contemporary art to examine the interconnections across the medieval world

Latins, Greeks and Muslims: Encounters in the Eastern Mediterranean, 10th-15th Centuries David Jacoby, 2023-05-31 Trade shipping military conquest migration and settlement in the eastern Mediterranean of the 10th 15th centuries generated multiple encounters between states social and national groups and individuals belonging to Latin Christianity Byzantium and the Islamic world The nature of these encounters varied widely depending on whether they were the result of cooperation rivalry or clashes between states the outcome of Latin conquest which altered the social and legal status of indigenous subjects or the result of economic activity They had wide ranging social and economic repercussions and shaped both individual and collective perceptions and attitudes These often differed depending upon nationality standing within the dominant or subject social strata or purely economic considerations In any event at the individual level common economic interests transcended collective national and cultural boundaries except in times of crisis The studies in this latest collection by David Jacoby explore the multiple facets of these eastern Mediterranean encounters and their impact upon individual economic activities with special attention to the other outsiders in foreign environments foreign privileged versus indigenous traders the link between governmental intervention naturalization and fiscal status as well as the interaction between markets and peasants Franks, Muslims and Oriental Christians in the Latin Levant Benjamin Z. Kedar, 2024-10-28 Steven Runciman characterized intellectual life in the Frankish Levant as disappointing Joshua Prawer claimed that the Franks refused to open up to the East's intellectual achievements The present collection the second by Benjamin Kedar in the Variorum series presents facts that require a modification of these still largely prevailing views The earliest laws of the Kingdom of Jerusalem were influenced by Byzantine legislation medical routine in the Jerusalem Hospital unparalleled in Europe had counterparts in Oriental hospitals worshippers of different creeds repeatedly converged multi directional conversion recurred time after time Several articles deal with groups that did abstain from intercultural contacts Muslim villagers Frankish clerics and hermits One article dwells on the asymmetry of Frankish and Muslim mutual perceptions The volume concludes with studies of specific locations one argues that Acre was considerably larger than hitherto assumed
