**From the Dreadnought to Scapa Flow** Arthur J Marder,2014-03-31 The five volumes that constitute Arthur Marder's *From the Dreadnought to Scapa Flow* represented arguably the finest contribution to the literature of naval history since Alfred Mahan A J P Taylor wrote that his naval history has a unique fascination To unrivalled mastery of sources he adds a gift of simple narrative He is beyond praise as he is beyond cavil The five volumes were subtitled *The Royal Navy in the Fisher Era 1904 1919* and they are still despite recent major contributions from Robert Massie and Andrew Gordan regarded by many as the definitive history of naval events leading up to and including the Great War The third volume deals with the controversial clash between the German High Seas fleet and the British Grand Fleet and Battlecruiser Fleet at Jutland and its immediate aftermath and the author's intricate charting of this great battle is still recognised and a major step forward in our understanding of the events A new introduction by Barry Gough the distinguished Canadian maritime and naval historian assesses the importance of Marder's work and anchors it firmly amongst the great naval narrative histories of this era This new paperback edition will bring a truly great work to a new generation of historians and general readers

*The Scaremongers (RLE The First World War)* A. J. A. Morris,2014-04-24 This revealing book illustrates how the passion for war was fostered and promoted The author provides detailed evidence of how and why an image of Germany as a nation determined upon world hegemony was deliberately promoted by a group of British newspaper editors proprietors and journalists This book examines the role of these scaremongers Were they as influential as their critics claimed Did they influence the minds of their readers and shape events Were they guilty of creating a climate of opinion that ensured that their prophecies of inevitable Anglo German war became fact in 1914

**Literary Digest** ,1907 [The British Battleship 1906-1946](#) Norman Friedman,2015-09-30 The British battleship is one of the most intensely studied of all naval topics but it is also among the most popular Norman Friedman is one of the most highly regarded of all naval writers with an avid following for his work Therefore a new book on British battleships by Friedman is a major event and has been eagerly awaited ever since knowledge of the project began to circulate among enthusiasts Friedman has the ability to bring new ideas to even the most over worked subjects based on extensive original research and a talent for explaining technology in the wider context of politics economics and strategy His latest book covers the development of Royal Navy capital ships including battlecruisers from the pre history of the revolutionary Dreadnought of 1906 to the last of the line HMS Vanguard in 1946 Replete with original insights the story that emerges will enlighten and surprise even the most knowledgeable The attraction of the book is enhanced by sets of specially commissioned plans of the important classes by John Roberts and A D Baker III both renowned experts in their own right plus a colour section featuring the original Admiralty draughts including a spectacular double gatefold For many with an interest in warships this will be the book of the year

**Never Call Retreat** J. Thompson,2014-01-15 The first modern account of Theodore Roosevelt and the First World War

this is a tale of war and politics as well as the private story of true love and family devotion a story as multi faceted as TR s own personality     *Dreadnought to Daring* Peter Hore,2012-11-05 *Dreadnought to Daring* is an absorbing and highly readable summary of a century of naval thinking which has been written by some of the leading lights in contemporary naval history Founded in 1912 by some of the Royal Navys brightest officers the quarterly *Naval Review* has never been subject to official censorship and its naval members do not need official permission to write for it so it has always provided an independent lively and at times outspoken forum for service debate In broad terms it has covered contemporary operations principles of naval warfare history and anecdotes which record the lighter side of naval life but sometimes with a bite to them A correspondence section provides an important barometer of service opinion while extensive book reviews written by those with real knowledge of the subject carry considerable weight For these reasons the *Naval Review* is widely regarded as a journal of record In return for its freedom circulation is restricted to members and membership to serving or retired officers However this volume will give the interested public an insight into its activities past and present Intended both to celebrate and to analyse the impact of the journal over its 100 year history it comprises a series of specially commissioned articles divided chronologically and thematically devoted to subjects that have been of importance to the naval community as reflected in the pages of the journal It concludes with an assessment of how well the *Naval Review* has succeeded in its founders aim and what influence it has had on policy     **Scientific American** ,1911     **The Anti-militarist** ,1911     *The New Century Book of Facts* Carroll Davidson Wright,1910     **Army-Navy-Air Force Register and Defense Times** ,1909     **The New International Encyclopædia: Supplement** ,1924     **The New International Encyclopedia** Frank Moore Colby,Talcott Williams,1924     **The Battle of the Otranto Straits** Paul G. Halpern,2004-06-15 Called by some a Mediterranean Jutland the Battle of the Otranto Straits involved warships from Austria Germany Italy Britain and France Although fought by light units with no dreadnoughts involved Otranto was a battle in three dimensions engaging surface vessels aircraft and subsurface weapons both submarines and mines An attempt to halt the movement of submarines into the Adriatic using British drifters armed with nets and mines led to a raid by Austrian light cruisers The Austrians inflicted heavy damage on the drifters but Allied naval forces based at Brindisi cut off their withdrawal The daylight hours saw a running battle with the Austrians at considerable risk Heavier Austrian units put out from Cattaro in support and at the climactic moment the Allied light forces had to turn away permitting the Austrians to escape In the end the Austrians had inflicted more damage than they suffered themselves The Otranto action shows the difficulties of waging coalition warfare in which diplomatic and national jealousies override military efficiency
