Deconstructing the New Testament Seeley, 2021-08-30 To deconstruct a text means to disassemble the various points of view contained within it and to let them stand fully exposed with all their own presuppositions When this is done the contours of these building blocks appear so different from one another that the structural unity of the text is called into question Biblical scholars will sense how close this process is to familiar methods of form and source criticism Without jargon this study sharpens and clarifies the analytical thrust behind such methods At the same time it offers a fresh rendering of redaction criticism inquiring after the often contradictory motives and historical circumstances influencing the evangelists This book thus provides an intriguing combination of the old and the new

*Life Together* Stephen Barton, 2005-01-01 In these wide ranging studies Stephen Barton shows that Christian theology and the Christian scriptures have a vital contribution to make to contemporary wisdom about our common

life The subjects he addresses are relevant to the concerns of many people today What he has to say about the family sexuality community and biblical interpretation is both informative and creative Running through the book is the issue of the appropriate use of the Bible how the sacred text may speak in ways which are life giving Stephen Barton claims that questions about the interpretation of the Bible have to be set in the larger context of what it means to be the church A central argument i that the Bible is the kind of text the truth of whose witness is discovered above all in the lives of individuals and communities seeking to share by grace in the life of the Trinity **Wake Up Church** Greg Wilburn,2010-10-15

prosperity to the empire But Mark's good news has to do with the salvation and victory brought by Jesus over evil in all its demonic and physical forms The gospel of Jesus Christ therefore means the gospel about Jesus Christ and refers to a proclaimed message the voice of one crying out not a book though because books like Mark's contain that proclaimed message the term came to refer to those books in the capitalized form of Gospels to distinguish them from the message kept uncapitalized as gospel
