*Hungary 1956--forty Years on* Terry Cox,1997 This collection of new articles offers a retrospective view of the events of the 1956 revolution in Hungary the consequences they have had for Hungary s political development since and the significance of 1956 in current Hungarian politics Different articles draw on the findings of various kinds of research including work in documentary and archival collections that have only recently been opened up sociological survey research and in some cases on personal reminiscences as well     Twenty Years on Renate Rechtien,Dennis Tate,2011 Twenty years on from the dramatic events that led to the opening of the Berlin Wall and the collapse of the GDR the subjective dimension of German unification is still far from complete The nature of the East German state remains a matter of cultural as well as political debate This volume of new research focuses on competing memories of the GDR and the ways they have evolved in the mass media literature and film since 1989 90 Taking as its point of departure the impact of iconic visual images of the fall of the Wall on our understanding of the historical GDR the volume first considers the decade of cultural conflict that followed unification and then the emergence of a more complex and diverse textual memory of the GDR since the Berlin Republic was established in 1999 It highlights competing generational perspectives on the GDR era and the unexpected afterlife of the GDR in recent publications The volume as a whole shows the vitality of eastern German culture two decades after the demise of the GDR and the centrality of these memory debates to the success of Germany s unification process     **Storytime**

**American Classics (Omnibus Edition) (Diversions Classics)** Nathaniel Hawthorne, Herman Melville, Washington Irving, James Fenimore Cooper, 2015-06-30 Featuring an appendix of discussion questions the Diversions Classics edition is ideal for use in book groups and classrooms In this collection of classics five seminal tales come together to form a picture of America in its youth but on the cusp of growing up These stories defined and challenged the standards of American literature and their influence is immeasurable Including Nathaniel Hawthorne's THE SCARLET LETTER Herman Melville's MOBY DICK James Fenimore Cooper's THE LAST OF THE MOHICANS Washington Irving's THE LEGEND OF SLEEPY HOLLOW and Jack London's THE CALL OF THE WILD this anthology edition is perfect for the voracious reader *The Golden Age of Probation* Roger Statham, 2014-09-24 The Golden Age of Probation is the first book on probation by those practitioners who became its leaders A comprehensive account exploring culture values and tensions It looks at the dynamics of probation supervision and political dimensions including the shift to a market-driven form of public service A lively and challenging collection of writings by those at the very heart of the Probation Service for 50 years Complete with descriptions of life at all levels of what has been described as the jewel in the crown of criminal justice Moral and other challenges are presented alongside those of standing up to government Ministers whose aspirations for political immortality have led to profound tensions The book describes how tough talk and market strategies have undermined 100 years of devoted public service and ideas about how best to help change the lives of some of the most marginalised people in society Equality race and social

deprivation are amongst the issues explored as the ethos of probation and its deeply rooted values are laid bare in a book that deals with highs and lows hazards innovation hopes aims and the international influence of an organization whose original mission not always popular was to advise assist and befriend those otherwise heading for prison and a life of crime Colourful and highly readable *The Golden Age of Probation* takes the reader on a journey through England and Wales exposing social disadvantage unrest and increasingly London centric policies It records first hand what life was like for those at the sharp end during an era of extensive progress development and change From the book The price of the semi privatised probation estate is that probation has lost its umbilical cord with the courts the police the prosecution service and our partners in local authorities It will be difficult for the courts in particular to understand the transforming rehabilitation agenda when services for low and medium risk offenders will be carried out by an origami of commissioned enterprises whose experience for the most part is in the private sector of running prisons mostly in the USA and whose staff may not necessarily have the qualifications to properly assess and supervise known offenders John Harding CBE Chapter 10 Although the restructure made the service vulnerable to later changes through the 2000 Act it did achieve better consistency reduced costs in due course more women at the top and a national programme of assessment and interventions that was internationally ground breaking The mistake in my view was to abandon this direction later that decade combine with the Prison Service under the banner of offender management and sacrifice the national probation influence that had been gained Because of the nature of the caseload with most offenders on community orders we have always had more joint work with police and local authorities than with the Prison Service Personalities and some bad judgements however got in the way Mary Anne McFarlane Chapter 14 For the last three decades probation just like health and education has been caught up in the dynamics and mechanisms of creating pseudo pseudo markets to deliver public services The underlying philosophy might appear to be simply to get the cost of these things off the government s balance sheet but the structures created to do this are not transparent enough for a real assessment to be made of the true financial costs At the same time organizational targets and protocols have helped stifle initiative and even the capacity to care Roger Statham Chapter 18

years on it is considered one of the classic texts in International Relations. It does not, however, address many world political issues that now concern us deeply such as terrorism, global financial crises, climate change, the impact of the internet, revolution, deep rooted racial inequalities and violence against women. Moreover, while the development of International Relations as an academic subject has consolidated the status of the English School as one of the principal approaches to the study of world politics, and *The Anarchical Society* as its key text, significant limitations in Bull's approach have also been identified. This volume examines how far *The Anarchical Society* continues to illuminate world politics and how well Bull's method and argument stand up today. The volume argues that although many of Bull's substantive judgements require updating, his approach remains valuable not only for thinking about enduring problems of violence and security but also as a starting point for thinking about many issues that Bull himself neglected. However, the contributors also develop important criticisms of Bull's approach and identify ways in which it could be strengthened. A key insight is that although *The Anarchical Society* is famous for explicating the concept of international society, there is more to it than that. Indeed, the contemporary relevance of Bull's work is clearest when we recognize the often overlooked potential of his concept of the world political system, referring to the global network of interactions of which modern international society is only a part.

Play: A Play by Jed McKenna, 2015. It is what it is, they say, but is it? Jed McKenna has always been more about destroying questions than answering them, so it's no surprise that *Play* is more Q than A. In fact, it might be viewed as a progression through the stages of self inquiry, each of the seven vignettes taking us a bit further along on the inward journey: the early vignettes asking the questions and the latter ones looking at those who do ask, showing us, promising us, warning us, where honest and relentless inquiry really lead. But who Jed has asked really wants to go where this road really leads. On this journey, who you are changes with every step and it's all about taking the next step. In the end, *Play* is what it is. Or is it? Maybe it's the journey of the examined life or maybe it's just a playful little play. Ultimately, of course, *Play* like life like anything is whatever it is to you.

**Sports Criminology** Nic Groombridge, 2016-06-28. This is the first book to provide a critical criminological perspective on sport and the connections between sport and crime. It draws on the interdisciplinary nature of criminology and incorporates emerging perspectives like social harm, gender and sexuality, and green criminology. Written from an international perspective, it covers topics including sports scandals and the possibility of crime prevention through sport. American football, boxing, soccer, and sumo are all examined. The book considers both sports law and the sociology of sport and will be essential reading for students and academics in these fields.

**Alan Bennett** Joseph O'Mealy, 2013-09-13. Alan Bennett is perhaps best known in the UK for the BBC production of his *Talking Heads* TV plays, while the rest of the world may recognize him for the film adaptation of his play *The Madness of King George*. O'Mealy points out that Bennett is a social critic strongly influenced by Beckett and Swift, interested in depicting and analyzing the role playing of everyday life. A la sociologist Ervin Goffman.
