**Forward March to Freedom; a Biography of A. Philip Randolph** Barbara Kaye Greenleaf, 1971 A biography of the black man whose efforts to help his people centered on gaining equal employment opportunities equality in labor unions and integration of the United States Army Reframing Randolph Andrew E. Kersten, Clarence Lang, 2015-01-09 At one time Asa Philip Randolph 1889 1979 was a household name As president of the all black Brotherhood of Sleeping Car Porters BSCP he was an embodiment of America's multifaceted radical tradition a leading spokesman for Black America and a potent symbol of trade unionism and civil rights agitation for nearly half a century But with the dissolution of the BSCP in the 1970s the assaults waged against organized labor in the 1980s and the overall silencing of labor history in U S popular discourse he has been largely forgotten among large segments of the general public before whom he once loomed so large Historians however have not only continued to focus on Randolph himself but his role either direct or via his legacy in a wide range of social political cultural and even religious milieu and movements The authors of Reframing Randolph have taken Randolph's dusty portrait down from the wall to reexamine and reframe it allowing scholars to regard him in new and often competing lights This collection of essays gathers for the very first time many genres of perspectives on Randolph Featuring both established and emergent intellectual voices this project seeks to avoid both hagiography and blanket condemnation alike The contributors represent the diverse ways that historians have approached the importance of his long and complex career in the main political social and cultural currents of twentieth century African American specifically and twentieth century U S history overall The central goal of Reframing Randolph is to achieve a combination of synthetic and critical reappraisal **A. **Contemporary American Women Writers** Catherine Rainwater,William J. Scheick,2021-05-11 Ann Beattie Annie Dillard Maxine Hong Kingston Toni Morrison Cynthia Ozick Grace Paley Marge Piercy Anne Redmon Anne Tyler and Alice Walker all seem to be especially concerned with narrative management The ten essays in this book raise new and intriguing questions about the ways these leading women writers appropriate and transform generic norms and ultimately revise literary tradition to make it more inclusive of female experience vision and expression The contributors to this volume discover diverse narrative strategies Beattie Dillard Paley and Redmon in divergent ways rely heavily upon narrative gaps surfaces and silences often suggesting depths which are lamentably absent from modern experience or which mysteriously elude language For Kingston and Walker verbal assertiveness is the focus of narratives depicting the gradual empowerment of female protagonists who learn to speak themselves into existence Ozick and Tyler disrupt conventional reader expectations of the anti novel and the family novel respectively Finally Morrison s and Piercy s works reveal how traditional narrative forms such as the Bildungsroman and the soap opera are adaptable to feminist purposes In examining the writings of these ten important women authors this book illuminates a significant moment in literary history when women s voices are profoundly reshaping American literary tradition Research Guide to American Historical Biography Robert
