Foundations Of Astronomy W Cd:

Foundations of Astronomy Michael A. Seeds, 1997-12 *Foundations of Astronomy Non-Infotrac Version with Cd Rom*
Seeds, 2002-05 Gravity IN Relativistic Particle Theory: A Physical Foundation for the Life Sciences Harold Hamilton
Ph.D., 2013-04-08 This book focuses on the need for and development of a rigorous Nonequilibrium Thermodynamic Theory
as a foundation on which to construct a relativistic particle theory that in turn serves as a self consistent basis for our
reasoning in the quantum cosmological and life sciences at the farthest extremes of organized complexity and the farthest
removes from equilibrium In Part I Dr Hamilton develops general principles and laws extending those of Classical
Thermodynamics which govern the origin and evolution of systems far from equilibrium And he shows that these principles
act collectively with Heisenberg s indeterminacy principle as a Nonequilibrium Thermodynamic Imperative NTI a creative
driving force in the expansion and evolution of the Universe In Part II he proposes fundamental assumptions alternatives to
those in the Standard Model that lead seamlessly and self consistently to the origin and evolution of the quantum Universe
and its transition to the scalar expansion of the Cosmos in which the force of gravity plays a central role On this foundation
Part III develops a rational quantum theory in which Gravitational and Symmetry Bound Photons GSBP constitute the most
fundamental particles in the Universe as dimensional composite fermions quarks electrons and positrons and bosons and
enabling a GSBP Schroedinger enhanced description of the dynamics of atomic and molecular systems And in Part IV Dr
Hamilton develops a physical molecular theory of the origin and evolution of life on the early Earth which accounts in natural
geophysical terms for the critically important homochirality of all the amino acids in present day living cells The
Nonequilibrium Thermodynamic Imperative drives and undergirds all creative action at all levels from quantum to
cosmological in the expanding Universe including the Darwinian Natural Selection of species on Earth in which the NTI plays
a fundamental physical role **1980 National Science Foundation Authorization** United States. Congress. House.
