Wilmore examines the Educational Leadership Constituent Council (ELCC) standards, the new benchmarks established by NCATE and ISLLC for a highly effective superintendency, and shows how administrators can incorporate each standard into their global vision and everyday practice. Through case studies, problem-based learning, an assessment model, and reflective questions and activities, this reader-friendly handbook discusses ways for superintendents to attain proficiency in each ELCC standard. *School Leadership Effects Revisited* Jaap Scheerens, 2012-01-05. This highly detailed study maps four decades of evolution of the concept of what constitutes effective school leadership. A wide-ranging survey of the empirical research literature on leadership effects includes the presentation of results from earlier meta-analyses as well as a new meta-analysis on some 25 studies carried out between 2005 and 2010. This survey demonstrates that older reviews and meta-analyses were

predominantly based on so called direct effect studies while more recent studies have tried to quantify the indirect effects of leadership mediated by other school variables While acknowledging the relatively small total effect of leadership on student outcomes the study does identify promising intermediary factors which stimulated by specific leadership behaviours impact on student performance The book ends by drawing out wider implications for educational practice and policy presented under headings such as schools need leadership the toolkit of the school leader as a meta controller the special case of turning around failing schools and efficiency of school leadership In passing the authors make several suggestions about potentially fruitful next steps in researching the effects of school leadership
