Frontiers Of China:

Inner Asian Frontiers of China Owen Lattimore, 1962 **Introduction to Second Ed. of Inner Asian Frontiers of China** Owen Lattimore, Owen Lattimore *Inner Asian frontiers of China*. Ed. 2, 1951 **Modern China's Ethnic Frontiers** Hsiao-ting Lin, 2010-09-13 The purpose of this book is to examine the strategies and practices of the Han Chinese Nationalists vis vis post Qing China's ethnic minorities as well as to explore the role they played in the formation of contemporary China's Central Asian frontier territoriality and border security The Chinese Revolution of 1911 initiated by Sun Yat sen liberated the Han Chinese from the rule of the Manchus and ended the Qing dynastic order that had existed for centuries With the collapse of the Qing dynasty the Mongols and the Tibetans who had been dominated by the Manchus took advantage of the revolution and declared their independence Under the leadership of Yuan Shikai the new Chinese Republican government in Peking in turn proclaimed the similar five nationality Republic proposed by the Revolutionaries as a model with which to sustain the deteriorating Qing territorial order The shifting politics of the multi ethnic state during the regime transition and the role those politics played in defining the identity of the modern Chinese state were issues that would haunt the new Chinese Republic from its inception to its downfall Modern China's Ethnic Frontiers will be of interest to students and scholars of Chinese history Asian history and modern history India, China, and Northern Frontiers Rammanohar Lohia, 1963 **The Frontiers of China** Francis Watson, 1966 **Political Frontiers, Ethnic Boundaries and Human Geographies in Chinese History** Nicola Di Cosmo, Don J Wyatt, 2005-08-16 Boundaries demanding physical space enclosing political entities and distinguishing social or ethnic groups constitute an essential aspect of historical investigation It is especially with regard to disciplinary pluralism and historical breadth that this book most clearly departs and distinguishes itself from other works on Chinese boundaries and ethnicity In addition to history the disciplines represented in this book include anthropology particularly ethnography religion art history and literary studies Each of the authors focuses on a distinct period beginning with the Zhou dynasty c 1100 BCE and ending with the early centuries after the Manchu conquest c CE 1800 resulting in a chronological sweep of nearly three millennia *Frontiers of Heaven* Stanley Stewart, 2006-02-01 Winner of the Thomas Cook Travel Book Award For the Chinese the Great Wall of China has defined much more than a physical barrier Over the centuries it has represented a psychological frontier within it lies the Celestial Kingdom the compass of all civilization Beyond lies a barbaric world of chaos and exile In *Frontiers of Heaven* author Stanley Stewart recounts his wanderings halfway across Asia The journey takes him from Shanghai to the banks of the Indus and along the way he encounters the modern Chinese for whom these regions beyond the Wall still hold the same morbid fascination Today the great western province of Xinjiang is still a land of exile the destination of soldiers reluctant settlers political prisoners and disgraced officials Whether describing the lost cities of Central Asia a Buddhist monastery in the shadow of Tibet or a love affair in Xi an Stewart tells his story with charm and affection Governing China's Multiethnic

Frontiers Morris Rossabi, 2004-02-01 Upon coming to power in 1949 the Chinese Communist government proclaimed that its stance toward ethnic minorities who comprise approximately eight percent of China's population differed from that of previous regimes and that it would help preserve the linguistic and cultural heritage of the fifty-five official minority nationalities. However, minority culture suffered widespread destruction in the early decades of the People's Republic of China, and minority areas still lag far behind Han majority areas economically. Since the mid-1990s, both domestic and foreign developments have refocused government attention on the inhabitants of China's minority regions, their relationship to the Chinese state, and their foreign ties. Intense economic development of and Han settlement in China's remote minority regions threaten to displace indigenous populations. Post-Soviet establishment of independent countries composed mainly of Muslim and Turkic-speaking peoples presents questions for related groups in China. Freedom of Mongolia from Soviet control raises the specter of a pan-Mongolian movement encompassing Chinese Mongols, and international groups press for a more autonomous or even independent Tibet. In *Governing China's Multiethnic Frontiers*, leading scholars examine the Chinese government's administration of its ethnic minority regions, particularly border areas where ethnicity is at times a volatile issue and where separatist movements are feared. Seven essays focus on the Muslim Hui, multiethnic southwest China, Inner Mongolia, Xinjiang, and Tibet. Together, these studies provide an overview of government relations with key minority populations against which one can view evolving dialogues and disputes.

China's Quest for Global Order Rosita

Dellios, R. James Ferguson, 2012-12-13 The rise of China has become a ubiquitous and often menacing term in global politics. *China's Quest for Global Order: From Peaceful Rise to Harmonious World* by Rosita Dellios PhD and R. James Ferguson PhD examines how China's leadership has responded to this depiction and the strategic approaches that have been developed to ameliorate threat perceptions. Rather than simply reassuring others that its rise is peaceful, China has taken proactive steps to reduce possible conflicts. Beijing seeks to shape the emerging global governance order as both non-threatening to itself and productive in transnational problem-solving. Borrowing from its own Confucian heritage to promote a harmonious world policy, China's contribution to world order is likely to be more robust than the responsible stakeholder epithet upon which the West has pinned its collective hopes. The book interprets China's quest for global order from Chinese perspectives, old and new, and provides the relevant philosophical and historical background to engage the reader in the ensuing debates. The authors also contextualize Chinese concepts with those from contemporary international relations, strategic studies, and systems thinking. Their resultant contributions to existing analyses include the notion of Confucian geopolitics and the interplay between strategic theatres of cooperation and protection.

China's Frontier Regions Doug Smith, Michael E.

Clarke, 2016-03-08 China has traditionally viewed her frontier regions—Xinjiang, Tibet, Inner Mongolia, and Yunnan—as buffer zones. Yet their importance as commercial and cosmopolitan hubs intimately involved in the transmission of goods, peoples, and ideas between China and its west and southwest has meant they are crucial for China's ongoing development. The

resurgence of China under Deng Xiaoping's policy of reform and opening has therefore led to a focus on integrating these regions into the PRC People's Republic of China. This has important implications not only for the frontier regions themselves but also for the neighbouring states with which they have strong cultural, religious, linguistic and economic ties. China's Frontier Regions explores the challenges presented by this integrationist policy both for domestic relations and for diplomatic and foreign policy relations with the countries abutting their frontier regions.

The Inner Asian Frontiers of China, 1942

Managing Frontiers in Qing China, 2016-11-14

In *Managing Frontiers in Qing China*, historians and anthropologists explore China's imperial expansion in Inner Asia, focusing on early Qing empire building in Mongolia, Xinjiang, Tibet and beyond. Central Asian perspectives and comparisons to Russia's Asian empire are included. Taking an institutional, historical and historical anthropological approach, the essays engage with two Qing agencies well known for their governance of non-Han groups: the Lifanyuan and Libu. This volume offers a comprehensive overview of the Lifanyuan and Libu, revising and assessing the state of affairs in the under-researched field of these two institutions. The contributors explore the imperial policies towards and the shifting classifications of minority groups in the Qing Empire, explicitly pairing and comparing the Lifanyuan and Libu as in some sense cognate agencies. This text offers insight into how China's past has continued to inform its modern policies as well as the geopolitical make-up of East Asia and beyond. Contributors include Uradyn E. Bulag, Chia Ning, Pamela Kyle Crossley, Nicola Di Cosmo, Dorothea Heuschert, Laage Laura Hostetler, Fabienne Jagou, Mei Hua Lan, Dittmar Schorkowitz, Song Tong, Michael Weiers, Ye Baichuan, Yuan Jian, Zhang Yongjiang.

New Frontiers in China's Foreign Relations, Allen Carlson, Ren Xiao, 2011-10-14

This book stands as a rebuke to any who would attempt to forward simplistic interpretations of China's rise. In place of parsimonious arguments or an endorsement of any singular set of images, whether pacific or confrontational, it repeatedly calls attention to the remarkable complexity of China's emerging international profile. More specifically, the leading Chinese and American scholars working in the fields of Chinese foreign policy, international political economy and national security who contributed to this volume argue that while China appears to be entering a new era in its relationship with the outside world, such a development encompasses disparate even contradictory policies and as a result, there is a great deal of fluidity within China's place in world politics.

Xinjiang - China's Northwest Frontier, K. Warikoo, 2016-03-02

Xinjiang is the pivot of Asia where the frontiers of China, Tibet, India, Afghanistan, Pakistan and Central Asia approach each other. The growing Uyghur demand for a separate homeland and continuing violence in Xinjiang have brought this region into the focus of national and international attention. With Xinjiang becoming the hub of trans-Asian trade and traffic and also due to its rich energy resources, Uyghur Muslims of Xinjiang are poised to assert their ethno-political position, thereby posing a serious challenge to China's authority in the region. This book offers a new perspective on the region with a focus on social, economic and political developments in Xinjiang in modern and contemporary times. Drawing on detailed analyses by experts on
