 Peter Andreas,Kelly M. Greenhill,2011-01-15 At least 200 000 250 000 people died in the war in Bosnia There are three million child soldiers in Africa More than 650 000 civilians have been killed as a result of the U S occupation of Iraq Between 600 000 and 800 000 women are trafficked across borders every year Money laundering represents as much as 10 percent of global GDP Internet child porn is a 20 billion a year industry These are big attention grabbing numbers frequently used in policy debates and media reporting Peter Andreas and Kelly M Greenhill see only one problem these numbers are probably false Their continued use and abuse reflect a much larger and troubling pattern policymakers and the media naively or deliberately accept highly politicized and questionable statistical claims about activities that are extremely difficult to measure As a result we too often become trapped by these mythical numbers with perverse and counterproductive consequences This problem exists in myriad policy realms But it is particularly pronounced in statistics related to the politically charged realms of global crime and conflict numbers of people killed in massacres and during genocides the size of refugee flows the magnitude of the illicit global trade in drugs and human beings and so on In Sex Drugs and Body Counts political scientists anthropologists sociologists and policy analysts critically examine the murky origins of some of these statistics and trace their remarkable proliferation They also assess the standard metrics used to evaluate policy effectiveness in combating problems such as terrorist financing sex trafficking and the drug trade

*EU Counter-Terrorism and Intelligence* Javier Argomaniz,Oldrich Bures,Christian Kaunert,2017-10-02 The Treaty on the European Union stipulates that one of the key objectives of the Union is to provide citizens with a high level of safety within an Area of Freedom Security and Justice Given that the fight against terrorism is a prominent aspect of this general objective it is remarkable that in spite of its political relevance and decade long history it has only relatively recently received due attention in the academic community Yet an analysis of the successes and failures of the EU s involvement in this field is imperative and this is a particularly pertinent moment to take stock of progress The goal of this book is therefore to look back at the post 9 11 period and answer the question of whether when it comes to the measures taken to combat terrorism following these attacks the EU has lived up to the promise made in its founding treaties In pursuing this goal this volume presents the views of leading experts casting a critical eye over the EU s performance recognising achievements but also being suitably critical when the realities did not match the European rhetoric In doing this the book makes a significant contribution not only to the scholarly investigation of European Union policies but also to the study of counter terrorism in general This book was published as a special issue of Intelligence and National Security **Bulletin of the American Meteorological Society** American Meteorological Society,1928 List of members in v 1 8 etc **Science** ,1929 Vols for 1911 13 contain the Proceedings of the Helminthological Society of Washington ISSN 0018 0120 1st 15th meeting
