

The image is a collage of various fruit-bearing trees. In the top left, there's a large tree heavily laden with ripe orange fruit. To its right, a branch of a lemon tree is shown with several bright yellow lemons. Below the orange tree, there's a close-up of a peach tree branch with several ripe, reddish-orange peaches. To the right of the peach tree, there's a branch of a red apple tree with several large, bright red apples. In the bottom right corner, there's a close-up of a branch with many small, round, yellow-orange fruits, possibly a type of berry or small citrus. The central text "Fruit Bearing Trees" is overlaid on a dark, semi-transparent rectangular area that covers the middle of the collage.

Yoreh, 2019-12-01 Traces the development of bal tash it the Jewish prohibition against wastefulness and destruction from its biblical origins to the contemporary environmental movement Bal tash it the Jewish prohibition against wastefulness and destruction is considered to be an ecological ethical principle by contemporary Jewish environmentalists Waste Not provides a comprehensive intellectual history of this concept charting its

evolution from the Bible through classical rabbinic literature commentaries codes of law responsa and the works of modern environmentalists Tanhum S Yoreh uses the methodology of tradition histories to identify pivotal moments in the development of the prohibition in particular its transition into an economic framework He finds that bal tash it s earliest stages of conceptualization connect the prohibition against wastefulness with avoidance of self harm This connection is commonplace within contemporary environmental thought and a universalizing Jewish principle with important contributions to be made to Jewish and general societal ecological discourse Yoreh s narrative provides a foundation for understanding bal tash it as an environmental ethic for today and tomorrow The book s argument well grounded as it is in firm textual evidence displays a sound familiarity with rabbinic sources and communicates it in a manner suitable for readers whose familiarity with those sources may vary There is a drama implicit in the presentation having to do with the religiously and environmentally pressing question of how Jewish sources show up under close historical and environmental examination
