## **Fugitive Industry The Economics And Politics Of Deindustrialization Pacific Studies In Public Policy:**

Fugitive Industry Richard B. McKenzie,1984-01-01      FUGITIVE INDUSTRY Richard B. MCKENZIE,1984

Reconceiving Liberalism Oren M. Levin-Waldman,2010-11-23 Levin Waldman argues that if American public policy were to be evaluated against a different set of principles ones more closely aligned with core liberal values especially the common good liberalism would be in greater harmony with contemporary public opinion and thought Liberalism rests on a moral vision of what constitutes the good life and a set of principles that can measure whether public policy accords with society s underlying philosophical principles Levin Waldman faults modern liberalism for obscuring these principles through a misplaced reliance on neutrality Liberalism he contends appears to have diverged from mainstream perceptions of traditional American values because policy is debated and formulated within the confines of this neutrality standard Levin Waldman develops a new methodology intended to take us away from the usual cost benefit analysis and move us closer to assessing public policies in terms of what best serves the common good      Monthly Labor Review ,1984 Publishes in depth articles on labor subjects current labor statistics information about current labor contracts and book reviews      **Free Market**

**Environmentalism** Terry L. Anderson,2019-03-04 Although there is in the United States a clear national consensus supporting the protection of the environment advocates often profoundly disagree about the policies best designed to achieve this end The traditional answer has been that government must intervene through legislation and regulation of behavior to preserve environmental values Th      **Global Production and Domestic Decay** Brian D. Phillips,2021-12-12 First

Published in 1942 Phillips has written an important study covering three areas three areas theoretical empirical and public policy This book explores some of the explanations for and consequences of globalized production by transnational corporations A review of the theoretical underpinnings of the reasons for corporate overseas expansion precedes a discussion of transnational corporation overseas production facilities The literature reviewed supports the position that the exodus of manufacturing capital has been assisted by state policy which has encouraged capital flight and that corporate efforts to downsize manufacturing operations in the United States have added to corporate profitability and championed profits over the strengthening the domestic economy      **American Living Standards** Robert E. Litan,Robert Z. Lawrence,Charles L. Schultze,2010-12-01 American Living Standards contends that the central problem of the U S economy has been for some years now and for the foreseeable future will continue to be the slowdown in the growth of living standards This decline began in the early 1970s was masked by a resort to overseas borrowing in the early 1980s and now threatens to get worse in the years immediately ahead as the foreign debt bills come due The editors and contributors to this volume seek to advance our understanding of the causes and consequences of this potential slowdown in the growth of living standards Equally important the book examines what policy measure holds out the best hope for presenting or at the very least minimizing this slowdown Various chapters explore the changes in the level and distribution of incomes that have occurred in recent years

changes in the quality and distribution of jobs among industries and regions what economists do and do not know about recent trends in productivity growth and in the quality of education and what events could trigger a recession Managing Decline Suzanne Culter,1999-05-01 Industrial restructuring has become a way of life the inevitable accommodation to rapid changes in technology to a global economy that affects large and small communities through the constant flow of goods and people and to the challenging patterns of economic viability that alter that flow Managing Decline examines the impact of coal mine closures in Yubari City Hokkaido once one of Japan s most prosperous coal producing cities and asks how Japanese culture has influenced the enactment of and response to industrial policy for restructuring in this community For many years coal formed the backbone of Japan s economic development but the dangers and costs of mining became increasingly expensive for the industry and government Global changes in coal production and exchange finally prompted Japan s decision in 1986 to shut down nearly all domestic coal mines in favor of coal imports Japan s policy for industry restructuring has been applauded as one of the most comprehensive in addressing the needs of the industry the workers and the community At the micro level however the people in the community most affected by the policy decisions have been excluded from the process Managing Decline reveals the stratified effects as well as compensation for the different groups in Yubari Although the policy settlement package goes to the coal miners community redevelopment ignores their needs prompting them to leave the city and benefiting instead land owners and public employees Revealed as well as the ways in which Japan s cultural values particularly the vertical social structure as it affects decision making status occupations and company organization and the importance of maintaining the family system figure in the policy process and its consequences The author s research based on two years residence in Yubari during the last few years of the closures makes an important contribution to community studies of social change in Japan It is also the first field study to examine the effects of industrial policy for restructuring in Japan at the worker and community level Free Market/spec Sale/avail Hard Only Terry L. Anderson,2019-04-11 Although there is in the United States a clear national consensus supporting the protection of the environment advocates often profoundly disagree about the policies best designed to achieve this end The traditional answer has been that government must intervene through legislation and regulation of behavior to preserve environmental values Th The Rise of the Entrepreneurial State Peter K. Eisinger,1988 The Rise of the Entrepreneurial State charts the development of state and local government initiatives to influence the market and strengthen economic development policies This trend marked a decisive break from governments traditionally small role in the affairs of private industry that defined the relationship between the public and private sector for the first half of the twentieth century The turn to state and local government intervention signaled a change in subnational politics that in many ways transcended partisan politics regional distinctions and racial alliances Eisinger s meticulous research uncovers state and local governments transition from supply side to demand side strategies of market creation He shows that instead of relying solely on the supply side strategies of tax breaks and other

incentives to encourage business relocation some governments promoted innovation and the creation of new business approaches     **Industrial Policies--strategy Debate Since 1970** ,1985     *The New China* Alvin Rabushka,Michael Kress,2019-06-18 In a thoroughly researched and clearly written account of the development experiences of mainland China Taiwan and Hong Kong Alvin Rabushka examines three societies with similar populations but very different political and economic institutions Rejecting one dimensional explanations of successful development Rabushka looks at the way in which

**A London Bibliography of the Social Sciences** ,1931 Vols 1 4 include material to June 1 1929     **Journal of Economic Literature** ,1984     **Plant Closings** Dena Targ,2020-04-29 PLANT CLOSED A sign of the times These two words have had profound meaning for workers in every factory and office across the country Millions of workers who have already been displaced by closings have had to pick up the pieces of shattered lives and get on with the business of living Those who are still working are faced with the insecurity of wondering whether they might find the gates closed some morning when they arrive at work The number of plant closings and the threat of future closings have raised many questions What has been happening to the American economy that has resulted in major companies closing their doors What forces within the international and national political economies are converging to reshape the labor force eliminating jobs in manufacturing and expanding employment in the lower wage insecure manufacturing sector What happens to displaced workers their families and the community in which they work In *Plant Closings* the authors examine the reasons plants close and the social economic and psychological consequences A variety of causes are identified including capital flight decreasing profit rates and the pursuit of lower labor costs Through the analysis of a case study the authors examine the changing health patterns political attitudes and financial stability of displaced workers There is also discussion of the impact on the community at large and on the individual institutions within the community Finally the authors analyze legislation that addresses the human and social costs of unemployment Carolyn C Perrucci is professor of sociology in the Department of Sociology and Anthropology at Purdue University Robert Perrucci is professor of sociology in the Department of Sociology and Anthropology at Purdue University Dena B Targ is professor in the Department of Child Development and Family Studies at Purdue University Harry R Targ is professor in the Department of Political Science at Purdue University     **The American Economic Review** ,1984 Includes annual List of doctoral dissertations in political economy in progress in American universities and colleges and the Hand book of the American Economic Association     Journal of Legal Studies in Business ,1995     Prosperity Lost Phillip Mattera,Philip Mattera,1991     **Public Administration Series--Bibliography** ,1989-07     *Research in Community and Mental Health* Roberta G. Simmons,1990
