Fulgentius The Mythographer:

Fulgentius the Mythographer, 1971 *Fulgentius the Mythographer* Wilbur Devereux Jones, Fabius Planciades Fulgentius, Arvel B. Erickson, 1971 Sir Robert Peel 2nd Baronet 5 February 1788 2 July 1850 was a British Conservative statesman who served as Prime Minister of the United Kingdom from 10 December 1834 to 8 April 1835 and also from 30 August 1841 to 29 June 1846 While Home Secretary Peel helped create the modern concept of the police force leading to officers being known as Bobbies in England and Peelers in Northern Ireland As Prime Minister Peel issued the Tamworth Manifesto 1834 during his brief first period in office leading to the formation of the Conservative Party out of the shattered Tory Party in his second administration he repealed the Corn Laws Wikipedia **Fulgentius the Mythographer** Bradford Gregory Hays, 1996 Werke, engl. Fulgentius the mythographer Fabius Planciades Fulgentius, Leslie George Whitbread, 1971 **Greek Mythography in the Roman World** Alan Cameron, 2004-09-02 By the Roman age the traditional stories of Greek myth had long since ceased to reflect popular culture Mythology had become instead a central element in elite culture If one did not know the stories one would not understand most of the allusions in the poets and orators classics and contemporaries alike nor would one be able to identify the scenes represented on the mosaic floors and wall paintings in your cultivated friends houses or on the silverware on their tables at dinner Mythology was no longer imbibed in the nursery nor could it be simply picked up from the often oblique allusions in the classics It had to be learned in school as illustrated by the extraordinary amount of elementary mythological information in the many surviving ancient commentaries on the classics notably Servius who offers a mythical story for almost every person place and even plant Vergil mentions Commentators used the classics as pegs on which to hang stories they thought their students should know A surprisingly large number of mythographic treatises survive from the early empire and many papyrus fragments from lost works prove that they were in common use In addition author Alan Cameron identifies a hitherto unrecognized type of aid to the reading of Greek and Latin classical and classicizing texts what might be called mythographic companions to learned poets such as Aratus Callimachus Vergil and Ovid complete with source references Much of this book is devoted to an analysis of the importance evidently attached to citing classical sources for mythical stories the clearest proof that they were now a part of learned culture So central were these source references that the more unscrupulous faked them sometimes on the grand scale Ekphrastic Image-making in Early Modern Europe, 1500-1700 Arthur J. DiFuria, Walter Melion, 2021-12-20 In epideictic oratory ekphrasis is typically identified as an advanced rhetorical exercise that verbally reproduces the experience of viewing a person place or thing more specifically it often purports to replicate the experience of viewing a work of art Not only what was seen but also how it was beheld and the emotions attendant upon first viewing it are implicitly construed as recoverable indeed reproducible This volume examines how and why many early modern pictures operate in an ekphrastic mode such pictures claim to reconstitute works of art that solely survived in the textual form of an ekphrasis or they invite the beholder

to respond to a picture in the way s he responds to a stirring verbal image or they call attention to their status as an image in the way that ekphrasis as a rhetorical figure makes one conscious of the process of image making or finally they foreground the artist s or the viewer s agency in the way that the rhetor or auditor is adduced as agent of the image being verbally produced Contributors Carol Elaine Barbour Ivana Bi ak Letha Ch ien James Clifton Teresa Clifton Karl Enenkel Arthur DiFuria Christopher Heuer Barbara Kaminska Annie Maloney Annie McEwen Walter Melion Lars Cyril N rgaard Dawn Odell April Oettinger Shelley Perlove Stephanie Porras Femke Speelberg Caecilie Weissert Elliott Wise and Steffen Zierholz

Medieval Mythography, Volume One Jane Chance,2019-11-26 The mythic world of Juno Jupiter s consort is one of flesh and begetting of suffering and death and of poetry itself Exploring the relationship between that realm of the classical gods and the sphere of medieval mythographers Jane Chance illuminates the efforts of medieval writers to understand human existence and the forces of nature in relation to Christian truth

The Power of Religion in Late Antiquity Andrew Cain,2016-09-17 Late Antiquity witnessed a dramatic recalibration in the economy of power and nowhere was this more pronounced than in the realm of religion The transformations that occurred in this pivotal era moved the ancient world into the Middle Ages and forever changed the way that religion was practiced The twenty eight studies in this volume explore this shift using evidence ranging from Latin poetic texts to Syriac letter collections to the iconography of Roman churches and Merovingian mortuary goods They range in chronology from the late third through the early seventh centuries AD and apply varied theories and approaches All converge around the notion that religion is fundamentally a discourse of power and that power in Late Antiquity was especially charged with the force of religion The articles are divided into eight sections which examine the power of religion in literature theurgical power over the divine emperors and the deployment of religious power limitations on the power of the ecclesiastical hierarchy the use of the cross as a symbol of power Rome and its transformation as a center of power the power of religion in the barbarian west and religious power in the communities of the east This kaleidoscope of perspectives creates a richly illuminating volume that add a new social and political dimension to current debates about religion in Late Antiquity

The Fortunes of Apuleius and the Golden Ass Julia Haig Gaisser,2021-06-08 This book traces the transmission and reception of one of the most influential novels in Western literature The Golden Ass the only ancient Roman novel to survive in its entirety tells of a young man changed into an ass by magic and his bawdy adventures and narrow escapes before the goddess Isis changes him back again Its centerpiece is the famous story of Cupid and Psyche Julia Gaisser follows Apuleius racy tale from antiquity through the sixteenth century tracing its journey from roll to codex in fourth century Rome into the medieval library of Monte Cassino into the hands of Italian humanists into print and finally over the Alps and into translation in Spanish French German and English She demonstrates that the novel s reception was linked with Apuleius reputation as a philosopher and the persona he projected in his works She relates Apuleius and the Golden Ass to a diverse cast of important literary and historical figures including Augustine Fulgentius Petrarch Boccaccio Bessarion

Boiardo and Beroaldo Paying equal attention to the novel's transmission how it survived and its reception how it was interpreted she places the work in its many different historical contexts examining its representation in art literary imitation allegory scholarly commentary and translation The volume contains several appendixes including an annotated list of the manuscripts of the Golden Ass This book is based on the author's Martin Classical Lectures at Oberlin College in 2000

The Fragments of the Roman Historians Tim Cornell, Edward Bispham, John Rich, 2013 This title is a definitive and comprehensive edition of the fragmentary texts of all the Roman historians whose works are lost Historical writing was an important part of the literary culture of ancient Rome and its best known exponents including Sallust Livy Tacitus and Suetonius provide much of our knowledge of Roman history However these authors constitute only a small minority of the Romans who wrote historical works from around 200 BC to AD 250 In this period we know of more than 100 writers of history biography and memoirs whose works no longer survive for us to read They include well known figures such as Cato the Elder Sulla Cicero and the emperors Augustus Tiberius Claudius Hadrian and Septimius Severus Page 4 of cover

Vergil and the Trinity Thomas W. Dilbeck, 2025-09-12 This volume reveals how some Christian authors used the poetry of Vergil to explain important aspects of the three persons of the trinity shedding new light on the attitudes of early Christians towards non Christian texts Readers gain insight into how Christians employed the work of Rome's most famous poet in discussions about the trinity which one might assume were only limited to the use of canonical scripture The book explores why these authors relied upon Vergil in particular and which portions of his corpus interested them before analysing several examples in order to accurately contextualise how Vergil's work was cited and employed by the Latin Fathers in their own work These Christian authors writing in Latin used Vergil for more substantive reasons than rhetorical ornamentation and Dilbeck argues that they formed a textual community which included his works Written in accessible prose Vergil and the Trinity is of interest to not only to those working in the field of patristics but also to classical scholars biblical scholars readers interested in the history of biblical interpretation and in the history of philosophy

The Bible in Christian North Africa Jonathan P. Yates, Anthony Dupont, 2023-11-06 This second volume delves into the intricate dynamics that surrounded the use of Scripture by North African Christians from the late fourth to the mid seventh century CE It focuses on the multivalent ways in which Scripture was incorporated into the fabric of ecclesial existence and theological reflection as well as on Scripture's role in informing and supporting these Christians decision making processes This volume also highlights the intricate theological and philosophical deliberations that were carried out between and among influential North African Christian leaders and scholars in diverse cultural and geopolitical settings while paying attention to the complex manner in which these Scripture laden discourses intersected the wide variety of religious opinions and ecclesiastical and or theological movements that so clearly marked this region in this era

The Catechumenate in Late Antique Africa (4th -6th centuries) Matthieu Pignot, 2020-07-13 In *The Catechumenate in Late Antique Africa 4th 6th centuries* Matthieu Pignot explores how

individuals became Christian in ancient North Africa Before baptism converts first became catechumens and spent a significant time of gradual integration into the community through rituals and teaching This book provides the first historical study of this process in African sources from Augustine of Hippo to canon of councils anonymous sermons and 6th century letters Pignot shows that practices varied more than is generally assumed and that catechumens because of their liminal position were a disputed and essential group in the development of Christian communities until the 6th century at least This book demonstrates that the catechumenate is key to understanding the processes of Christianisation and conversion in the West

Staying Roman Jonathan Conant, 2012-04-12 What did it mean to be Roman once the Roman Empire had collapsed in the West Staying Roman examines Roman identities in the region of modern Tunisia and Algeria between the fifth century Vandal conquest and the seventh century Islamic invasions Using historical archaeological and epigraphic evidence this study argues that the fracturing of the empire's political unity also led to a fracturing of Roman identity along political cultural and religious lines as individuals who continued to feel Roman but who were no longer living under imperial rule sought to redefine what it was that connected them to their fellow Romans elsewhere The resulting definitions of Romanness could overlap but were not always mutually reinforcing Significantly in late antiquity Romanness had a practical value and could be used in remarkably flexible ways to foster a sense of similarity or difference over space time and ethnicity in a wide variety of circumstances

The Arts of Disruption Nicolette Zeeman, 2020-07-22 The monograph series Oxford Studies in Medieval Literature and Culture showcases the plurilingual and multicultural quality of medieval literature and actively seeks to promote research that not only focuses on the array of subjects medievalists now pursue in literature theology and philosophy in social political jurisprudential and intellectual history the history of art and the history of science but also that combines these subjects productively It offers innovative studies on topics that may include but are not limited to manuscript and book history languages and literatures of the global Middle Ages race and the post colonial the digital humanities media and performance music medicine the history of affect and the emotions the literature and practices of

devotion the theory and history of gender and sexuality ecocriticism and the environment theories of aesthetics medievalism

The Arts of Disruption Allegory and Piers Plowman offers a series of new readings of the allegorical poem Piers Plowman but it is also a book about allegory It argues not just that there are distinctively disruptive arts that occur in allegory but that allegory because it is interested in the difficulty of making meaning is itself a disruptive art The book approaches this topic via the study of five medieval allegorical narrative structures that exploit diegetic conflict and disruption Although very different they all bring together contrasting descriptions of spiritual process in order to develop new understanding and excite moral or devotional change These five structures are the paradiastolic hypocritical figure such as vices masked by being made to look like adjacent virtues personification debate violent language and gestures of apophasis narratives of bodily decline and grail romance Each appears in a range of texts which the book explores along with other connected materials in medieval rhetoric logic grammar spiritual thought ethics medicine and romance iconography These allegorical narrative structures appear radically transformed in Piers Plowman where the poem makes further meaning out of the friction between them Much of the allegorical work of the poem occurs at the points of their intersection and within the conceptual gaps that open up between them Ranging across a wide variety of medieval allegorical texts the book shows from many perspectives allegory's juxtaposition of the heterogeneous and its questioning of supposed continuities

Ancient African Christianity David E. Wilhite, 2017-07-14 Christianity spread across North Africa early and it remained there as a powerful force much longer than anticipated While this African form of Christianity largely shared the Latin language and Roman culture of the wider empire it also represented a unique tradition that was shaped by its context Ancient African Christianity attempts to tell the story of Christianity in Africa from its inception to its eventual disappearance Well known writers such as Tertullian Cyprian and Augustine are studied in light of their African identity and this tradition is explored in all its various expressions This book is ideal for all students of African Christianity and also a key introduction for anyone wanting to know more about the history religion and philosophy of these early influential Christians whose impact has extended far beyond the African landscape

Roman Barbarians Y. Hen, 2007-11-09 This study investigates the place of the royal court and the operation of patronage in several European kingdoms in the early Middle Ages It seeks to identify the roots of later medieval developments and especially of the Carolingian Renaissance in the centuries immediately succeeding the period of Roman rule

The Shadow of Creusa Anders Cullhed, 2015-04-24 Anders Cullhed's study The Shadow of Creusa explores the early Christian confrontation with pagan culture as a remote anticipation of many later clashes between religious orthodoxy and literary fictionality After a careful survey of Saint Augustine's critical attitudes to ancient myth and poetry summarized as a long drawn out farewell Cullhed examines other Late Antique dismissals as well as appropriations of the classical heritage Macrobius Martianus Capella and Boethius figure among the Late Antique intellectuals who attempted to save or even restore the old mythology by means of allegorical representation On the other hand pious poets such as

Paulinus of Nola and Bible epic writers such as Iuvencus or Avitus of Vienne turned against pagan lies and the mighty archbishop of Milan Saint Ambrose played off unconditional Christian truth against the last Roman strongholds of cultural pluralism. Thus *The Shadow of Creusa* elucidates a cultural conflict which was to leave traces all through the Middle Ages and reach down to our present day.
