**The Lunisolar Calendar: A Sociology of Japanese Time** Jessica Kennett Cork, 2011-06-25 This study shall explore the social and political significance of the so called *kyureki* the Japanese lunisolar calendar that was abolished by the Meiji government in 1872 This calendar was the principal method of timekeeping in Japan from 604 to 1872 but has received little attention from English speaking scholars This study argues that the study of the lunisolar calendar is essential to gaining a comprehensive understanding of pre Meiji society and political history Chapter 1 uses a detailed analysis of an actual lunisolar calendar coupled with passages from pre Meiji historical and literary texts to show that the lunisolar calendar reflects the value pre Meiji society placed on minute seasonal changes the phases of the moon and divination controlled by various directional deities It shall also demonstrate how an understanding of the lunisolar calendar is vital to fully comprehend classical Japanese texts Chapter 2 explores how calendar reform has been enacted throughout Japanese history to promote the values of new political regimes Chapter 3 discusses the state of the lunisolar calendar in modern Japan first analyzing how the calendar survived the Meiji government's attempt to obliterate it and the effect the Meiji calendar reform had on how the lunisolar calendar is understood today It then discusses how the current revival of interest in the lunisolar calendar reflects the value modern society places on nostalgia for the past which has arisen as part of the modernization process
