where scientists teachers artists and activists claim to create more democratic access to science from DIY biology community labs to feminist classrooms to activist science practitioners The reader will find that these claims for and attempts at democratic sciences not only impact what counts as science and who counts as a scientist but reconfigure who is included in the proper public Instead of arguing for a knee jerk defense of science against right wing attacks Labs of Our Own builds the case for a feminist antiracist decolonial queer science tinkering practice that intentionally politically and ethically acts to produce new challenges to the definition and boundaries of the human

**Funny Science Discoveries** Eleanor Hawking, AI, 2025-02-12 Funny Science Discoveries explores the amusing side of scientific inquiry within biology and life sciences revealing unexpected findings and challenging our understanding of the natural world The book emphasizes the human element in science highlighting that discoveries aren't always groundbreaking theories but can be peculiar phenomena found hiding in plain sight It underscores the importance of open mindedness in challenging established ideas The book progresses across chapters beginning with an exploration into unexpected biology including the concept of plant communication via chemical signals It then examines animals exhibiting unusual behaviors seemingly defying physics such as those surviving in extreme conditions Finally it delves into cognitive biases influencing the interpretation of scientific data This approach demonstrates that even seemingly ridiculous scientific findings can offer valuable insights into complex biological systems The value of Funny Science Discoveries lies in its atypical approach embracing quirks and unconventional findings to make science both informative and entertaining fostering scientific literacy and critical thinking By presenting debates within the scientific community the book promotes a deeper understanding of the scientific process itself
