Fund Economics HCB Toby Miller, 1995-06 **Banking and Financial Control in Reforming Planned Economies** Haiqun Yang, 2015-12-29 This book analyses the advantages and disadvantages of the banking system reforms with particular reference to centrally planned economies The book reviews the socialist banking reforms and analyses their financial problems Employing a critical exposition of banking theories it assesses current financial disorders and takes issue with some established theories The Palgrave Companion to Harvard Economics Robert A. Cord, 2024-07-05 Harvard University has been and continues to be one of the most important global centres for economics With three chapters on themes in Harvard economics and 41 chapters on the lives and work of Harvard economists these two volumes show how economics became established at the University how it produced some of the world's best known economists including Joseph Schumpeter Wassily Leontief and John Kenneth Galbraith and how it remains a global force for the very best in teaching and research in economics With original contributions from a stellar cast the volumes provide economists especially those interested in macroeconomics and the history of economic thought with an in depth analysis of Harvard economics *Far Eastern Economic Review*, 1990 **Middle East Economic Digest**, 1979 **The Political Economy of HIV/AIDS in Developing Countries** Benjamin Coriat, 2008-01-01 The issue of universal and free access to treatment is now a fundamental goal of the international community Based on original data and field studies from Brazil Thailand India and Sub Saharan Africa under the aegis of ANRS the French national agency for research on Aids and viral hepatitis this timely and significant book both assesses the progress made in achieving this objective and presents a rigorous diagnosis of the obstacles that remain Placing particular emphasis on the constraints imposed by TRIPS as well as the poor state of most public health systems in Southern countries the contributing authors provide a comprehensive analysis of the huge barriers that have yet to be overcome in order to attain free access to care and offer innovative suggestions of how they might be confronted In doing this the book renews our understanding of the political economy of HIV AIDS in these vast regions where the disease continues to spread with devastating social and economic consequences This volume will be a valuable addition to the current literature on HIV AIDS in developing countries and will find widespread appeal amongst students and academics studying economics sociology and public health It will also be of interest to international organizations and professional associations involved in the fight against pandemics **The Cambridge University Calendar** University of Cambridge, 1928 The Economist, 1908 **A Sustainable Future for the Mediterranean** Guillaume Benoit, Aline Comeau, 2012-08-21 Here's a work arriving just at the right moment and contributing new insights at precisely the time when public opinion remains sceptical of the not very promising future we are preparing for our children when governments balk at explaining to their electorates the vital but unpopular decisions that have to be taken and when civil society with few ways and means is finally becoming involved This remarkable work will help all actors to understand the inter linkages between

economic activities and the environment in the Mediterranean Basin and take concerted effective action to build a positive sustainable future Mohamed Ennabli former Minister of the Environment and Land Use Planning Tunisia The Blue Plan has carried out a remarkable assessment of the serious environmental problems and insufficiently targeted cooperation in the Mediterranean and also of new financing systems to be implemented which would increase the capacities of local authorities and economic and social partners Georges Corm former Minister of Finance Lebanon The Mediterranean Basin and its surrounding countries is a microcosm of the environmental and sustainability challenges facing people across the world Depending on the development path it takes in the future the region can either become a positive model for the regional regulation of globalization or more onerously it might reinforce global instability This unique volume is the definitive authoritative assessment of the environment and development of the Mediterranean Basin and its 22 countries and territories spanning five decades from 30 years in the past to 20 years into the future Produced by the Blue Plan within the framework of UNEP Mediterranean Action Plan and backed by the EU and national governments it brings together the work of more than 100 researchers from dozens of national regional and local governments and research groups into the only comprehensive insight into sustainable development issues in the region Core coverage includes water energy transport cities rural and coastal areas as well as related issues such as climate change population growth geopolitical changes unemployment and poverty pollution economic and environmental policies regional cooperation and the Euro Mediterranean Partnership Information is clearly presented through hundreds of full colour maps graphs tables and a wealth of case studies This is a must have reference for all levels of government NGOs and libraries as well as practitioners academics and businesses involved in economics natural resource management land and maritime transport water energy infrastructure urban and rural development agriculture fishing and aquaculture tourism and coastal management Countries and territories covered Spain France Italy Monaco Malta Cyprus Slovenia Croatia Bosnia Herzegovina Serbia and Montenegro Albania Greece Turkey Syria Lebanon Palestinian Territories Israel Egypt Libya Tunisia Algeria and Morocco Preface by Lucien Chabason Chairman of the Blue Plan
