of reality that is to say of science His observations specifically refer to astronomy and physiology as discussed in texts dating between 1500 BC and 500 BC This statement is also applicable to Vrikshayurveda as both astronomy and plant physiology are important components of it Further research based on the principles of Vrikshayurveda is essential because if the future of mankind is organic then its foundation lies in Vrikshayurveda Hymns of Tulsidas Tulasīdāsa,2008
