The Judiciary, Discrimination Law and Statutory Interpretation Michael Connolly, 2018-08-30 In 1856 the US Supreme Court denied Dred Scott now free of slavery his Constitutional rights solely because he was black According to the Court when the Constitution was drafted some 60 years earlier its authors would not have intended that a subordinate and inferior class of beings qualified as citizens of the United States Thus the meaning of language drafted over half a century before was frozen in time This case perhaps more than any other demonstrates that the matter of statutory interpretation is critical technical and sometimes highly emotive The case is not a mere nugget from history to indulge our disgust with values of another age and with it a satisfaction of our progress to today s higher moral ground It is the unfortunate case that the senior courts of England continue to produce highly contentious interpretations of our equality and discrimination laws This book examines these cases from the perspective of statutory interpretation the judge's primary function. The scrutiny finds the judgments technically flawed overcomplicated excessively long and often unduly restrictive As such this book explains how the cases should have been resolved using conventional methods of interpretation this would have produced simpler technically sound judgments Rather like the case of Dred Scott these were easy cases producing bad law The Critique of Judgement Immanuel Kant, 2009-02 Immanuel Kant 1724 1804 was a German philosopher and scientist from East Prussia regarded as one of the most influential thinkers of modern Europe and the last major philosopher of the Enlightenment In 1781 his Critique of Pure Reason was published Although now uniformly recognized as one of the greatest works in the history of philosophy this Critique was largely ignored upon its initial publication Kant developed his moral philosophy in three main works Fundamental Principles of the Metaphysic of Morals 1785 The Critique of Practical Reason 1788 and The
