Fundamental Ethics A Liberationist Approach:

Fundamental Ethics Patricia McAuliffe, 1993 In this stimulating rethinking of the basic foundations of ethics Patricia McAuliffe derives a fundamental ethic from liberation theology She asserts that the experience of resisting suffering especially oppressive social suffering must be brought from the fringe to the very center of ethics Arguing for the conceptual priority of ethics over religion McAuliffe defines an innovative ethic based on experience and practice Ethics precedes religion and theology because experience and practice precede theory and interpretation which are the human activities of religion and theology knowledge is based on experience She proposes that ethics can be independent of religion but that while her liberationist ethic can be either Christian or universal finally the poor and oppressed are the paradigm source of the disclosure of God and of final salvation In rethinking the basic foundations of ethics she compares a liberationist ethic including Latin American and women's liberation theology with various classical ethics and examines and critiques the works of Edward Schillebeeckx Juan Luis Segundo Dorothee Soelle James Gustafson and George Lindbeck McAuliffe offers a flexible ethic that balances the absolute and the relative the particular and the universal personal and social creativity and conditioning practice and theory and the ethical and religious Combining superior scholarship with an original and creative approach to ethics this book is likely to create debate in the fields of fundamental ethics theology and philosophy

Liberation Ethics Thomas Louis Schubeck, 1993-01-01 Thoroughly researched critically reasoned and well written Schubeck's book is a model of caring and careful discernment Arthur McGovern University of Detroit

Feminist Ethics and Natural Law Cristina L. H. Traina, 1999-04-28 Heated debates over such issues as abortion contraception ordination and Church hierarchy suggest that feminist and natural law ethics are diametrically opposed Cristina L H Traina now reexamines both Roman Catholic natural law tradition and Anglo American feminist ethics and reconciles the two positions by showing how some of their aims and assumptions complement one another After carefully scrutinizing Aquinas's moral theology she analyzes trends in both contemporary feminist ethics theological as well as secular and twentieth century Roman Catholic moral theology Although feminist ethics reject many of the methods and conclusions of the scholastic and revisionist natural law schools Traina shows that a truly Thomistic natural law ethic nonetheless provides a much needed holistic foundation for contemporary feminist ethics On the other hand she offers new perspectives on the writings of Josef Fuchs Richard McCormick and Gustavo Gutierrez arguing that their failure to catch the full spirit of Thomas's moral vision is due to inadequate attention to feminist critical methods This highly original book proposes an innovative union of two supposedly antagonistic schools of thought a new feminist natural law that would yield more comprehensive moral analysis than either existing tradition alone This is a provocative book not only for students of moral theology but also for feminists who may object to the very notion of natural law ethics suggesting how each might find insight in an unlikely place

The Nature of Theology Haight SJ, Roger, 2022-09-08 Describes the logic of Christian theology by sidestepping an abstract

analysis of the discipline and offering a relatively clear structure of the discipline of theology that is responsive to our current situation **Unbroken Communion** Kathleen Anne McManus,2004-01-01 The reality of suffering is the greatest challenge

to faith in the goodness of creation and the possibility of salvation Edward Schillebeeckx not only takes this into account but dialectically incorporates the reality of suffering into a theology generally defined by its focus on the interrelated themes of creation salvation and eschatological hope In *Unbroken Communion* Kathleen Anne McManus O P traces the origins of Schillebeeckx's thought its development and its consequences Schillebeeckx grounds his entire theological project in the promise of a divine human future made visible in creation and entrusted to human freedom Because suffering is so tangibly present in human experience it provides the means dialectically of imaging the horizon of our hope It is thus that

Schillebeeckx turns suffering into hope **Spiritual and Religious** Haight, Roger,2016-02-09 *A Just Peace Ethic Primer* Eli S. McCarthy,2020-05-01 The just peace movement offers a critical shift in focus and imagination Recognizing that all life is sacred and seeking peace through violence is unsustainable the just peace approach turns our attention to rehumanization participatory processes nonviolent resistance restorative justice reconciliation racial justice and creative strategies of active nonviolence to build sustainable peace transform conflict and end cycles of violence *A Just Peace Ethic Primer* illuminates a moral framework behind this praxis and proves its versatility in global contexts With essays by a diverse group of scholars *A Just Peace Ethic Primer* outlines the ethical theological and activist underpinnings of a just peace ethic These essays also demonstrate and revise the norms of a just peace ethic through conflict cases involving US immigration racial and environmental justice and the death penalty as well as gang violence in El Salvador civil war in South Sudan ISIS in Iraq gender based violence in the Democratic Republic of Congo women led activism in the Philippines and ethnic violence in Kenya *A Just Peace Ethic Primer* exemplifies the ecumenical interfaith and multicultural aspects of a nonviolent approach to preventing and transforming violent conflict Scholars advocates and activists working in politics history international law philosophy theology and conflict resolution will find this resource vital for providing a fruitful framework and implementing a creative vision of sustainable peace *The Catholic Social Imagination* Joseph M. Palacios,2008-11-15 The reach of the Catholic Church is arguably greater than that of any other religion extending across diverse political ethnic class and cultural boundaries But what is it about Catholicism that resonates so profoundly with followers who live under disparate conditions What is it for instance that binds parishioners in America with those in Mexico For Joseph M Palacios what unites Catholics is a sense of being Catholic a social imagination that motivates them to promote justice and build a better world In *The Catholic Social Imagination* Palacios gives readers a feeling for what it means to be Catholic and put one's faith into action Tracing the practices of a group of parishioners in Oakland California and another in Guadalajara Mexico Palacios reveals parallels and contrasts in the ways these ordinary Catholics receive and act on a church doctrine that emphasizes social justice Whether they are building a supermarket for the low income elderly or waging protests to promote school reform these

parishioners provide important insights into the construction of the Catholic social imagination Throughout Palacios also offers important new cultural and sociological interpretations of Catholic doctrine on issues such as poverty civil and human rights political participation and the natural law

Virtue Charles E. Curran, Lisa Fullam, 2011 This edited volume focuses on virtue using the same perspective that has characterized the previous fifteen volumes in the prestigious series Readings in Moral Theology from Paulist Press begun by Charles E Curran and Richard A McCormick in 1979 This volume brings together fourteen previously published articles dealing in a comprehensive manner with the important topic of the role of virtue in moral theology and the Christian life The contributors to this volume include the most important figures in Catholic moral theology who have written about virtue In addition the authors represented here come from the different theological perspectives found in moral theology today The first part deals with the role of virtue in general beginning with an overview of the seminal work of Thomas Aquinas A second chapter explains the important work of Alasdair MacIntyre while the last two chapters in this part come from the Catholic and feminist perspectives The three chapters in the second part discuss the role of the various virtues in three different spheres of human existence professional life sexuality and ecology The third part develops in some depth the significant particular virtues of charity justice prudence courage and humility

Happiness and the Christian Moral Life Paul J. Wadell, 2012-02-16 Happiness and the Christian Moral Life introduces students to Christian Ethics looking at ethics as a path to the good life and happiness rather than a strict set of rules or regulations Revised and updated throughout the second edition maintains the book's distinctive focus on happiness Each chapter now features a list of suggested readings to point students and instructors towards further resources Other changes to the second edition include a more fully developed account of Augustine's understanding of happiness new discussions of how technology shapes relationships and happiness and consideration of the relationship between the natural law and the virtues

Deconstructing Undecidability Michael Oliver, 2020-02-06 Advancing current readings of the deconstructive work of Jacques Derrida Deconstructing Undecidability critically explores the problematic nature of decision including the inherent exclusivity that accompanies any decision In discourses where a pursuit of justice or liberation from systemic oppression is a primary concern Michael Oliver argues for an appreciation of the inescapability of making limited difficult decisions for particular forms of justice Oliver highlights a similarly precarious predicament in the context of philosophical and religious negotiations of divine decision pointing to the impossibility of safely navigating this issue While wholeheartedly affirming the problem of exclusivity that inevitably accompanies decision this book offers a renewed sense of undecidability that highlights a mistaken illusory position of indecision as a reflection of power and privilege Ultimately this book aims to gain a greater appreciation for the complexity of the problem of decision in order to be more rigorous and transparent in our continued engagement with it

T&T Clark Handbook of Edward Schillebeeckx Stephan van Erp, Daniel Minch, 2019-09-05 Written by leading experts on both the thought of Edward Schillebeeckx and modern theology this handbook offers the first

comprehensive study of the historical philosophical political and theological aspects of Schillebeeckx's work. As one of the most influential Catholic theologians of the twentieth century, he played a key role in the preparations for the theological revolution of the Second Vatican Council and the debates of the post-conciliar era. His engagement with critical theory, hermeneutics, and biblical scholarship culminated in his groundbreaking Christological trilogy, which marked Schillebeeckx as one of the most significant and innovative thinkers of his time. By building an overview of recent research into Schillebeeckx's writing, the contributors shed new light on his influence and ongoing relevance in contemporary theology. Beginning with the roots of Schillebeeckx's views on metaphysics, spirituality, and faith, the essays then move to his work during and after the Second Vatican Council and then to his engagement with new directions in philosophy and his renewal of classical topics such as creation, theological and soteriological anthropology, and eschatology. Culminating with an analysis of theology and culture, this handbook thoroughly explores the implications of Schillebeeckx's theology for a contemporary readership.

Pastoral Care and Liberation Theology Stephen Pattison, 1994-03-10. This is the first book to show how Latin American liberation theology can be applied to and can transform pastoral care in countries such as Britain and the USA. Hitherto, pastoral care has tended to concentrate on looking after individuals. Stephen Pattison suggests that much of the suffering endured by individuals is actually socially and politically caused and so is avoidable if the appropriate action is taken. The author argues that what we now require is a socio-politically aware and committed pastoral care which makes an option for oppressed and poor people and engages in practical struggle against the forces of injustice and oppression. Focussing as it does especially on mentally ill people and on women, the book will be of interest to all those who want to broaden their vision and knowledge of liberation theology or pastoral care, whether theologians, pastors, students, for ministry, members of caring professions, or users of the services they provide.

Ethics and Liberation Charles L. Kammer, 2002-12-26. The introduction to the nature and purpose of Christian ethics presents an ethical theory consistent with the fundamental insights of the Christian tradition. *Ethics and Liberation* outlines an ethic which provides guidelines for responsible stands on contemporary issues, be they personal or socio-political. Exploring both the strengths and weaknesses of traditional Christian ethics, Kammer proposes going beyond them to an ethic of theonomous responsibility, one based on the precepts of liberation theology. Stressing the socio-political dimension of ethics, Kammer follows the threads of Christian tradition that led to an emphasis on personal salvation and a neglect of social issues. Finally, he traces the path from Christian realism through liberation theology. *Ethics and Liberation* concludes with a discussion of two serious test cases in contemporary moral issues: the distribution of health care and nuclear disarmament.

The Aesthetics and Ethics of Faith Christopher D. Tirres, 2014-04. This groundbreaking work presents the first sustained discussion of the connections between two quintessentially American traditions: liberation theology and pragmatism. It explores the dynamic relationship between the aesthetic and ethical dimensions of faith practice with a focus on the liberating potential of religious ritual.

Healing the Racial Divide Lincoln

Rice,2014-10-23 Healing the Racial Divide retrieves the insights of Dr Arthur Falls 1901 2000 for composing a renewed theology of Catholic racial justice Falls was a black Catholic medical doctor who dedicated his life to healing rifts created by white supremacy and racism He integrated theology the social sciences and personal experience to compose a salve that was capable of not only integrating neighborhoods but also eradicating the segregation that existed in Chicago hospitals Falls was able to reframe the basic truths of the Christian faith in a way that unleashed their prophetic power He referred to those Catholics who promoted segregation in Chicago as believers in the mythical body of Christ as opposed to the mystical body of Christ The mythical body of Christ is a heretical doctrine that excludes African Americans and promotes the delusion that white people are the normative measure of the Catholic faith **Secularization in Contemporary Religious Radicalism**

Corneliu Simut,2019-05-21 The concept of secularization has grown to become one of the most important features of contemporary religious thought This book introduces and examines the thinking of sixteen key theologians philosophers and historians of religion to explain a why by the late nineteenth century the traditional concept of God as an ontologically real being came to be considered no longer necessary and b how the new perspective on God which accepts him only as an idea turned into the preferred approach of today s religion and philosophy namely religious radicalism *Human Becoming in an*

Age of Science, Technology, and Faith Philip Hefner,2022-08-23 What does it mean to be human in an age of science technology and faith The ability to ask such a question suggests at least a partial answer in that however we describe ourselves we bear a major role in determining what we will become In this book Philip Hefner reminds us that this inescapable condition is the challenge and opportunity of Homo sapiens as the created co creator In four original chapters and an epilogue Hefner frames the created co creator as a memoirist with an ambiguous legacy explores some of the roots of this ambiguity emphasizes the importance of answering this ambiguity with symbols that can interpret it in wholesome ways proposes a partial theological framework for co creating such symbols and applies this framework to the challenge of using technology like artificial intelligence and robotics to create other co creators in our own image Editors Jason P Roberts and Mladen Turk have compiled eight responses to Hefner s work to honor his scholarly career and answer his call to help co create a more wholesome future in an age of science technology and faith *Rationality, Virtue, and Liberation* Stephen

Petro,2013-11-19 This book explores the overlooked but vital theoretical relationships between R M Hare Alan Gewirth and J rgen Habermas The author claims their accounts of value while failing to address classic virtue theoretical critiques bear the seeds of a resolution to the ultimate question What is most valuable These dialectical approaches as claimed justify a reinterpretation of value and value judgment according to the Carnapian conception of an empirical linguistic framework or grammar Through a further synthesis with the work of Philippa Foot and Thomas Magnell the author shows that value would be literally meaningless without four fundamental phenomena which constitute such a framework Logical Judgment Conceptual Synthesis Conceptual Abstraction and Freedom As part of the grammar of goodness the excellence of these

phenomena in a highly concrete way constitute the essence of the greatest good as this book explains
